Spring 2017 Selection Barnes & Noble Discover Great New Writers Spring 2017 Selection ALA 2018 Notable Books Selection An intimate and poignant graphic novel portraying one family's journey from war-torn Vietnam, from debut author Thi Bui. This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. In what Pulitzer Prize-winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," *The Best We Could Do* brings to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

Global Themes and Local Variations in Organization and Management 15 2021 Global Themes and Local Variations in Organization and Management: Perspectives on Glocalization offers a broad exposition of the relations between the global and the local with regard to organizational and managerial ideas, practices, and forms. This edited volume forges ahead to capture the complexity of modern management and organization that results from the processes of glocalization. Universality is among the core underlying principles of the management of organizations, as well as of organization and management science itself. Yet, reality reveals enormous variation across social and cultural contexts. For instance, multinational corporations must adjust their management practices to adhere to national regulation and local standards; manufacturers and service providers routinely tailor their products to suit the local preferences of consumers; and non-profit organizations amend their advocacy agenda to appeal to local sentiments. The work assembled here goes beyond merely describing such patterns of variation and adaptation in organization and management; research and commentary engage directly with the tensions between homogeneity and heterogeneity, convergence and divergence, global and local. With contributions from leading scholars in the field of comparative organization studies, this collection offers a substantive contribution to the investigation of organization and management, as well as providing a valuable resource for students of organization studies, international business, and sociology.

Transforming Themes Jan 07 2021 Transforming Themes challenges the dominant view of psychotherapy as a structured, reductionist process. Instead, it views psychotherapy as an alive, unrehearsed interaction that embraces healing when it is focused on the role of 'therapeutic themes'. These themes are the entrenched frames of references or contexts from which clients perceive their lives. In any interaction, each participant has a unique worldview. When clients come to therapy, they bring their problems in the form of a theme: 'the woman who can't forgive' or 'the child who is a terror'. Any potential statement or action performed within this theme merely strengthens the problem. Only when the theme of the therapy session has shifted can clients gain access to inner resources to shift perspectives and begin inner

transformation. Effective therapy results from moving clients into more flexible, empowering themes. These changes occur as a result of the dynamic interaction between therapist and client, which embraces improvisation, creativity, and novelty, rather than adherence to specific theories or techniques. Using historical and modern research and colourful case studies, this work will help professionals understand how to easily adapt and apply creative and resourceful therapy interventions, no matter what therapeutic orientation they endorse. This book will enable therapists, counsellors, psychologists, and social workers to gain access to creative, effective methods which help their clients heal while increasing effectiveness and enjoyment in clinical work.

Social Development Jul 25 2022 This edited collection demonstrates that the ideas inherent in social development are practical and not utopian. By discussing and delineating a social development approach, the book argues the need for practicing it at local or grassroots-level communities to promote universal social justice and wellbeing. Towards this end, several leading scholars have presented critical and inspiring thoughts on the significance and usefulness in development of genuine participation of people, bottom-up strategies, self-reliance, capacity building, and egalitarian and empowering partnerships. They also delve into hitherto neglected aspects of social development related to preparing personnel for social development work, ethical imperatives and a new social development paradigm. The world's contemporary problems persist in part because the social development approach in its comprehensive form has not been planned and implemented at local, national and global levels. Social Development presents the optimistic argument that the application of social development ideas can help create a world in which almost all people's wellbeing can be significantly enhanced.

Dimensions and Emerging Themes in Teaching Practicum Aug 02 2020

Dimensions and Emerging Themes in Teaching Practicum establishes a forum to identify the characteristics of good practices of teaching practicum and debates key concepts and emerging themes in the field. The book takes a closer look at practicum from various dimensions and aims to obtain a deeper understanding of how it is perceived and whether the stakeholders in the practicum triad – university based teacher educators, pre-service teachers and school-based mentor teachers – share a common view in the same context. It provides opportunities for personal and professional growth for teacher candidates and an increased familiarity with international employment settings. With contributions throughout from the USA, UK, Germany, Australia, Finland, Norway and Turkey, the book begins with a critical review of teaching practicum studies and goes on to consider such important topics as: pre-service teachers' views of developing

professional practice, virtual tools for teacher training, internationalization and creativity in teacher education programs. The book clarifies these key issues from the lens of research and practice by taking a closer look at practicum from various angles including new trends and practices as a response to changing needs in teacher education. *Dimensions and Emerging Themes in Teaching Practicum* will be of great interest to researchers and students in the teacher education field and will also appeal to teacher educators, policy makers in education and pre-service teachers.

Islam and Christianity Mar 29 2020 In light of the widespread public perception of incompatibility between Islam and Christianity, this book provides a much-needed straightforward comparison of these two great faith traditions from a broad theological perspective. Award-winning scholar John Renard illuminates the similarities as well as the differences between Islam and Christianity through a clear exploration of four major dimensions—historical, creedal, institutional, and ethical and spiritual. Throughout, the book features comparisons between concrete elements such as creedal statements, prayer texts, and writings from major theologians and mystics. It also includes a glossary of technical theological terms. For western readers in particular, this balanced, authoritative work overturns some common stereotypes about Islam, especially those that have emerged in the decade since September 11, 2001.

International Insolvency Law Feb 08 2021 International insolvency is a newly-established branch of the study of insolvency that owes much to the phenomenon of cross-border incorporations and the conduct of business in more than one jurisdiction. It is largely the offspring of globalization and involves looking at both law and economic rules. This book is a compendium of essays by eminent academics and practitioners in the field who trace the development of the subject, give an account of the influences of economics, legal history and private international law, and chart its relationship with finance and security issues as well as the importance of business rescue as a phenomenon. Furthermore, the essays examine how international instruments introduced in recent years function as well as how the subject itself is continually being innovated by being confronted by the challenges of other areas of law with which it becomes entangled.

New Frontiers in Forensic Linguistics Jul 13 2021 The field of forensic linguistics is a niche area that has not enjoyed much participation from the African continent. The theme of language and the law in this book is one that straddles two important aspects of

the legal history of South Africa in particular, and how it has impacted on the country's legal and education systems. The declaration, by the United Nations, of 2019 as 'The International Year of Indigenous Languages' is opportune, not only for the launch of this book, but for what its research content tells us of the strides taken in ensuring access to justice for all citizens of the world in a language they understand. The contributions by authors in this book tell the story of many African citizens, and those hailing from beyond our borders, who straddle the challenges of linguistic and legal pluralism in courtrooms across their respective countries. It is our hope that the contributions made in this book will assist in ensuring human rights become a reality for global citizens where indigenous voices have not been heard; and that these citizens will be free to give their testimonies in a language of their choice, and that they may be heard and understood.
