The Moor's Last Stand Dec 25 2019 In 1482, Abu Abdallah Muhammad XI became the twenty-third Muslim King of Granada. He would be the last. This is the first history of the ruler, known as Boabdil, whose disastrous reign and bitter defeat brought seven centuries of Moorish Spain to an end. It is an action-packed story of intrigue, treachery, cruelty, cunning, courtliness, bravery and tragedy. Basing her vivid account on original documents and sources, Elizabeth Drayson traces the origins and development of Islamic Spain. She describes the thirteenth-century founding of the Nasrid dynasty, the cultured and stable society it created, and the feuding which threatened it and had all but destroyed it by 1482, when Boabdil seized the throne. The new Sultan faced betrayals by his family, factions in the Alhambra palace, and ever more powerful onslaughts from the forces of Ferdinand and Isabella, monarchs of the newly united kingdoms of Castile and Aragon. By stratagem, diplomacy, courage and strength of will Boabdil prolonged his reign for ten years, but he never had much chance of survival. In 1492 Ferdinand and Isabella, magnificently attired in Moorish costume, entered Granada and took possession of the city. Boabdil went into exile. The Christian reconquest of Spain, that has reverberated so powerfully down the centuries, was complete.

Parables of Coercion Jul 24 2022 Focuses on how questions surrounding the conversion of Muslims and Jews to Christianity in 16th and 17th century Spain drove religious reform and scholarly innovation.

The Conversos and Moriscos in Late Medieval Spain and Beyond Feb 19 2022 Converso and Morisco are the terms applied to those Jews and Muslims who converted to Christianity (mostly under duress) in late medieval Spain. "Converso and Moriscos Studies" examines the manifold cultural implications of these mass conversions.

Blood and Faith Oct 27 2022 In 1609, the entire Muslim population of Spain was given three days to leave Spanish territory or else be killed. In a brutal and traumatic exodus, entire families were forced to abandon the homes and villages where they had lived for generations. In just five years, Muslim Spain had effectively ceased to exist: an estimated 300,000 Muslims had been removed from Spanish territory making it what was then the largest act of ethnic cleansing in European history. *Blood and Faith* is a riveting chronicle of this virtually unknown episode, set against the vivid historical backdrop of Muslim Spain. It offers a remarkable window onto a little-known period in modern Europe - a rich and complex tale of competing faiths and beliefs, of cultural oppression and resistance against overwhelming odds.

The Expulsion of the Moriscos from Spain Aug 25 2022 The Expulsion of the Moriscos from Spain offers a multi-perspective study of the forced migration and diaspora of the crypto-Muslim minority in the Mediterranean in the first half of the 17th century.

Secrecy and Deceit Feb 25 2020 *Secrecy and Deceit* documents the religious customs of the Iberian Jews who converted to Catholicism, largely under duress, in the fourteenth and fifteenth centuries. Although many of the converts quickly melded into the Catholic mainstream, thousands of others and their descendents strove to preserve their Jewish culture despite the efforts of the Inquisition to suppress them. The book details crypto-Jewish culture in Spain, Portugal, and their American colonies, principally Mexico, Peru, and Brazil. The author uses Inquisition records, chronicles, rabbinical rulings, letters, eyewitness accounts, religious books, and other historical documents to give the

most thorough and accurate picture of crypto-Jews ever cataloged. This book raises questions about living outside a Jewish community and what happens to religions of approximation.

The Moriscos of Spain Sep 21 2019 Excerpt from *The Moriscos of Spain: Their Conversion and Expulsion* The material on which this volume is based was collected for a chapter in a general history of the Spanish Inquisition which I hope in due time to prepare. On reviewing it the subject has seemed to me to possess interest and importance deserving fuller treatment than it could receive as a mere episode in a larger narrative, for it not only embodies a tragedy commanding the deepest sympathy, but it epitomizes nearly all the errors and tendencies which combined to cast down Spain, in little more than a century, from its splendor under Charles V. to its humiliation under Carlos II. The labors of modern Spanish scholars have made public a mass of documentary evidence which throws much light on the inner history of the movements leading up to the final catastrophe, but this has been mostly drawn from state papers and unconsciously minimizes the part taken by intolerance and embodied in the Inquisition. Jewish Remnants in Spain Sep 26 2022 Beginning with a brief summary of Spanish Jewry, the work considers twenty-five pre-Expulsion Jewish communities. The few remnants of the transcendent history of the Jews in Spain can be considered prophetic of what was to transpire in twentieth-century Europe. The institutionalized legal process, which led to the Holy Office of the Inquisition and the Edict of Expulsion in 1492, carried out a plan to exterminate the Jewish people. *Jewish Remnants in Spain* may serve as a guidebook for tourists, especially Jewish tourists. The 183 in situ illustrations included are the author's original work.

Conversos, Inquisition, and the Expulsion of the Jews from Spain Jun 23 2022 The Jewish community of medieval Spain was the largest and most important in the West for more than a thousand years, participating fully in cultural and political affairs with Muslim and Christian neighbors. This stable situation began to change in the 1390s, and through the next century hundreds of thousands of Jews converted to Christianity. Norman Roth argues here with detailed documentation that, contrary to popular myth, the conversos were sincere converts who hated (and were hated by) the remaining Jewish community. Roth examines in depth the reasons for the Inquisition against the conversos, and the eventual expulsion of all Jews from Spain. "With scrupulous scholarship based on a profound knowledge of the Hebrew, Latin, and Spanish sources, Roth sets out to shatter all existing preconceptions about late medieval society in Spain."—Henry Kamen, *Journal of Ecclesiastical History* "Scholarly, detailed, researched, and innovative. . . . As the result of Roth's writing, we shall need to rethink our

knowledge and understanding of this period.”—Murray Levine, *Jewish Spectator* “The fruit of many years of study, investigation, and reflection, guaranteed by the solid intellectual trajectory of its author, an expert in Jewish studies. . . . A contribution that will be particularly valuable for the study of Spanish medievalism.”—Miguel Angel Motis Dolader, *Anuario de Estudios Medievales*

Converting Fiction Aug 21 2019 This study examines the many ways in which seventeenth-century Spanish authors manipulated the expected outcomes of secular literature to create religiously motivated endings prompted by some kind of conversion. In the late sixteenth century, the prevalent technique was to transform the secular material entirely, a *lo divino*. After 1598, however, writers developed the ingenious procedure of ostensibly following a secular account of events but subverting it by inserting an unanticipated religious ending. The specific kinds of conversion at closure examined here are the appropriation of earlier genres; conversion of non-Christian literary types; personal conversion of the native Spaniard through the Catholic ritual of confession, penitence, and absolution; conversion of the nation's historical material; and conversion of the very landscape upon which Christians walk in their pilgrimage through life.

Faith and Fanaticism Jan 06 2021 The Spanish Inquisition is often seen as the archetype of religious fervour and fanaticism, and several of the papers here naturally focus on its activities. Overall, however, this volume aims to look at the broader context of religious attitudes in Spain, from the end of the 15th to the late 17th century. In an examination of how the religious orders behaved, the contributors demonstrate that concepts which may now appear excessive were perceived at that time. Similarly, poetry and other literary texts provide evidence for how Jews viewed Christians and Christians viewed Moors.

Converts in New Spain Jun 30 2020 This book, originally published in the 1980s is one of the pioneering studies of the Jewish population in Mexico. The author, Alicia Gojman not only has a long and outstanding career as a historian; she has also played a significant role in the culture of contemporary Mexican Jews. She has been the promoter of a cultural project that has managed to combine important documentary collections maintained in a vital center dedicated to the study and dissemination of the Judeo-Mexican culture. She has promoted far-reaching editorial projects, in which the memories, images, documents and contributions of generations of Jews in Mexico have been combined. *Converts in New Spain*, is a study about the Converts and Crypto-Jews who travelled along with conquerors and colonizers to the New World. 1492, the year of the expulsion of the Jews from Spain, is the end of the history of Spanish Judaism and the beginning of the history of the convert in the Americas. The history of the converts in the New World starts with its discovery, since they themselves participated in the exploration and colonization in a much greater degree than in commonly acknowledged. As part of the Spanish society, they came to the Americas feeling like other Christian Spaniards, "chosen" by God to find in this New World, a New Jerusalem. Their integration to the colonial society was not easy, when they were asked for their "blood cleanness," or when they were harassed by the Inquisition Tribunal. However, these converts, participated in the economic, political, social and cultural development of New Spain. Originally published in Spanish by the National Autonomous University of Mexico, UNAM, this is the first English edition. About the author: Alicia Gojman Goldberg was born in Mexico city. She has a PhD degree in History from UNAM, where she is a professor and researcher at the FES Acatlán. She has published over 20 books and 194 articles about Mexican and Jewish history. She is the Honorary Director of the Jewish Research and

Documentation Center in Mexico; a member of the Mexican National Research System since 1984. She has received UNAM's Sor Juana in 2005, an Honorary Fellowship from Tel Aviv's university in 2006; the Cultural award from the Mexico-Israel Cultural Institute in 2007. The Anastasio Sarabia Award for Archival work in 2009. The Spanish Inquisition Sep 02 2020 Thirty-five years ago, Kamen wrote a study of the Inquisition that received high praise. This present work, based on over 30 years of new research, is not simply a complete revision of the earlier book. Innovative in its presentation, point of view, information, and themes, it will revolutionize further study in the field.

Muslims in Spain, 1500 to 1614 Aug 01 2020 On December 18, 1499, the Muslims in Granada revolted against the Christian city government's attempts to suppress their rights to live and worship as followers of Islam. Although the Granada riot was a local phenomenon that was soon contained, subsequent widespread rebellion provided the Christian government with an excuse—or justification, as its leaders saw things—to embark on the systematic elimination of the Islamic presence from Spain, as well as from the Iberian Peninsula as a whole, over the next hundred years. Picking up at the end of his earlier classic study, *Islamic Spain, 1250 to 1500*—which described the courageous efforts of the followers of Islam to preserve their secular, as well as sacred, culture in late medieval Spain—L. P. Harvey chronicles here the struggles of the Moriscos. These forced converts to Christianity lived clandestinely in the sixteenth century as Muslims, communicating in *aljamiado*—Spanish written in Arabic characters. More broadly, *Muslims in Spain, 1500 to 1614*, tells the story of an early modern nation struggling to deal with diversity and multiculturalism while torn by the fanaticism of the Counter-Reformation on one side and the threat of Ottoman expansion on the other. Harvey recounts how a century of tolerance degenerated into a vicious cycle of repression and rebellion until the final expulsion in 1614 of all Muslims from the Iberian Peninsula. Retold in all its complexity and poignancy, this tale of religious intolerance, political maneuvering, and ethnic cleansing resonates with many modern concerns. Eagerly awaited by Islamist and Hispanist scholars since Harvey's first volume appeared in 1990, *Muslims in Spain, 1500 to 1614*, will be compulsory reading for student and specialist alike. “The year’s most rewarding historical work is L. P. Harvey’s *Muslims in Spain 1500 to 1614*, a sobering account of the various ways in which a venerable Islamic culture fell victim to Christian bigotry. Harvey never urges the topicality of his subject on us, but this aspect inevitably sharpens an already compelling book.”—Jonathan Keats, *Times Literary Supplement*

Islamic Literature in Spanish and Aljamiado May 22 2022 This work is a study of Islam in medieval Christian Spain, focussing on the Mudejar religious authority Yca Gidelli (fl. 1450) and his Islamic writings in Spanish. On the basis of published and unpublished sources in Spanish and Arabic, it sheds new light on the religious history of the Muslim minorities.

Truth in Many Tongues Sep 14 2021 *Truth in Many Tongues* examines how the Spanish monarchy managed an empire of unprecedented linguistic diversity. Considering policies and strategies exerted within the Iberian Peninsula and the New World during the sixteenth century, this book challenges the assumption that the pervasiveness of the Spanish language resulted from deliberate linguistic colonization. Daniel I. Wasserman-Soler investigates the subtle and surprising ways that Spanish monarchs and churchmen thought about language. Drawing from inquisition reports and letters; royal and ecclesiastical correspondence; records of church assemblies, councils, and synods; and printed books

in a variety of genres and languages, he shows that Church and Crown officials had no single, unified policy either for Castilian or for other languages. They restricted Arabic in some contexts but not in others. They advocated using Amerindian languages, though not in all cases. And they thought about language in ways that modern categories cannot explain: they were neither liberal nor conservative, neither tolerant nor intolerant. In fact, Wasserman-Soler argues, they did not think predominantly in terms of accommodation or assimilation, categories that are common in contemporary scholarship on religious missions. Rather, their actions reveal a highly practical mentality, as they considered each context carefully before deciding what would bring more souls into the Catholic Church. Based upon original sources from more than thirty libraries and archives in Spain, Italy, the United States, England, and Mexico, *Truth in Many Tongues* will fascinate students and scholars who specialize in early modern Spain, colonial Latin America, Christian-Muslim relations, and early modern Catholicism.

The Story of the Moors in Spain Oct 03 2020 *The Story of the Moors in Spain* is a history of the Moorish Empire in Andalusia, chronicling the rise and fall of the Islamic empire, and with it the stymie of a "civilized and enlightened State." Author Stanley Lane-Poole catalogues the art, architecture, religion, science, and industry that flourished with the establishment of the Muslim regime in Spain. A rare non-Christian history from the 19th century, students and researchers alike should cherish this classic text, included here with original illustrations. Born in 1854 in London, England, STANLEY LANE-POOLE was a British historian, orientalist, and archaeologist. Lane-Poole worked in the British Museum from 1874 to 1892, thereafter researching Egyptian archaeology in Egypt. From 1897 to 1904 he was a professor of Arabic studies at Dublin University. Before his death in 1931, Lane-Poole authored dozens of books, including the first book of the Arabic-English Lexicon started by his uncle, E.W. Lane.

Polemical Encounters Aug 13 2021 This collection takes a new approach to understanding religious plurality in the Iberian Peninsula and its Mediterranean and northern European contexts. Focusing on polemics—works that attack or refute the beliefs of religious Others—this volume aims to challenge the problematic characterization of Iberian Jews, Muslims, and Christians as homogeneous groups. From the high Middle Ages to the end of the seventeenth century, Christian efforts to convert groups of Jews and Muslims, Muslim efforts to convert Christians and Jews, and the defensive efforts of these communities to keep their members within the faiths led to the production of numerous polemics. This volume brings together a wide variety of case studies that expose how the current historiographical focus on the three religious communities as allegedly homogeneous groups obscures the diversity within the Christian, Jewish, and Muslim communities as well as the growing ranks of skeptics and outright unbelievers. Featuring contributions from a range of academic disciplines, this paradigm-shifting book sheds new light on the cultural and intellectual dynamics of the conflicts that marked relations among these religious communities in the Iberian Peninsula and beyond. In addition to the editors, the contributors are Antoni Biosca i Bas, Thomas E. Burman, Mònica Colominas Aparicio, John Dagenais, Óscar de la Cruz, Borja Franco Llopis, Linda G. Jones, Daniel J. Lasker, Davide Scotto, Teresa Soto, Ryan Szpiech, Pieter Sjoerd van Koningsveld, and Carsten Wilke.

The Jews of Spain Mar 08 2021 A collection of 100 documents translated into English from Latin, Castilian, Catalan, and Hebrew, covering the history and communal life of the Jews in Spain. Preceded by a historical survey mentioning periods of persecution under the Visigoths, the decline in the Jews' status after the Christian reconquest in the 11th century, the 14th century anti-Jewish riots and forced conversions, anti-

Jewish legislation, and publication of anti-Jewish polemical literature. In 1480 the Inquisition was established to combat Judaizing amongst the Conversos; in 1492 the Jews were forced to convert or leave Spain.

The Other Within May 10 2021 "He describes the Marranos as "the Other within" - people who both did and did not belong. Rejected by most Jews as renegades and by most veteran Christians as Jews with impure blood, Marranos had no definite, integral identity, Yovel argues. The "Judaizers" - Marranos who wished to remain secretly Jewish - were not actually Jews, and those Marranos who wished to assimilate were not truly integrated as Hispano-Catholics. Rather, mixing Jewish and Christian symbols and life patterns, Marranos were typically distinguished by a split identity. They also discovered the subjective mind, engaged in social and religious dissent, and demonstrated early signs of secularity and this-worldliness. In these ways, Yovel says, the Marranos anticipated and possibly helped create many central features of modern Western and Jewish experience.

Spain Unmoored Nov 16 2021 Long viewed as Spain's "most Moorish city," Granada is now home to a growing Muslim population of Moroccan migrants and European converts to Islam. Mikaela H. Rogozen-Soltar examines how various residents of Granada mobilize historical narratives about the city's Muslim past in order to navigate tensions surrounding contemporary ethnic and religious pluralism. Focusing particular attention on the gendered, racial, and political dimensions of this new multiculturalism, Rogozen-Soltar explores how Muslim-themed tourism and Islamic cultural institutions coexist with anti-Muslim sentiments.

The Orient in Spain Dec 29 2022 The Spanish Orient offers a study of the Morisco minority in Early Modern Granada through the affair of the forged Arabic gospels found in the city at the end of 16th century. It connects the findings of this gospel with the origins of Orientalism.

To Live Like a Moor Nov 23 2019 To Live Like a Moor traces the many shifts in Christian perceptions of Islam-associated ways of life which took place across the centuries between early Reconquista efforts of the eleventh century and the final expulsions of Spain's converted yet poorly assimilated Morisco population in the seventeenth.

Muslims in Spain, 1492-1814 Nov 28 2022 "In Muslims in Spain, 1492-1814: Living and Negotiating in the Land of the Infidel, Eloy Martín-Corrales surveys Hispano-Muslim relations from the late fifteenth to the eighteenth centuries, a period of chronic hostilities. Nonetheless there were thousands of Muslims in Spain during this time: ambassadors, exiles, merchants, converts, and travelers. Their negotiating strategies and the necessary support they found on both shores of the Mediterranean prove that relations between Spaniards and Muslims were based on reasons of state and a pragmatism that generated intense ties, both political and economic. These increased enormously after the peace treaties that Spain signed with Muslim countries between 1767 and 1791"--
