Doug Unplugged: Read & Listen Edition Aug 30 2020 ****Check out the Doug Unplugs animated series on Apple TV!**** It's easy being a robot, if you play by all the rules—but when Doug gets curious, he decides to unplug and forge his own path. And he discovers a whole world of what's possible. Doug is a robot. His parents want him to be smart, so each morning they plug him in and start the information download. After a morning spent learning facts about the city, Doug suspects he could learn even more about the city by going outside and exploring it. And so Doug . . . unplugs. What follows is an exciting day of adventure and discovery. Doug learns amazing things by doing and seeing and touching and listening—and above all, by interacting with a new friend. Dan Yaccarino's funny story

of robot rebellion is a great reminder that sometimes the best way to learn about the world is to go out and be in it. Praise for *Doug Unplugged*: "A gentle robotic rebellion." —USA Today A sweet tale . . . Yaccarino [is] especially good at slipping in the small, nourishing details that are savored upon repeated readings." —The New York Times

Otter B Brave Dec 14 2021 *Otter B Brave* is the third in a series of six children's picture books that are intended to teach young children basic biblical character traits. In this book, Otter is afraid to do show-and-tell at school. After Otter's dad tells him that God gives us friends to help us be less afraid, Otter decides to use his friend as his show-and-tell item. Each book in the series ends with a rhyme that reinforces the book's theme: "If you are feeling nervous And you're shaky in the knees, Try asking God to make you brave It's how you Otter Be!"

Toys and American Culture: An Encyclopedia Jul 29 2020 Tracing developments in toy making and marketing across the evolving landscape of the 20th century, this encyclopedia is a comprehensive reference guide to America's most popular playthings and the culture to which they belong. • Nearly 200 alphabetically arranged entries document the historical and cultural significance of toys • Cross-references and a listing of additional resources accompany each entry and encourage further investigation • Photographs and illustrations gathered from public and private collections across the country depict the entire century of America at play • A guide to related topics identifies the entries according to broader categories such as toys, designers, companies, museums, events, and organizations • A resource guide provides information for contacting American toy companies, accessing national toy museums, and attending annual toy festivals, and offers many avenues for pursuing further information about toys and American culture including books, scholarly journals, audio recordings, films, and websites

Interface Design for Learning Jul 21 2022 In offices, colleges, and living rooms across the globe, learners of all ages are logging into virtual laboratories, online classrooms, and 3D worlds. Kids from kindergarten to high school are honing math and literacy skills on their phones and iPads. If that weren't enough, people worldwide are aggregating internet services (from social networks to media content) to learn from each other in "Personal Learning Environments." Strange as it sounds, the future of education is now as much in the hands of digital designers and programmers as it is in the hands of teachers. And yet, as interface designers, how much do we really know about how people learn? How does interface design actually impact learning? And how do we design environments that support both the cognitive and emotional sides of learning experiences? The answers have been hidden away in the research on education, psychology, and human computer interaction, until now. Packed with over 100 evidence-based strategies, in this book you'll learn how to: Design educational games, apps, and multimedia interfaces in ways that enhance learning Support creativity, problem-solving, and collaboration through interface design Design

effective visual layouts, navigation, and multimedia for online and mobile learning Improve educational outcomes through interface design.

The Little Red Rescue Box (PAW Patrol) May 07 2021 Boys and girls ages 0 to 3 will love these four stories starring the awesome pups of Nickelodeon's PAW Patrol! It features a sturdy handle for adventures on the go. This Nickelodeon read-along contains audio narration.

Designing the User Interface Nov 13 2021 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The much-anticipated fifth edition of *Designing the User Interface* provides a comprehensive, authoritative introduction to the dynamic field of human-computer interaction (HCI). Students and professionals learn practical principles and guidelines needed to develop high quality interface designs—ones that users can understand, predict, and control. It covers theoretical foundations, and design processes such as expert reviews and usability testing. Numerous examples of direct manipulation, menu selection, and form fill-in give readers an understanding of excellence in design The new edition provides updates on current HCI topics with balanced emphasis on mobile devices, Web, and desktop platforms. It addresses the profound changes brought by user-generated content of text, photo, music, and video and the raised expectations for compelling user experiences. Provides a broad survey of designing, implementing, managing, maintaining, training, and refining the user interface of interactive systems. Describes practical techniques and research-supported design guidelines for effective interface designs Covers both professional applications (e.g. CAD/CAM, air traffic control) and consumer examples (e.g. web services, e-government, mobile devices, cell phones, digital cameras, games, MP3 players) Delivers informative introductions to development methodologies, evaluation techniques, and user-interface building tools. Supported by an extensive array of current examples and figures illustrating good design principles and practices. Includes dynamic, full-color presentation throughout. Guides students who might be starting their first HCI design project Accompanied by a Companion Website with additional practice opportunities and informational resources for both students and professors.

Inclusive Leisure Services Jan 23 2020 *Inclusive Leisure Services, Third Edition* encourages leisure services providers to promote inclusion of people with disabilities in their programs. This text will educate future and current leisure services professionals about attitude development and actions that promote positive attitudes about people who have experienced discrimination and segregation. It provides strategies that will facilitate meaningful leisure participation by all participants, while respecting their rights.

Rewired Apr 06 2021 Look around at today's youth and you can see how technology has changed their lives. They lie on their beds and study while listening to mp3 players, texting and chatting online with friends, and reading and posting Facebook messages. How does the new, charged-up, multitasking generation respond to traditional textbooks and lectures? Are we effectively reaching today's technologically advanced youth? *Rewired* is the first book to help educators and parents teach to this new generation's radically different learning styles and needs. This book will also help parents learn what to expect from their "techie" children concerning school, homework, and even socialization. In short, it is a book that

exposes the impact of generational differences on learning while providing strategies for engaging students at school and at home.

Early Childhood Mathematics Skill Development in the Home Environment May 19 2022 This volume presents current research on the connections between the home and family environment on children's mathematics development. Focusing on infancy through first grade, it details the role of parents and other caregivers in promoting numeracy and the ways their active participation can prepare young children for learning about formal mathematics. Research data answer key questions regarding the development of numeracy alongside cognitive and linguistic skills, early acquisition of specific math skills, and numeracy of children with atypical language skills. The book also provides practical recommendations for parents and other caregivers as well as implications for future research studies and curriculum design. Included in the coverage: Ways to optimize home numeracy environments. Individual differences in numerical abilities. Cross-cultural comparisons and ways to scaffold young children's mathematical skills. Mathematics and language in the home environment. Center-based and family-based child care. Games and home numeracy practice. Early Childhood Mathematics Skill Development in the Home Environment is an essential resource for researchers, graduate students, and professionals in infancy and early childhood development, child and school psychology, early childhood education, social work, mathematics education, and educational psychology.

Recorder from the Beginning: Pupil's Book 1 Feb 16 2022 Recorder From The Beginning: Pupil's Book 1 (2004 Edition) is the full-colour revised edition of John Pitts' best-selling recorder course. The eight extra pages in Book 1 have allowed for some new tunes and rounds, whilst retaining the well-known favourites that have helped to make the scheme such an enduring success. This is the book we all learned from as children and is still, successfully, teaching today's youth how to play the Recorder.

Growing Up With Technology Apr 18 2022 Growing Up with Technology explores the role of technology in the everyday lives of three- and four-year-old children, presenting the implications for the children's continuing learning and development. Children are growing up in a world where the internet, mobile phones and other forms of digital interaction are features of daily life. The authors have carefully observed children's experiences at home and analysed the perspectives of parents, practitioners and the children themselves. This has

enabled them to provide a nuanced account of the different ways in which technology can support or inhibit learning. Drawing on evidence from their research, the authors bring a fresh approach to these debates, based on establishing relationships with children, families and educators to get insights into practices, values and attitudes. A number of key questions are considered, including: Which technologies do young children encounter at home and preschool? What kind of learning takes place in these encounters? How can parents and practitioners support this learning? Are some children disadvantaged when it comes to learning with technology? *Growing Up with Technology* is strongly grounded in a series of research projects, providing new ways of thinking about how children's learning with technology can be supported. It will be of great interest to undergraduate and postgraduate students on a range of courses including childhood studies, and those with a particular interest in the use of technology in education. Parents, practitioners and researchers will also find this a fascinating and informative read.

The Monster at the End of this Book (Sesame Street) Aug 10 2021 Many adults name this book as their favorite Little Golden Book. Generations of kids have interacted with lovable, furry old Grover as he begs the reader not to turn the page—for fear of a monster at the end of the book. “Oh, I am so embarrassed,” he says on the last page . . . for, of course, the monster is Grover himself! This all-time favorite is now available as a Big Little Golden Book—perfect for lap-time reading.

Farming Freshwater Prawns Jun 08 2021 This manual provides information on the farming of *Macrobrachium rosenbergii*. Many of the techniques described are also applicable to other species of freshwater prawns that are being cultured. The manual is not a scientific text but is intended to be a practical guide to in-hatchery and on-farm management. The target audience is therefore principally farmers and extension workers. However, it is also hoped that, like the previous manual on this topic, it will be useful for lecturers and students alike in universities and other institutes that provide training in aquaculture.

Eating Disorders and Obesity Sep 23 2022 Eating Disorders have traditionally been considered apart from public health concerns about increasing obesity. It is evident that these problems are, however, related in important ways. Comorbid obesity and eating disorder is increasing at a faster rate than either obesity or eating disorders alone and one in five people with obesity also presents with an Eating Disorder, commonly but not limited to Binge Eating Disorder. New disorders have emerged such as normal weight or Atypical Anorexia Nervosa. However research and practice too often occurs in parallel with a failure to understand the weight disorder spectrum and consequences of co-morbidity that then contributes to poorer outcomes for people living with a larger size and an Eating Disorder. Urgently needed are trials that will inform more effective assessment, treatment and care where body size and eating disorder symptoms are both key to the research question.

Freshwater Prawn Culture Sep 30 2020 The farming of the freshwater prawn *Macrobrachium rosenbergii* has developed rapidly during recent years. Advances in techniques, and the huge expansion of world demand for this species, continue to stimulate the growth of a multi-million dollar industry. This landmark publication is a compendium of information on every aspect of the farming of *M. rosenbergii*. A comprehensive review of the status of freshwater prawn farming research, development and commercial practice, the book is intended to stimulate further advances in the knowledge and understanding of this important field. An extremely well-known and internationally-respected team of contributing authors have written cutting edge chapters covering all major aspects of the subject. Coverage includes biology, hatchery and grow-out culture systems, feeds and feeding, up-to-date information on the status of freshwater prawn farming around the world, post-harvest handling and processing, markets, and economics and business management. Further chapters are devoted to the culture of other prawn species, prawn capture fisheries and the sustainability of freshwater prawn culture. Contributions to the book have been brought together and edited by Michael New and Wagner Valenti, themselves widely known for their work in this area. The comprehensive information in *Freshwater Prawn Culture* will give an important commercial edge to anyone involved in the culture and trade of freshwater prawns. Readership should include prawn farm personnel, business managers and researchers, and invertebrate, freshwater and crustacean biologists. Copies of the book should be available on the shelves of all libraries in research establishments and universities where aquaculture and fisheries are studied and taught. Michael Bernard New, OBE is a Past-President of the World Aquaculture Society and President-Elect of the European Aquaculture Society; Wagner Cotroni Valenti is a Professor at the Aquaculture Center, São Paulo State University, Brazil.

Teaching and Learning about Family Literacy and Family Literacy Programs Mar 05 2021

This book provides a systematic exploration of family literacy, including its historic origins, theoretical expansion, practical applications within the field, and focused topics within family literacy. Grounded in sociocultural approaches to learning and literacy, the book covers research on how families use literacy in their daily lives as well as different models of family literacy programs and interventions that provide opportunities for parent-child literacy interactions and that support the needs of children and parents as adult learners. Chapters discuss key topics, including the roles of race, ethnicity, culture, and social class in family literacy; digital family literacies; family-school relationships and parental engagement in schools; fathers' involvement in family literacy; accountability and employment; and more. Throughout the book, Lynch and Prins share evidence-based literacy practices and highlight examples of successful family literacy programs. Acknowledging lingering concerns, challenges, and critiques of family literacy, the book also offers recommendations for research, policy, and practice. Accessible and thorough, this book comprehensively addresses family literacies and is relevant for researchers, scholars, graduate students, and instructors and practitioners in language and literacy programs.
