Alcatraz versus the Evil Librarians Mar 24 2022 Who knew that libraries were centres for all evil? Alcatraz Smedry, practically the world champion of breaking things, never thought his most boring birthday present - a bag of sand - would get him into this much trouble. Yet now he's fleeing from evil Librarians, releasing dinosaurs to create a diversion in the Fiction section, and learning that clumsiness can be a powerful talent!

Continuing Education for Librarians Jun 22 2019 It is an exciting time to be a librarian. Advances in technology have let libraries expand far beyond walls and lead the way in information delivery, while transforming the physical library into a place where customers can connect to information in new ways. It is also a challenging time to be a librarian. With continual change as the new normal, staying current can seem overwhelming. Even as they face budget shortfalls and staff reductions, librarians are tasked with finding the time and resources to keep abreast of rapid changes. This book offers a cornucopia of practical advice about how to acquire new skills (and formal and informal credentials) through all stages of a career. The 27 essays cover formal and online education, conferences, fellowships, workshops, networking, teaching, mentoring, balancing personal with professional lives, and money matters--and are filled with practical, honest and real-world advice.

The Librarians and the Pot of Gold Aug 29 2022 The Librarians and the Pot of Gold is an original novel based on the hit TNT television show The Librarians, by New York Times bestselling author Greg Cox. For millennia, the Librarians have secretly protected the world by keeping watch over dangerous magical relics. Cataloging and safeguarding everything from Excalibur to Pandora's Box, they stand between humanity and those who would use the relics for evil. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Not Your Ordinary Librarian Aug 05 2020 When you picture a librarian, what do you imagine? An old white woman with glasses and a prudish disposition? That is the image that many people conjure up when asked to picture a librarian; with 82 per cent of the professional force being female and the average age of a librarian at 45, coupled with popular stereotypical images, it is difficult to dispute the perceptions. But there is more to librarians than meets the eye. This book will explore the origin of the image and popular media images of the librarian, in addition to the effects of the stereotype, and the challenges to the perception of librarians today. Provides contemporary examples from popular culture Chapters are supported by quotes, images and personal reflections Presents a study which offers authenticity

Data Science for Librarians Aug 24 2019 This unique textbook intersects traditional library science with data science principles that readers will find useful in implementing or improving data services within their libraries. Data Science for Librarians introduces data science to students and practitioners in library services. Writing for academic, public, and school library managers; library science students; and library and information science educators, authors Yunfei Du and Hammad Rauf Khan provide a thorough overview of conceptual and practical tools for data librarian practice. Partially due to how quickly data science evolves, libraries have yet to recognize core competencies and skills required to perform the job duties of a data librarian. As society transitions from the information age into the era of big data, librarians and information professionals require new knowledge and skills to stay current and take on new job roles, such as data librarianship. Skills such as data curation, research data management, statistical analysis, business analytics, visualization, smart city data, and learning analytics are relevant in library services today and will become increasingly so in the near future. This text serves as a tool for library and information science students and educators working on data science curriculum design. Reviews fundamental concepts and principles of data science Offers a practical overview of tools and software Highlights skills and services needed in the 21st-century academic library Covers the entire research data life cycle and the librarian's role at each stage Provides insight into how library science and data science intersect

Guidance for Librarians Transitioning to a New Environment Sep 29 2022 Guidance for Librarians Transitioning to a New Environment offers practical advice for those hoping to transition into a different type or size of institution. Written by librarians who have successfully navigated such changes, the book encourages consideration of unexplored opportunities. Drawing on the authors' own experiences, as well as surveys and interviews conducted with those working in different types of libraries, the book will provide librarians with a field guide for surviving and thriving in their new environment. It will do so by making suggestions for how librarians can orient themselves to their new library, add context to their CV or résumé, get started with presenting and publishing, and manage culture shock and emotions. Each chapter will also provide the opportunity for the librarian to reflect on relevant aspects of their own situation and move forward with the help of action items. Guidance for Librarians Transitioning to a New Environment is essential reading for librarians who are considering or in the process of making a career move, as well as those working on career planning. The book will also be helpful for library science school faculty and career counselors who are advising current students and library managers who want to help their new hires transition in the most effective way.

The Librarians and The Lost Lamp Jul 28 2022 The first book in a new trilogy based on the hit television show, The Librarians, by Greg Cox. For millennia, the Librarians have secretly protected the world by keeping watch over dangerous magical relics. Cataloging and safeguarding everything from Excalibur to Pandora's Box, they stand between humanity and those who would use the relics for evil. Ten years ago, only Flynn Carsen, the last of the Librarians, stood against an ancient criminal organization known as The Forty. They stole the oldest known copy of The Arabian Nights by Scheherazade, and Flynn fears they intend to steal Aladdin's fabled lamp. He races to find it first before they can unleash the trapped, malevolent djinn upon the world. Today, Flynn is no longer alone. A new team of inexperienced Librarians, led by Eve Baird, their tough-as-nails Guardian, investigates an uncanny mystery in Las Vegas. A mystery tied closely to Flynn's original quest to find the lost lamp. . . and the fate of the world hangs in the balance. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Effective School Librarianship Jun 26 2022 These volumes provide a series of informative interviews with school/teacher librarians practicing in different parts of the world. The 2-volume set showcases the resilience, creativity, and best practices from successful school librarians from Europe, Asia, Africa, Australia, and North and South America. The librarians interviewed come from all different schools and schools systems, from a tiny recently built school library in a rural village in Africa to an ultra-modern library in Sweden. Featuring 37 interviews with successful school librarians from across the globe, the volumes let us hear the stories from countries around the world. They tell about their creative and innovative school library projects, their unconventional reading programs, and their best practices and experiences in addressing the challenges of supporting basic literacy. A wide selection of methodologies and approaches are discussed, offering a global "voyage" through topics important in school librarianship. The 2-volume set also addresses recent advancements in information and communication technologies (ICTs) and the shift toward inquiry-based learning that impacts school libraries worldwide. The books are packed with information that can be used by school librarians, teachers, school administrators and others in a variety of ways. Readers can borrow best practices from the

experiences presented in the book, and the volumes can also serve as a strong voice for practicing school librarians and the profession, through expanding the opportunities for professional sharing in the international school library community.

Theological Librarians and the Internet Jul 24 2019 The amount of religious and theological material available on the Internet is enormous and can be daunting. Are you finding the information you need? This valuable book will assist theological librarians, instructors, researchers, and others in making sense of the vast amounts of religious and theological information available today on the Internet. It provides a general overview of what's out there and specific examples that you can access as you read. Beginning with a thorough discussion of information technology and theological libraries, *Theological Librarians and the Internet: Implications for Practice* compares and contrasts the state of the field in 1990 with the situation that theological librarians face today. Then you'll learn how theological libraries are beginning to utilize Web catalogs to improve access to their unique collections and how the major gateways to these catalogs can be accessed. This unique book also provides you with predictions for the future of Web OPACs. *Theological Librarians and the Internet* is filled with information on: electronic journals in religious studies Web-based online catalogs in theological libraries theological distance education Christian art on the Internet homiletics and liturgy on the Internet Web site design a Web-based tutorial on Judaism *Theological Librarians and the Internet* will familiarize you with the creation and structure of the Wabash Center Guide to Internet Resources in Religion. It will also instruct you in using the Internet in religious studies courses and show you how to design a user-friendly Web site for your library so that all of your patrons can navigate it efficiently. No one interested in finding religious information on the Web should be without this volume!

The Bad-Ass Librarians of Timbuktu Sep 17 2021 Describes how a group of Timbuktu librarians enacted a daring plan to smuggle the city's great collection of rare Islamic manuscripts away from the threat of destruction at the hands of Al Qaeda militants to the safety of southern Mali.

This Book Is Overdue! Dec 21 2021 In *This Book is Overdue!*, acclaimed author Marilyn Johnson celebrates libraries and librarians, and, as she did in her popular first book, *The Dead Beat*, discovers offbeat and eloquent characters in the quietest corners. In defiance of doomsayers, Johnson finds librarians more vital and necessary than ever, as they fuse the tools of the digital age with love for the written word and the enduring values of truth, service to all, and free speech. *This Book Is Overdue!* is a romp through the ranks of information professionals who organize our messy world and offer old-fashioned human help through the maze.

Exploring Education for Digital Librarians Feb 29 2020 *Exploring Education for Digital Librarians* provides a refreshing perspective on the discipline and profession of Library and Information Science (LIS), with a focus on preparing students for careers as librarians who can deal with present and future digital information environments. A re-examination of the knowledge base of the field, combined with a proposed theoretical structure for LIS, provide the basis for this work, which also examines competencies for practice as well as some of the international changes in the nature of higher education. The authors finally suggest a model that could be used internationally to educate librarians for their new roles and social responsibilities in a digitised, networked world. The twelve chapters of this book cover key issues in education for digital librarians, including: the necessity of regenerating the profession; current contexts; previous research on education for digital librarians; understanding the dimensions of the discipline and profession of librarianship, and the distinctions between them; the social purpose of librarianship as a profession and the theoretical framework which supports the practice of the profession; a brief analysis of curriculum design, pedagogies and teaching methods, and a glimpse of the proactive and important future role of librarianship in society. Considers the ubiquitous misunderstanding that technology can replace libraries and librarians Provides a theoretical view of the field which can contribute awareness of dimensions of the dilemmas which the discipline/profession currently faces Presents a broad international perspective which provides a basis for a new model for LIS education

This Is What a Librarian Looks Like Oct 19 2021 In 2014, author and photographer Kyle Cassidy published a photo essay on Slate.com called "This is What A Librarian Looks Like," a montage of portraits and a tribute to librarians. Since then, Cassidy has made it his mission to remind us of how essential librarians and libraries are to our communities. His subjects are men and women of all ages, backgrounds, and personal style—from pink hair and leather jackets to button-downs and blazers. In short, not necessarily what one thinks a librarian looks like. The nearly 220 librarians photographed also share their personal thoughts on what it means to be a librarian. *This is What A Librarian Looks Like* also includes original essay by some of our most beloved writers, journalists, and commentators including Neil Gaiman, George R.R. Martin, Nancy Pearl, Cory Doctorow, Paula Poundstone, Amanda Palmer, Peter Sagal, Jeff VanderMeer, John Scalzi, Sara Farizan, Amy Dickinson, and others. Cassidy also profiles a handful of especially influential librarians and libraries.

The Librarians and the Mother Goose Chase May 26 2022 *The Librarians and the Mother Goose Chase*, an original novel based on the hit television show, *The Librarians* by New York Times bestselling author, Greg Cox. For millennia, the Librarians have secretly protected the world by keeping watch over dangerous magical relics. Cataloging and safeguarding everything from Excalibur to Pandora's Box, they stand between humanity and those who would use the relics for evil. Stories have power. In 1719, Elizabeth Goose published a collection of rhyming spells as a children's book, creating a spellbook of terrifying power. The Librarian of that age managed to dispose of all copies of the book except one, which remained in the possession of Elizabeth Goose and her family, temporarily averting any potential disaster. Now, strange things are happening around the world. A tree-trimmer in Florida is blown off his elevated perch by a freak gust of wind, a woman in rural Pennsylvania is attacked by mutant rodents without any eyes, and a college professor in England finds herself trapped inside a prize pumpkin at a local farmer's market. Baird and her team of Librarians suspect that the magic of Mother Goose is again loose in the world, and with Flynn AWOL—again—it is up to Cassandra, Ezekiel, and Stone to track down the missing spellbook before the true power of the rhymes can be unleashed. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Image and Role of the Librarian Oct 31 2022 Get a unique insight into the image problems librarians face! *The Image and Role of the Librarian* addresses all aspects of professional identity for librarians, including professional roles, cultural images, popular perceptions, and future trends. The book examines historical representations, stereotypes, and popular culture icons and the role each plays in the relationship between librarian and patron. The book also looks at the profound impact the Internet has had on the services librarians provide and how electronic resources have transformed the roles and responsibilities of librarians. From the Editors: "There seems to be no profession as preoccupied with self-examination as that of librarianship. While some of it may stem from an identity crisis, the refrain heard over and over is startlingly similar to Rodney Dangerfield's 'I don't get no respect.' This seems to be true of all types of librarians—from public librarians who (often rightly) complain of being treated like servants by the patrons they serve, to the academic librarians who are always trying to establish their 'faculty-ness' to the teaching professors." Topics addressed in *The Image and Role of the Librarian* include: public, student, and faculty perceptions of librarians cinematic portrayals of librarians images of librarians in comic books librarians in children's literature male librarian stereotypes "know-it-all" librarians changing roles for specialty librarians Generation X and the future of librarianship and much more! A unique examination of professional roles and responsibilities, patron expectations and perceptions, *The Image and Role of the Librarian* brings clarity and recognition to the services and functions librarians provide in their day-to-day work.

New Roles for Research Librarians Jun 14 2021 *New Roles for Research Librarians: Meeting the Expectations for Research Support* presents strategies librarians can use to adapt to the new conditions and growing expectations that are emerging from students and researchers. Even if they have never completed a PhD, or even been engaged in independent research themselves, this book will provide a new roadmap on how to deal with the new work environment. The book provides different approaches that include the library in the research process, an area that is often neglected by researchers during their planning and strategic work on research projects. Users will find content that offers tactics on how to create a new dialogue between the librarian and the postgraduate student, along with comprehensive discussions on different starting points, and how communication and collaboration can help reach the best of both worlds. Explores the new roles available for research librarians and how they can be integral parts of research Provides a new roadmap on how to deal with the new work environment that now exists between librarians and researchers Discusses the development and systemizing of research support services and strategies Offers insights into the collaboration between the librarian and PhD-candidates

Revenge of the Librarians Feb 20 2022 Confront the spectre of failure, the wraith of social media, and other supernatural enemies of the author Tom Gauld returns with his wittiest and most trenchant collection of literary cartoons to date. Perfectly composed drawings are punctuated

with the artist's signature brand of humour, hitting high and low. After all, Gauld is just as comfortable taking jabs at Jane Eyre and Game of Thrones. Some particularly favoured targets include the pretentious procrastinating novelist, the commercial mercenary of the dispassionate editor, the willful obscurantism of the vainglorious poet. Quake in the presence of the stack of bedside books as it grows taller! Gnash your teeth at the ever-moving deadline that the writer never meets! Quail before the critic's incisive dissection of the manuscript! And most importantly, seethe with envy at the paragon of creative productivity! Revenge of the Librarians contains even more murders, drubbings, and castigations than The Department of Mind-Blowing Theories, Baking For Kafka, or any other collections of mordant scribblings by the inimitably excellent Gauld.
