Eiger Dreams Jul 21 2021 No one writes about mountaineering and its attendant hardships and victories more brilliantly than critically acclaimed author Jon Krakauer. In this collection of his finest work from such magazines as Outside and Smithsonian, he explores the subject from the unique and memorable perspective of one who has battled peaks like K2, Denali, Everest, and, of course, the Eiger. Always with a keen eye, an open heart, and a hunger for the ultimate experience, he gives us unerring portraits of the mountaineering experience. Yet Eiger Dreams is more about people than about rock and ice--people with that odd, sometimes maniacal obsession with mountain summits that sets them apart from other men and women. Here we meet Adrian the Romanian, determined to be the first of his countrymen to solo Denali; John Gill, climber not of great mountains but of house-sized boulders so difficult to surmount that even demanding alpine climbs seem easy; and many more compelling and colorful characters. In the most intimate piece, "The Devils Thumb," Krakauer recounts his own near-fatal, ultimately triumphant struggle with solo-madness as he scales Alaska's Devils Thumb. Eiger Dreams is stirring, vivid writing about one of the most compelling and dangerous of all human pursuits.

The Roots of the Mountains Mar 05 2020 Book Excerpt: walland the wandering stream there was but a space of fifty acres, and therein lay Burgstead in a space of the shape of a sword-pommel: and the houses of the kinships lay about it, amidst of gardens and orchards, but little ordered into streets and lanes, save that a waywent clean through everything from the tower-warded gate to the bridge over the Water, which was warded by two other towers on its hither side. As to the houses, they were some bigger, some smaller, as the housemates needed. Some were old, but not very old, save two only, and some quite new, but of these there were not many: they were all built fairly of stone and lime, with much fair and curious carvedwork of knots and beasts and men round about the doors; or whiles awale of such-like work all along the house-front. For as deft as were the Woodlanders with knife and gouge on the oaken beams, even so deft were the Dalesmen with mallet and chisel on the face of the hewnstone; and this was a great pastime about the Thorp. Young Men and Fire Apr 17 2021 A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service's elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years, Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in *Young Men and Fire*, which won the National Book Critics Circle Award. Alongside Maclean's now-canonical *A River Runs through It* and *Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This twenty-fifth anniversary edition of Maclean's later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul.

Facing the Mountain Jan 27 2022 A NEW YORK TIMES BESTSELLER One of NPR's "Books We Love" of 2021 Longlisted for the PEN/Jacqueline Bograd Weld Award for Biography Winner of the Christopher Award "Masterly. An epic story of four Japanese-American families and their sons who volunteered for military service and displayed uncommon heroism... Propulsive and gripping, in part because of Mr. Brown's ability to make us care deeply about the fates of these individual soldiers... a page-

turner.” – Wall Street Journal From the #1 New York Times bestselling author of *The Boys in the Boat*, a gripping World War II saga of patriotism and resistance, focusing on four Japanese American men and their families, and the contributions and sacrifices that they made for the sake of the nation. In the days and months after Pearl Harbor, the lives of Japanese Americans across the continent and Hawaii were changed forever. In this unforgettable chronicle of war-time America and the battlefields of Europe, Daniel James Brown portrays the journey of Rudy Tokiwa, Fred Shiosaki, and Kats Miho, who volunteered for the 442nd Regimental Combat Team and were deployed to France, Germany, and Italy, where they were asked to do the near impossible. Brown also tells the story of these soldiers' parents, immigrants who were forced to submit to life in concentration camps on U.S. soil. Woven throughout is the chronicle of Gordon Hirabayashi, one of a cadre of patriotic resisters who stood up against their government in defense of their own rights. Whether fighting on battlefields or in courtrooms, these were Americans under unprecedented strain, doing what Americans do best—striving, resisting, pushing back, rising up, standing on principle, laying down their lives, and enduring.

Hillbillyland Jan 03 2020 The stereotypical hillbilly figure in popular culture provokes a range of responses, from bemused affection for Ma and Pa Kettle to outright fear of the mountain men in *Deliverance*. In *Hillbillyland*, J. W. Williamson investigates why hillbilly images are so pervasive in our culture and what purposes they serve. He has mined more than 800 movies, from early nickelodeon one-reelers to contemporary films such as *Thelma and Louise* and *Raising Arizona*, for representations of hillbillies in their recurring roles as symbolic 'cultural others.' Williamson's hillbillies live not only in the hills of the South but anywhere on the rough edge of society. And they are not just men; women can be hillbillies, too. According to Williamson, mainstream America responds to hillbillies because they embody our fears and hopes and a romantic vision of the past. They are clowns, children, free spirits, or wild people through whom we live vicariously while being reassured about our own standing in society.

Touching the Void Feb 02 2020 In 1928 a journalist asked George Mallory why he wanted to climb Everest. Mallory said, 'Because it's there.' Joe Simpson's memoir *Touching the Void*, international bestseller and BAFTA-winning film, charts his struggle for survival on the perilous Siula Grande mountain in the Peruvian Andes aged twenty-five. Adapted for the stage by David Greig, Joe's story explodes into a bold theatrical fantasia. We discover the counter-cultural world of Alpine climbing and the sensual joy of the mountains; we bear witness to the appalling moment when Joe's climbing partner Simon Yates, battered by freezing winds and tethered to the injured

Simpson, makes the critical decision to cut the rope. Tense, funny and inquisitive, *Touching the Void* explores the mind's extraordinarily rich reservoirs of strength and imagination when teetering on the edge of death. David Greig's *Touching the Void* premiered at Bristol Old Vic, Bristol in September 2018.

Eiger Dreams Sep 03 2022 No one writes about mountaineering and its attendant victories and hardships more brilliantly than Jon Krakauer. In this collection of his finest essays and reporting, Krakauer writes of mountains from the memorable perspective of one who has himself struggled with solo madness to scale Alaska's notorious Devils Thumb. In Pakistan, the fearsome K2 kills thirteen of the world's most experienced mountain climbers in one horrific summer. In Valdez, Alaska, two men scale a frozen waterfall over a four-hundred-foot drop. In France, a hip international crowd of rock climbers, bungee jumpers, and paragliders figure out new ways to risk their lives on the towering peaks of Mont Blanc. Why do they do it? How do they do it? In this extraordinary book, Krakauer presents an unusual fraternity of daredevils, athletes, and misfits stretching the limits of the possible. From the paranoid confines of a snowbound tent, to the thunderous, suffocating terror of a white-out on Mount McKinley, *Eiger Dreams* spins tales of driven lives, sudden deaths, and incredible victories. This is a stirring, vivid book about one of the most compelling and dangerous of all human pursuits.

Thunder in the Mountains: Chief Joseph, Oliver Otis Howard, and the Nez Perce War Sep 22 2021 "Beautifully wrought and impossible to put down, Daniel Sharfstein's *Thunder in the Mountains* chronicles with compassion and grace that resonant past we should never forget."—Brenda Wineapple, author of *Ecstatic Nation: Confidence, Crisis, and Compromise, 1848–1877* After the Civil War and Reconstruction, a new struggle raged in the Northern Rockies. In the summer of 1877, General Oliver Otis Howard, a champion of African American civil rights, ruthlessly pursued hundreds of Nez Perce families who resisted moving onto a reservation. Standing in his way was Chief Joseph, a young leader who never stopped advocating for Native American sovereignty and equal rights. *Thunder in the Mountains* is the spellbinding story of two legendary figures and their epic clash of ideas about the meaning of freedom and the role of government in American life.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

One Man's Mountains May 19 2021 Tom Patey was killed in May 1970 abseiling from a sea stack off the north coast of Scotland. He was 38. People outside the climbing world knew of him as the man who launched himself into space during the televised climb of the Old Man of Hoy, a remarkable sandstone stack on the Orkney Islands. Inside the climbing fraternity everyone knew of him. He was irreplaceable. It was when studying medicine at Aberdeen University that Tom first showed his talent as an extraordinary climber and started his long series of epic first ascents. He also took part in the four man 1956 British expedition to climb the 28,800 feet Mustagh Tower in Pakistan - a mountain that many people regarded as unclimbable. They conquered it. A remarkable collection of Tom Patey's essays, poems and photographs, One Man's Mountain offers a glimpse into the mind of this multi-talented and fascinating man whose contribution to modern climbing was enormous. It remains a touching and compelling self-portrait that has long been regarded as a classic of climbing literature.

The Power of Geography Dec 02 2019 From the author of the New York Times bestseller Prisoners of Geography, a fascinating, "refreshing, and very useful" (The Washington Post) follow-up that uses ten maps to explain the challenges to today's world powers and how they presage a volatile future. Tim Marshall's global bestseller Prisoners of Geography offered us a "fresh way of looking at maps" (The New York Times Book Review), showing how every nation's choices are limited by mountains, rivers, seas, and walls. Since then, the geography hasn't changed, but the world has. Now, in this "wonderfully entertaining and lucid account, written with wit, pace, and clarity" (Mirror, UK), Marshall takes us into ten regions set to shape global politics. Find out why US interest in the Middle East will wane; why Australia is now beginning an epic contest with China; how Turkey, Saudi Arabia, and the UK are cleverly positioning themselves for greater power; why Ethiopia can control Egypt; and why Europe's next refugee crisis looms closer than we think, as does a cutting-edge arms race to control space. Innovative, compelling, and delivered with Marshall's trademark wit and insight, this is "an immersive blend of history, economics, and political analysis that puts geography at the center of human affairs" (Publishers Weekly).

The Living Mountain Aug 22 2021 AS SEEN ON BBC'S WINTERWATCH WITH CHRIS PACKHAM AND MICHAELA STRACHAN 'The finest book ever written on nature and landscape in Britain' Guardian In this masterpiece of nature writing, Nan Shepherd describes her journeys into the Cairngorm mountains of Scotland. There she encounters a world that can be breathtakingly beautiful at times and shockingly harsh at others. Her intense, poetic prose explores and records the rocks, rivers, creatures and hidden aspects of this remarkable landscape. Shepherd spent a lifetime in search of the 'essential nature' of the Cairngorms; her quest led her to write this classic meditation on the magnificence of mountains, and on our imaginative relationship with the wild world around us. Composed during the Second World War, the manuscript of The Living Mountain lay untouched for more than thirty years before it was finally published.

Loving Mountains, Loving Men May 31 2022 Loving Mountains, Loving Men is the first book-length treatment of a topic rarely discussed or examined before: gay life in Appalachia. Appalachians are known for their love of place, yet many gays and lesbians from the mountains flee to urban areas. Jeff Mann tells the story of one who left and then returned, who insists on claiming and celebrating both regional and erotic identities. In memoir and poetry, Mann describes his life as an openly gay man who has remained true to his mountain roots. Mann first describes his upbringing in Hinton, a small town in southern West Virginia, as well as his realization of his homosexuality, his

early experiences of homophobia, his coterie of supportive lesbian friends, and his initial attempts to escape his native region in hopes of finding a freer life in urban gay communities. Mann depicts his difficult search for a romantic relationship, the family members who have given him the strength to defy convention, his anger against religious intolerance and the violence of homophobia, and his love for the rich folk culture of the Highland South. His character and values shaped by the mountains, Mann has reconciled his homosexuality with both traditional definitions of Appalachian manhood and his own attachment to home and kin. *Loving Mountains, Loving Men* is the compelling, universal story of making peace with oneself and the wider world. AUTHOR INFORMATION---Jeff Mann is a professor of creative writing at Virginia Polytechnic Institute and State University, Blacksburg, Virginia. He is the author of a collection of poetry, *Bones Washed with Wine*, and a memoir, *Edge*. SIDEBAR QUOTE---"The sheer beauty of the prose in the memoir and the language of the poetry is incredible. This is one of the great watershed books of Appalachian literature. Its contribution to the field of Appalachian studies and gay/gender studies is significant."---Danny L. Miller, coeditor of *An American Vein: Critical Readings in Appalachian Literature*
