Muted Memories Jun 13 2021 In the late nineteenth century, tens of thousands of porters carried ivory every year from the African interior to Bagamoyo, a port town at the Indian Ocean. In the opposite direction, they carried millions of meters of cloth, manufactured in the USA, Europe, and India. This book examines the centrality of the caravan trade, both culturally and economically, to Bagamoyo's development and cosmopolitan character, while also exploring how this history was silenced when Bagamoyo was instead branded as a slave route town in 2006 in an attempt to qualify it for the UNESCO World Heritage List.

Caravans Oct 17 2021 In Caravans, Hege Høyer Leivestad opens the caravan door to understand how daily life is organised among Britons and Swedes who have relocated, either seasonally or permanently, to mobile homes. Leivestad investigates how the caravan and campsite come to fit and

challenge conventional domestic ideals, and how the static mobile caravan can nurture ideas of freedom even when it is standing still. With sensitivity and an awareness of the humour and pathos of the lives of her subjects, Leivestad closely examines the shaping of the European camping phenomenon and its day-to-day pleasures and pains, ranging from friendships ties to conflictive bingo nights, from nosy and noisy neighbours to fake fireplaces and rotten awning floors. As the first ethnographic study of caravan life in Europe, *Caravans* offers a refreshing take on contemporary mobility debates, showing how movement can best be understood by taking a detailed look at certain specific mundanities in material culture. This rich and topical ethnography is a must-read for students of anthropology, human geography and architecture, and for those with an interest in the possibilities and perils of a life on wheels.

The Crisis Caravan Aug 03 2020 In her controversial, no-holds-barred exposé Linda Polman shows how a vast industry has grown up around humanitarian aid. *The Crisis Caravan* takes us to war zones around the globe, showing how aid operations and the humanitarian world have become a feature of military strategy. Impassioned, gripping, and even darkly absurd, journalist Linda Polman “gives some powerful examples of unconscionable assistance...a world where aid workers have become enablers of the atrocities they seek to relieve” (The Boston Globe).

Just Drawings Dec 27 2019 My buddy Wagner is a nice friend... He loves so much to draw and sometimes even forget that I'm just there waiting for us to play together ... Sometimes whenever he stares at me, I think that he will throw a ball for me to grab in the air and show-off for him. But then he looks back and go for his notebook, and stares back at me like a child scribbling ... Sometimes he talks to me with in a very strange and weird voice; I fell a little afraid of the way he does that. There

are times I do not understand why after he wets me and he seem to regret it because he immediately dry me up with a nice smelling towel. He taught me many things of his little world like sit, stop, dance, run , pee in right places and to play ball - that I enjoy so much ! I can state here that he really loves his drawings much more than me because he is always there playing with his notebook....

Spies, Lies, and Exile Jun 20 2019 “Fascinating, rich, and probing . . . a beguiling and endlessly interesting portrait”—The Wall Street Journal For fans of John le Carré and Ben Macintyre, an exclusive first-person account of one of the Cold War’s most notorious spies “Kuper provides a different and valuable perspective, humane and informative. If the definition of a psychopath is someone who refuses to accept the consequences of his actions, does George fit the definition? There he sits, admitting it was all for nothing, but has no regrets. Or does he?” —John le Carré Few Cold War spy stories approach the sheer daring and treachery of George Blake’s. After fighting in the Dutch resistance during World War II, Blake joined the British spy agency MI6 and was stationed in Seoul. Taken prisoner after the North Korean army overran his post in 1950, Blake later returned to England to a hero’s welcome, carrying a dark secret: while in a communist prison camp in North Korea, he had secretly switched sides to the KGB after reading Karl Marx’s *Das Kapital*. As a Soviet double agent, Blake betrayed uncounted western spying operations—including the storied Berlin Tunnel, the most expensive covert project ever undertaken by the CIA and MI6. Blake exposed hundreds of western agents, forty of whom were likely executed. After his unmasking and arrest, he

received, for that time, the longest sentence in modern British history—only to make a dramatic escape to the Soviet Union in 1966, five years into his forty-two-year sentence. He left his wife, three children, and a stunned country behind. Much of Blake’s career existed inside the hall of mirrors that was the Cold War, especially following his sensational escape from Wormwood Scrubs prison. Veteran journalist Simon Kuper tracked Blake to his dacha outside Moscow, where the aging spy agreed to be interviewed for this unprecedented account of Cold War espionage. Following the master spy’s death in Moscow at age ninety-eight on December 26, 2020, Kuper is finally able to set the record straight.

Rebirth in the Life and Works of Beatrix Potter Nov 25 2019 This work traces the concepts of initiation and rebirth through Beatrix Potter's personal writing and her children's fiction. Drawing from Potter's letters and journals, it analyses her attempts to escape from what she called her

"unloved birthplace" and her overbearing parents to find a happy mature life. Potter felt that her life culminated in her forties, when she was, in effect, reborn through marriage as Mrs. William Heelis, a farmer raising Herdwick sheep and buying land for the National Trust. The language of transformation and rebirth used throughout her personal writing is echoed in Potter's fiction. From her first book, *The Tale of Peter Rabbit*, through some of the last, such as *The Fairy Caravan* and *The Tale of Little Pig Robinson*, central characters undergo processes of initiation during which they mature toward adulthood. The most successful ones move from being helpless children to being more mature creatures on their way to independence, while others experience no change or even a regressive change.

Urban Tourism in the Global South Sep 04 2020 This book examines and addresses the particular character of urban tourism occurring in the global South. It presents research essays on tourism in urban areas of South Africa, a country which is associated with big 5 nature tourism but where urban areas are also major tourism destinations. The book contextualizes urban tourism in South Africa as part of 'the other half of urban tourism', an overlooked but energetic scholarship which is emerging on urban places in the global South. The volume moves to present a collection of original material variously on national perspectives on urban tourism following by a cluster of city

level perspectives. The last three contributions turn to the role of tourism in small towns, the bottom rung in the urban settlement system. Issues of concern include gastronomic tourism, VFR travel, airports, climate change, AirBnb and creative tourism. Finally, as COVID-19 is potentially a defining historical moment for urban tourism, the volume incorporates historical research perspectives in order to address the overwhelming 'present-mindedness' of mainstream urban tourism writings. The book highlights the challenges and opportunities for tourism development in the environment of the urban global South and is relevant to scholars of both tourism and urban studies as well as researchers in development studies.

Riding the Roller Coaster Mar 22 2022 From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological

"firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

[The Art of Mopar](#) Sep 16 2021 The Art of Mopar: Chrysler, Dodge, and Plymouth Muscle Cars is the ultimate portrayal of history's ultimate muscle cars. This is the ultimate visual history of greatest muscle cars. The history of Chrysler Corporation is, in many ways, a history of a company floundering from one financial crisis to the next. While that has given shareholders fits for nearly a century, it has also motivated the Pentastar company to create some of the most outrageous, and collectible, cars ever built in the United States. From the moment Chrysler unleashed the Firepower hemi V-8 engine on the world for the 1951 model year, they had been cranking out the most powerful engines on the market. Because the company pioneered the use of lightweight unibody technology, it had the stiffest, lightest bodies in which to put those most powerful engines, and that is the basic muscle-car formula: add one powerful engine to one light car. When the muscle car era exploded onto the scene, Chrysler unleashed the mighty Mopar muscle cars, the Dodges and Plymouths that defined the era. Fabled nameplates like Charger, Road Runner, Super Bee, 'Cuda, and Challenger defined the era and rank among the most valuable collector cars ever produced by an American automaker.

Cumin, Camels, and Caravans Jul 22 2019 Gary Paul Nabhan takes the reader on a vivid and far-ranging journey across time and space in this fascinating look at the relationship between the spice

trade and culinary imperialism. Drawing on his own family's history as spice traders, as well as travel narratives, historical accounts, and his expertise as an ethnobotanist, Nabhan describes the critical roles that Semitic peoples and desert floras had in setting the stage for globalized spice trade. Traveling along four prominent trade routes—the Silk Road, the Frankincense Trail, the Spice Route, and the Camino Real (for chiles and chocolate)—Nabhan follows the caravans of itinerant spice merchants from the frankincense-gathering grounds and ancient harbors of the Arabian Peninsula to the port of Zayton on the China Sea to Santa Fe in the southwest United States. His stories, recipes, and linguistic analyses of cultural diffusion routes reveal the extent to which aromatics such as cumin, cinnamon, saffron, and peppers became adopted worldwide as signature ingredients of diverse cuisines. *Cumin, Camels, and Caravans* demonstrates that two particular desert cultures often depicted in constant conflict—Arabs and Jews—have spent much of their history collaborating in the spice trade and suggests how a more virtuous multicultural globalized society may be achieved in the future.
