Feb 04 2021 11+ Practice Papers prepare children for the secondary school selection tests. This pack focuses on the Multiple-choice tests and mirrors the real tests in both format and level. •Contains practice tests for focused preparation •Identifies areas of weakness and strength •Includes detailed parental notes **BNVR** Sep 23 2022 The BNVR Test is a unique non-linguistic approach for identifying whether a cognitive (problem-solving) deficit as well as a

linguistic deficit exists in individuals with acquired aphasia. Recognising cognitive deficits in terms of problem-solving may be a key factor in understanding why some individuals overcome their communication difficulties better than others. Failure to recognise problem-solving difficulties may lead to unrealistic expectations of therapeutic intervention and thus inappropriate management and goal setting. The BNVR requires the client to solve 10 everyday problems, presented in full-colour photographic format. It is short, requires

minimal linguistic input, contains real-life situations and is likely to be suitable for non-English speaking individuals. It will be useful to speech language therapists, occupational therapists and psychologists who need to ascertain whether problem-solving skills are affected and to assist in multi-disciplinary team decision-making in acute and rehabilitation settings.
