Stesichorus Jul 24 2019 Stesichorus' lyric poetry vividly recreates the most dramatic episodes of Greek myth: the labours of Heracles, the sack of Troy, the vengeance of Orestes, and more besides. It can be appreciated today as never before, thanks to the recent discovery of ancient manuscripts buried for some two millennia in the sands of Egypt. This fresh edition of Stesichorus' poems presents the first full-scale analysis of all

his surviving works. The detailed introduction and commentary investigate a wide range of key issues, such as Stesichorus' imagery and style, his narrative technique, and his mythological innovations. The controversial question of how Stesichorus' poems were originally performed receives careful scrutiny; particular attention is paid to the fascinating story of the transmission, disappearance, and recovery of his work. A translation integrated with the commentary renders this book accessible to all readers with an interest in early Greek poetry and its legacy.

The Emerging Asian Bond Market Sep 17 2021 Provides a comprehensive survey of the East Asian bond markets, identifies best practices for fostering their development, and presents a broad agenda for further reforms. East Asia's spectacular economic performance over the past several decades has been marked by macroeconomic stability, consistent growth, low inflation, the lowering of trade barriers, and an overall improvement in living standards. The region now has a well developed banking system and boasts four of the top 20 stock markets in the world. Its bond markets, however, are relatively small and at an early stage of development. This report provides a comprehensive survey of the East Asian bond markets, identifies best practices for fostering their development, and presents a broad agenda of reforms for their further development. The report, which is based on studies of bond markets in China, Hong Kong, Indonesia, the Republic of Korea, Malaysia, the Philippines, Singapore, and Thailand, finds great diversity among those markets. It was presented at the Emerging Asian Bond Market Conference, co-sponsored by the World Bank and the Hong Kong Monetary Authority and held in Hong Kong, June 26-27, 1995. It is believed that with the proper institutional prerequisites in place, the markets will grow very rapidly and become a leading source of financing for the region. "The [study] and this conference mark the World Bank's increasing support and participation in the development of bond markets in the region."
--Joseph Yam, Chief Executive, Hong Kong Monetary Authority

Asyilia Sep 05 2020 In the Hellenistic period certain Greek temples and cities came to be declared "sacred and inviolable." Asyilia was the practice of declaring religious places precincts of asylum, meaning they were immune to violence and civil authority. The evidence for this phenomenon—mainly inscriptions and coins—is scattered in the published record. The material has never been collected and presented in one publication until now. Kent J. Rigsby lays out these documents and discusses their historical implications in a substantial introduction. He argues that while a hopeful intention of military neutrality lay behind the institution of asylum, the declarations did not in fact change military behavior. Instead, "declared inviolability" became a civic and religious honor for which cities across the Greek world competed during the third to first centuries B.C.

An Introduction to Indian Philosophy Nov 19 2021 The object of this book is to provide a simple introduction to the Indian systems of philosophy. Each one of these systems has had a vast and varied development. An attempt has been made to introduce the reader to the spirit and outlook of Indian philosophy and help him to grasp thoroughly the central ideas rather than acquaint him with minute details. Modern students of philosophy feel many difficulties in understanding the Indian problems and theories. Their long experience with university students has helped the authors to realise these, and they have tried to remove them as far as possible. This accounts for most of the critical discussions which could otherwise have been dispensed with. The book has been primarily written for beginners. The first chapter which contains the general principles and basic features of Indian philosophy, as well as a brief sketch of each system, gives the student a bird's-eye view of the entire field and prepares him for a more intensive study of the systems which are contained in the following chapters. It is hoped, therefore, that the book will suit the needs of university students at different stages, as well as of general readers interested in Indian Philosophy.

The Roman History Jul 16 2021 Augustus Caesar, the first emperor of Rome (27 BC ♦ AD 14), brought peace and prosperity to his city after decades of savage civil war. This selection from Cassius Dio ♦s Roman History gives the fullest description of that long struggle and ultimate triumph ♦ detailing the brutal battles and political feuds that led to the collapse of Rome ♦s 400-year-old republic, and Augustus ♦ subsequent reign as emperor. Included are accounts of military campaigns from Ethiopia to Yugoslavia, and of long conflict with Antony and Cleopatra. With skill and artistry, Dio brings to life many speeches from the era ♦ among them Augustus ♦ damning indictment of Antony ♦s passion for the Egyptian queen ♦ and provides a fascinating account of the debate between the great general Agrippa and Maecenas on the virtues of republicanism and monarchy.

Righteous Porkchop Apr 12 2021 "Righteous Porkchop is a searing, and utterly convincing, indictment of modern meat production. The book also brims with hope and charts a practical (and even beautiful) path out of the jungle." —Michael Pollan, author of Omnivore's Dilemma and In Defense of Food "[A] necessary book—part memoir, part exposé...its reasoned case for healthy and humane farming practices has the sweet savor of truth." —O The Oprah Magazine A crusading environmental activist, vegetarian, and lawyer who has worked with Robert Kennedy, Jr. on environment issues, Nicolette Hahn Niman blows the lid off the shocking practices in the pork, meat, and poultry industries in Righteous Porkchop, a Fast Food Nation for the hog trade. Subtitled, "Finding a Life and Good Food Beyond the Factory Farm," Righteous Porkchop is at once an eye-opening grand tour of Hahn Niman's battles with the industrial farming conglomerates, a guide to avoiding unhealthy meats, and a very personal story of one woman's reawakening.
