**Where Secrets Live** Jan 18 2022 In the vein of Wendy Walker and Karen Dionne, this twisted family saga speaks to dark family secrets and how some families will kill to keep them. Raised by stepparents after the loss of their birth parents, Liz and Meredith McCallister are the only constants in each other's lives—until Meredith is murdered in her lake home. Devastated by the loss, Liz becomes desperate to know why Meredith was killed. But the more she digs into her sister's past, the uglier the story gets. As a teenager, Meredith gave up a child for adoption. When Liz meets her niece for the first time, she finds an angry, troubled teenager, whose reappearance in her mother's life may have been the catalyst that got Meredith killed. When Liz digs deeper into her sister's life and murder, she finds that their family had many buried secrets. But as Liz uncovers the truth, she realizes that not all secrets were meant to come to light, and her efforts have drawn the attention of someone who is determined to keep the past hidden—even if the cost is Liz's life.

**Lemon-Aid New Cars and Trucks 2011** Jun 23 2022 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, 'fess up." *Consumer Reports New Car Buying Guide* Nov 04 2020 Provides reviews and ratings of new cars, along with details on safety features and the results of crash testing.

**Lemon-Aid New Cars and Trucks 2012** Jul 24 2022 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

**Criminal Law** Feb 25 2020 Criminal Law: Historical, Ethical, and Moral Foundations, 3rd edition, blends legal and moral reasoning in the examination of crimes and explores the history relating to jurisprudence and roots of criminal law. In order to fully grasp criminal law concepts, students must go beyond mere rote memorization of the penal code and endeavor to understand where the laws originate from and how they have developed. This book fosters discussions of controversial issues and delivers abridged case law decisions that target the essence of appellate rulings. Grounded in the Model Penal Code, making the text national in scope, this volume examines: Why the criminal codes originated, and the moral, religious, spiritual, and human influences that led to our present system How crimes are described in the modern criminal justice model The two essential elements necessary for criminal culpability: actus reus (the act committed or omitted) and mens rea (the mind and intent of the actor) Offenses against the body resulting in death, including murder, manslaughter, felony murder, and negligent homicide Non-terminal criminal conduct against the body, including robbery, kidnapping, false imprisonment, assault, and hate crimes Sexual assault, rape, necrophilia, incest, and child molestation Property offenses, such as larceny/theft, bribery, forgery, and embezzlement Crimes against the

home, including burglary, trespassing, arson, and vandalism. The book also examines controversial public morality issues such as prostitution, drug legalization, obscenity, and pornography. The final two chapters discuss inchoate offenses, where the criminal act has not been completed, and various criminal defenses, such as legal insanity, entrapment, coercion, self-defense, and mistake of fact or law. Important keywords introduce each chapter, and discussion questions and suggested readings appear at the end of each chapter, prompting lively debate and further inquiry into a fascinating subject area that continues to evolve.

Updated to include the latest developments in the law, this book is appropriate for undergraduate students in criminal law and related courses.
