**German Song Onstage** Apr 30 2022 A singer in an evening dress, a grand piano. A modest-sized audience, mostly well-dressed and silver-haired, equipped with translation booklets. A program consisting entirely of songs by one or two composers. This is the way of the Lieder recital these days. While it might seem that this style of performance is a long-standing tradition, German Song Onstage demonstrates that it is not. For much of the 19th century, the songs of Beethoven, Schubert, Schumann, and Brahms were heard in the home, salon, and, no less significantly, on the concert platform alongside orchestral and choral works. A dedicated program was rare, a dedicated audience even more so. The Lied was a genre with both more private and more public associations than is commonly recalled. The contributors to this volume explore a broad range of venues, singers, and audiences in distinct places and time periods—including the United States, the United Kingdom, Russia, and Germany—from the mid-19th century through the early 20th century. These historical case studies are set alongside reflections from a selection of today's leading musicians, offering insights on current Lied practices that will inform future generations of performers, scholars, and connoisseurs. Together these case studies unsettle narrow and elitist assumptions about what it meant and still means to present German song onstage by providing a transnational picture of historical Lieder performance, and opening up discussions about the relationship between history and performance today.

*Bela Bartok* Sep 11 2020 This long-awaited, authoritative account of Bartók's compositional processes stresses the composer's position as one of the masters of Western music history and avoids a purely theoretical approach or one that emphasizes him as an enthusiast for Hungarian folk music. For Béla Bartók, composition often began with improvisation at the piano. László Somfai maintains that Bartók composed without preconceived musical theories and refused to teach composition precisely for this reason. He was not an analytical composer but a musical creator for whom intuition played a central role. These conclusions are the result of Somfai's three decades of work with Bartók's oeuvre; of careful analysis of some 3,600 pages of sketches, drafts, and autograph manuscripts; and of the study of documents reflecting the development of Bartók's compositions. Included as well are corrections preserved only on recordings of Bartók's performances of his own works. Somfai also provides the first comprehensive catalog of every known work of Bartók, published and unpublished, and of all extant draft, sketch, and preparatory material. His book will be basic to all future scholarly work on Bartók and will assist performers in clarifying the problems of Bartók notation. Moreover, it will be a model for future work on other major composers.

**Jean Cras, Polymath of Music and Letters** Oct 05 2022 Jean Cras (1879-1932) was a remarkable man by anyone's measure. Twice a decorated hero of the Great War, this Rear-Admiral of the French navy, scientist, inventor and moral philosopher, was also a highly esteemed composer during his lifetime, enjoying the same stature and celebrity as Fauré, Debussy and Ravel. Since his death, however, both Cras and his music have been almost completely overlooked. In this, the first critical biography of Cras, Paul-Andre Bempechat situates Henri Duparc's proteges a missing link between the French post-Romantic generation of composers and the Impressionists. The book explores, both historically and analytically, the methodology by which Cras evolved his eclectic brand of Impressionism, striking the delicate balance between Celtic folk idioms and exoticisms inspired by his travels. Cras' creative legacy extends beyond the world of music to the world of science. His five patented inventions include the navigational gyrocompass, which bears his name, still in use to this day by the French navy, coast guard and boating aficionados. Bempechat draws special attention to the humanist Jean Cras and his distinguished military career - he is credited with saving the Serbian army from extinction - drawing on primary source material such as family correspondence and wartime diaries to reaffirm this composer as a true Renaissance man of the twentieth century.

Hilda Hurricane Feb 14 2021 Eighteen-year-old Hilda, known as "the girl in the gold bikini" when she swam at her country club in Belo Horizonte, Brazil, abruptly leaves the gilded life to take up residence in room 304 of the Hotel Marvelous—as a prostitute. There she becomes Hilda Hurricane, an erotic force of nature no man can resist. The exception is reporter-narrator Roberto Drummond, who attempts to unravel the mystery of why the girl in the gold bikini would forego a comfortable life to join the world's oldest profession. While some in Belo Horizonte cheer Hilda's liberated lifestyle, others seek to have her moved outside the city limits, and a would-be saint cannot seem to finish the exorcism he began outside the Hotel Marvelous. Set against the social and political upheaval of the 1960s, Hilda's story seduces even as Drummond becomes aware of more ominous forces approaching Belo Horizonte. Hilda Hurricane was both a critical and a commercial success in Brazil, with more than 200,000 copies sold. (The DVD of the television adaptation has sold more than a million copies.) Admirers of Kurt Vonnegut will revel in Drummond's similarly sharp satire and playful digressions, particularly about left-wing politics, which blur the boundary between fiction and autobiography. Yet the real genius of the author's interventions may be that they never slow the story long enough to lose sight of this mysterious beauty swept up in the turmoil of the times.

Nikolay Myaskovsky Dec 27 2021 Gregor Tassie describes Nikolay Myaskovsky as “one of the great enigmas of 20th-century Russian music.” Between the two world wars, the symphonies of Myaskovsky enjoyed great popularity and were performed by all major American and

European orchestras; they were some of the most inspiring symphonic works of the last hundred years and prolonged the symphonic genre. But accusations of “formalism” at the 1948 USSR Composers Congress resulted in the purposeful neglect of his music until the collapse of the Soviet Union. Myaskovsky wrote some of the most inspiring symphonic works of the last hundred years and prolonged and extended the symphonic genre. In *Nikolay Myaskovsky: The Conscience of Russian Music*, Tassie gives readers the first modern English-language biography of this Russian composer since his death in 1950. Tassie draws together information from the composer’s diaries and letters, as well as the memoirs of friends and colleagues—even his secret police files—to chronicle Myaskovsky’s early life, subsequent far-reaching influence as a composer, teacher, and journalist, and his final persecution by the Soviet government. This biography will surely rekindle interest in Myaskovsky’s remarkable body of work and will interest aficionados, students, and scholars of the modern classical music tradition and history of the arts in Russia.

**The Music of Francis Poulenc (1899-1963)** Oct 13 2020 The name of Francis Poulenc (1899-1963) was first brought to prominence in the 1920s as a member of Les Six, a group of young French composers encouraged by Satie and Cocteau. His subsequent fame spread well beyond France, and he is coming to be regarded as one of this century's most significant composers. His compositions are heard constantly in concert halls the world over, and numerous recordings, including complete sets of songs and piano music, have been released. Books, articles and more than a dozen doctoral dissertations have discussed his music. Carl Schmidt's catalogue of Poulenc's works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63. The Catalogue identifies a number of unpublished works, and adds a small group of compositions to his musical canon for the first time. Each work, whether complete or unfinished, published or unpublished, is described fully. Catalogue entries list and describe all known printed editions (including reprints) and manuscript copies of each work. In addition, they provide detailed compositional histories based on numerous letters, documents, and press accounts, many of which have not been published previously. Russian interest in Poulenc's music, manifested in press runs exceeding one million copies, is also revealed for the first time.

**Bela Bartók** Feb 26 2022 The definitive account of the life and music of Hungary's greatest twentieth-century composer This deeply researched biography of Béla Bartók (1881-1945) provides a more comprehensive view of the innovative Hungarian musician than ever before. David Cooper traces Bartók's international career as an ardent ethno-musicologist and composer, teacher, and pianist, while also providing a detailed discussion of most of his works. Further, the author explores how Europe's political and cultural tumult affected Bartók's work, travel, and reluctant emigration to the safety of America in his final years. Cooper illuminates Bartók's personal life and relationships, while also expanding what is known about the influence of other musicians--Richard Strauss, Zoltán Kodály, and Yehudi Menuhin, among many others. The author also looks closely at some of the composer's actions and behaviors which may have been manifestations of Asperger syndrome. The book, in short, is a consummate biography of an internationally admired musician.

**Edward Elgar** Aug 03 2022 This updated second edition is an in-depth exploration of Elgar's compositions and of writings by and about the composer and his music. The past 16 years have seen a steady increase in scholarly publications and the emergence of *The Elgar Society Journal*, as well as further discoveries of the composer's MSS and letters, and the new edition incorporates this latest research. The compositions are examined in a work-by-work catalog, in chronological order, in which each entry gives a complete census and collation of manuscript, proof, text, biographical, printed edition and bibliographical sources for each item. The listing also includes unfinished sketches and details of much unpublished material. The bibliography section covers selected established literature as well as details of reviews and articles contained in the European periodicals at the climax of Elgar's career. Christopher Kent was nominated unanimously by the Scrutiny Panel of the International Association of Music Libraries, Archives and Research Centres for the 2014 C.B. Oldman Prize for the most outstanding reference resource published in 2014. He received the award at their Annual Conference held at the University of Aston, Birmingham in April.

**The Politics of Musical Identity** Jul 02 2022 This volume explores the way in which composers, performers, and critics shaped individual and collective identities in music from Europe and the United States from the 1860s to the 1950s. Selected essays and articles engage with works and their reception by Richard Wagner, Georges Bizet (in an American incarnation), Lili and Nadia Boulanger, William Grant Still, and Aaron Copland, and with performers such as Wanda Landowska and even Marilyn Monroe. Ranging in context from the opera house through the concert hall to the salon, and from establishment cultures to counter-cultural products, the main focus is how music permits new ways of considering issues of nationality, class, race, and gender. These essays - three presented for the first time in English translation - reflect the work in both musical and cultural studies of a distinguished scholar whose international career spans the Atlantic and beyond.
