[Behavioral Science & Policy: Volume 1, Issue 2](#) Nov 01 2019 The success of nearly all public- and private- sector policies hinges on the behavior of individuals, groups, and organizations. Today, such behaviors are better understood than ever, thanks to a growing body of practical behavioral science research. However, policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies. The pages of this new journal will become a meeting ground: a place where scientists and non-scientists can encounter clearly described behavioral research that can be put into action. By design, the scope of BSP is broad, with topics spanning health care, financial decisionmaking, energy and the environment, education and culture, justice and ethics, and work place practices. Contributions will be made by researchers

with expertise in psychology, sociology, law, behavioral economics, organization science, decision science, and marketing. The journal is a key offering of the Behavioral Science & Policy Association in partnership with the Brookings Institution. The mission of BSPA is to foster dialog between social scientists, policymakers, and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest. BSPA does not advance a particular agenda or political perspective. The first issue's contents follow. Behavioral Science & Policy, vol. 1, no. 2

The Grammar of Good Intentions Oct 25 2021 Susan M. Ryan explores antebellum Americans' preoccupation with the language and practice of benevolence. Drawing on a variety of cultural and literary texts, she traces how people working and writing within social reform movements—and their outspoken opponents—helped solidify racial and class ideologies that ultimately marginalized even the most "deserving" poor. "The links between race and the relations of benevolence occasioned much soul-searching among antebellum Americans," Ryan explains. "In a period of heated public debate over issues such as slavery, Indian removal, and non-Protestant immigration, the categories of blackness, Indianness, and a generic 'foreignness' came to signify, for many whites, need itself." Ryan puts familiar literary works such as Herman Melville's *The Confidence-Man*, Frederick Douglass's *My Bondage and My Freedom*, and Harriet Beecher Stowe's *Uncle Tom's Cabin* back into dialogue with a broad range of print materials: the reports of charity societies, African American and Native American newspapers, juvenile fiction, travel writing, cartoons, sermons, and tract literature. In the process, she dispels the myth that authors usually classified as literary were responding to a simple and unquestioned cult of benevolence. Rather, she contends, they were participating in the complex and often rancorous debates occurring within the broader culture over how good intentions should be expressed and enacted. Ryan's inquiry into the antebellum culture of benevolence has implications for contemporary U.S. society, resonating especially with recent debates over welfare reform, the politics of compassionate conservatism, and representations of "welfare queens" and violent urban youth. As Ryan writes, "The conversations that this book reconstructs remind us of our ongoing participation in the national ritual of laying claim to good intentions."

Good Intentions Make Bad News Aug 11 2020 Discusses the need to reform the media's coverage of presidential politics

Good Intentions—Bad Consequences Feb 26 2022 A new approach to understanding voter choice with important implications. There is a substantial class of voters who would like to

do good but ignore important consequences of their attempts to do so as altruists. The book both shows why such a class exists and tests the implications of that group's behavior in a setting where other voters are self-interested, others are traditionalists, and imitation plays a big role in voter choice. The book also looks at the policy implications of such behavior accepting as desirable, but not fully achievable, the democratic ideal in which sufficiently informed citizens are given equal weight in political choices. Nave altruists ignore the anti-growth consequences of redistribution from the rich as a class to the poor as a class. That ignorance produces too much of that redistribution in terms of the democratic ideal.

Good Intentions Oct 05 2022 We often struggle to answer the question: What is the right thing to do here? Good Intentions suggests that it is possible to do good in economic matters if we begin with the right assumptions (and begins to ask the right questions): —Is greed ever good? —How can we give poor kids a million bucks? —How did Ben and Jerry get so rich? —Is capitalism ruining the environment? —Do immigrants take American jobs? Our actions can produce outcomes that reflect what we value.

Bad Intentions Jan 08 2023 My name isn't Logan Mitchell, but Marcus St. James doesn't know that...When I showed up at my roommate's work party, the last thing I expected was to find a man straight out of my dreams. But when the crowd parted and the fates aligned, there he was, waiting for me. Marcus St. James, president of ENN WorldWide News. Sexy and powerful, with a stare that could freeze you in place, Marcus was the perfect reward for securing a job at Mitchell & Madison, the best law firm in Chicago. To play with the big fish, however, one must become a big fish, and that's where my little white lie began. It was one night. I was never going to see him again, and from the second we spoke, I knew he was interested. It was there in his eyes, the same fire in my veins. It was there in his voice, whenever he said my name. The only problem? It wasn't my name, and now I wanted more—much more. But how can anything good come out of something that started with such bad intentions? Bad Intentions is the first book in the Intentions Duet.

Natural Consequences Dec 07 2022 The exciting sequel to Good Intentions! Alex Carlisle

has enough to deal with even on quiet days. Living with an angel and a succubus is no easy feat. One has divine responsibilities she can't explain, and the other tempts him toward a decadent lifestyle he's not sure he can manage. Add to that the stresses of college and trying to hold down a job, and it's lucky Alex can even keep his head on straight. Yet the complications keep on coming. An amorous (and terrifying) werewolf won't take no for an answer. Vampires from across the country want to know what happened to their allies in Seattle. To top it all off, events in the city have drawn the attention of Federal agents who know far too much about the supernatural, and they have no patience for the chaos that Alex and his friends leave in their wake. **WARNING:** *Natural Consequences* contains explicit sex, explicit violence, explicit expletives, violent misuse of office equipment, nudity, perfidy, disruption of public transit services, polyamory, theft, arson, open relationships, trespassing, heterosexual foreplay, lesbian sex, depictions of beings of a divine and demonic nature bearing little resemblance to established religious or mythological canon, cell phone hacking, contempt of court, flagrant violations of civil rights, dangerous use of alcoholic drinks, infidelity, public sex, bras, panties, murder, attempted murder, blasphemy, atheist rationalizations, cannibalism, prostitution, decapitations, gossiping, defenestration, exsanguinations, tax evasion, sexual harassment, ancient Babylonian marriage customs, horse-poisoning, stalking, selfies, bribery, assault under color of authority, fantasy depictions of sorcery and witchcraft, highly sexualized Halloween costumes, assault and battery, stabbings, excessive handcuff play, mayhem, explosions, existential discussions, controversial topics of sci-fi fandom, living room sex, home invasions, mind control, conspiracy, cohabitation outside of marriage, multiple references to British science fiction literature and television, bad study habits, government surveillance, donuts, spousal abuse, interrogations, even more explicit sex, guys from Eugene, classroom misconduct, sexual misconduct, divine misconduct, general misconduct, voyeurism, reckless driving, murder of Federal agents, poor firearms safety habits, misuse of a swimming pool for gladiatorial combat, insanity, immolations, public endangerment, sexual promiscuity, consistent contempt of vampires (screw 'em, they suck), kidnapping of police officers, kidnapping of Federal agents, underage drinking, dismemberment, abuse of authority, still more explicit sex, electrocutions, destruction of private property, escape from Federal custody, barbering without a cosmetology license, World War I, betrayals, slavery, mild dom/sub play, cosplaying, a high school flashback, infidelity, reliable predictions of eternal damnation, destruction of a nice Zoot suit, nutshots, party fouls, littering, domestic violence, lengthy foreplay, abbreviated foreplay, disrespect for authority, falsification of records, prostitution, public indecency, impersonation of police officers, obstruction of justice, biting, clawing, hair-pulling, trash-talking and a general and willful disregard for traditional Western family values.

With *Good Intentions* Aug 03 2022 *With Good Intentions* examines the joint efforts of Aboriginal people and individuals of European ancestry to counter injustice in Canada when colonization was at its height, from the mid-nineteenth to the early twentieth century. These people recognized colonial wrongs and worked together in a variety of ways to right them, but they could not stem the tide of European-based exploitation. The book is neither an apologist text nor an attempt to argue that some colonizers were simply "well intentioned." Almost all those considered here -- teachers, lawyers, missionaries, activists -- had as their overall goal the Christianization and civilization of Canada's First

Peoples. By discussing examples of Euro-Canadians who worked with Aboriginal peoples, *With Good Intentions* brings to light some of the lesser-known complexities of colonization.

Good Intentions Gone Awry Jun 20 2021 Based on sociological and economic analysis, *Good Intentions Gone Awry* presents valuable new insights into the impact of divorce on American society. Rather than blaming the deterioration in the quality of family life on the decline in so-called family values, lawyer and economist Parkman argues that adults are responding to the incentives created by new opportunities and legal rules. Allen M. Parkman discusses the issues surrounding this sociological phenomena, proposes a reform program in response, and suggests steps that adults can take to create a durable and constructive family until such reforms occur.

The Politics of Good Intentions Jun 01 2022 Tony Blair has often said that he wishes history to judge the great political controversies of the early twenty-first century--above all, the actions he has undertaken in alliance with George W. Bush. This book is the first attempt to fulfill that wish, using the long history of the modern state to put the events of recent years--the war on terror, the war in Iraq, the falling out between Europe and the United States--in their proper perspective. It also dissects the way that politicians like Blair and Bush have used and abused history to justify the new world order they are creating. Many books about international politics since 9/11 contend that either everything changed or nothing changed on that fateful day. This book identifies what is new about contemporary politics but also how what is new has been exploited in ways that are all too familiar. It compares recent political events with other crises in the history of modern politics--political and intellectual, ranging from seventeenth-century England to Weimar Germany--to argue that the risks of the present crisis have been exaggerated, manipulated, and misunderstood. David Runciman argues that there are three kinds of time at work in contemporary politics: news time, election time, and historical time. It is all too easy to get caught up in news time and election time, he writes. This book is about viewing the threats and challenges we face in real historical time.

Good Intentions May 20 2021 River, It has been thirteen years since the war started, the bombs were dropped, and the central states became a thing of the past. When the war ended, a wall was erected to divide the surviving states from those destroyed. I never expected to go beyond the wall, but unlike all the others who volunteered to go, I wasn't given a choice. With a dim knowledge of what I could do, the soldiers came for me. They took me beyond the wall where I learned that the truth is far more terrifying than I'd ever dreamed. Alone, with humans and demons seeking to learn what it is I can do, I find myself irresistibly drawn to the one man I should be avoiding most. One who intrigues and infuriates me. One who is not even a man, not really. Kobal, My entire life, I've had only one mission, reclaim my throne from Lucifer and put right everything that was torn apart when he was cast from Heaven. It's a mission I haven't wavered from, not even when the humans tore open the gates and unleashed Hell on Earth. Now, I've never been closer to obtaining my goal, yet I find myself risking it all because I cannot stay away from her, a human who may be the key to it all. ***There are four books in this paranormal romance series which is now complete. The Westminster Confession of Faith Jul 22 2021 Rowland S. Ward's guide has served as an invaluable resource for many wishing to understand the rich theological tapestry of the Westminster Confession. If you are looking for an easy to read exposition of the Confession with sharp analysis of its contents and relevant discussion questions -- look no further.

Freedom and the Cage Oct 01 2019 Spurred by ideals of individual liberty that took hold in the Western world in the late nineteenth century, psychiatrists and public officials sought to reinvent asylums as large-scale, totally designed institutions that offered a level of freedom and normality impossible in the outside world. This volume explores the "caged freedom" that this new psychiatric ethos represented by analyzing seven such buildings established in the Austro-Hungarian monarchy between the late 1890s and World War I. In the last two decades of the Habsburg Empire, architects of asylums began to abandon traditional corridor-based plans in favor of looser formations of connected villas, echoing through design the urban- and freedom-oriented impulse of the progressive architecture of the time. Leslie Topp considers the paradoxical position of designs that promoted an illusion of freedom even as they exercised careful social and spatial control over patients. In addition to discussing the physical and social aspects of these institutions, Topp shows how the commissioned buildings were symptomatic of larger cultural changes and of the modern asylum's straining against its ideological anchorage in a premodern past of "unenlightened" restraint on human liberty. Working at the intersection of the history of architecture and the history of psychiatry, Freedom and the Cage broadens our understanding of the complexity and fluidity of modern architecture's engagement with the state, with social and medical projects, and with mental health, psychiatry, and psychology.

Faith Seeking Conviviality Mar 30 2022 Faith Seeking Conviviality traces the journey of a U.S. missionary into Brazil (and beyond), seeking to be faithfully present while also questioning the default settings of "good intentions." Taking Ivan Illich as the primary theological guide on that journey, Faith Seeking Conviviality narrates the discovery of a renewed imagination for Christian mission that arises as a response to two persistent questions. First, given the colonial history of Christian missionary expansion, on what basis do we go on fulfilling the "Great Commission" (Matt 28:16-20) as Christ's disciples? A second question, intimately related to the first, is: What makes it possible to embody a distinctively Christian presence that is missionary without being manipulative? In doing theology with and after Ivan Illich, Faith Seeking Conviviality does not offer a pull-off-the-shelf model for mission, but rather a framework for embodying the incarnational logic of mission that entails a "convivial turn"—delinking missionary discipleship from the lure of techniques and institutional dependence in order to receive and to share the peace of Christ relationally.

Between Bombs and Good Intentions Jan 28 2022 The wars in Afghanistan and Iraq have highlighted again the precarious situation aid agencies find themselves in, caught as they are between the firing lines of the hostile parties, as they are trying to alleviate the plight of the civilian populations. This book offers an illuminating case study from a previous conflict, the Italo-Ethiopian war of 1935-36, and of the humanitarian operation of the Red Cross during this period. Based on fresh material from Red Cross and Italian military archives, the author examines highly controversial subjects such as the Italian bombings of Red Cross field hospitals, the treatment of Prisoners of War by the two belligerents; and the effects of Fascist Italy's massive use of poison gas against the Ethiopians. He shows how Mussolini and his ruthless regime, throughout the seven-month war, manipulated the International Committee of the Red Cross (ICRC) – the lead organization of the Red Cross in times of war, helped by the surprising political naïveté of its board. During this war the ICRC redefined its role in a debate, which is fascinating not least because of its relevance to current events, about the nature of humanitarian action. The organization decided to concern itself exclusively with matters falling under the Geneva Conventions and to give priority to bringing relief over expressing protest. It was a decision that should have far-reaching consequences, particularly for the period of World War II and the fate of Jews in Nazi concentration camps.
