TiVo For Dummies May 20 2021 Did it about kill you when "Cheers" went off the air? Want to make sure you don't miss an appointment with Dr. Phil? Want to see anything and everything with Jessica Lange, Kate Winslet, or Clint Eastwood? Are your kids really into SpongeBob SquarePants, judo, gorillas, or the Civil War? TiVo to the rescue. TiVo lets you watch what you want when you want to. You can pause live TV, replay missed high points, skip commercials, and even get TiVo to find and record stuff you'll be interested in! TiVo For Dummies shows you how, even if you're one of the millions whose VCR clock is only right twice a day! You'll discover how to: Choose the right TiVo for your needs and your TV service Get an "instant replay" with the click of a button Use a Season Pass to get TiVo to seek out and record all episodes of a favorite TV show, no matter when they air Create a WishList so you can turn on whatever turns you on; TiVo will find and record specified TV shows, movie titles, and programs with your favorite actors or directors Expand your WishList to include topics such as sports (there are 93 subcategories to choose from), opera, car repair, volcanoes, or whatever, and TiVo will record related programming Use TiVo's Home Media Option (HMO) to play your MP3 music files and view digital photos Fast-forward through commercials, sometimes cutting an hour show to 40 minutes Use Parental Controls to lock out specific channels or filter individual shows based on content TiVo For Dummies was written by Andy Rathbone, possibly the bestselling technology ever, and the author of thirty-five For Dummies books. It takes you from setting up TiVo to fine-tuning it to troubleshooting it with all kinds of info and aids including: A diagram of the TiVo remote with call-outs and descriptions

of what all 26 buttons do Button shortcuts, live TV shortcuts, Now Playing screen shortcuts, and text entry shortcuts Suggestions about additional software you may want for TiVo HMO, including MoodLogic that becomes your personal disc jockey Web sites that give all kinds of TiVo information A glossary TiVo puts you in control of your TV viewing, and TiVo For Dummies puts you in control of TiVo!

Talk is Cheap Mar 18 2021 Fed up with the high tolls charged by your ordinary telephone service? If you're itching to cut the copper cord with your costly, traditional phone service, you need Talk is Cheap, the new, easy-to-understand guide to understanding and using Voice over Internet Protocol (VoIP) and other Internet telephone options. Technologies such as VoIP are gaining a great deal of attention these days as more people switch from standard telephone service to phone service via the Internet. But while the cost savings are outstanding, there are some issues with Internet telephony that you should know about. Are the connections reliable? Is the quality comparable? Will it include 911 services? James Gaskin's Talk is Cheap addresses these issues and many more by explaining how to make the switch and what the tradeoffs will be if you opt for Internet telephony over traditional phone services. Talk is Cheap focuses on the increasingly popular services from Vonage, which uses VoIP, and Skype--a free service that operates as a peer-to-peer (P2P) network with the ability to turn any PC, Mac, or Pocket PC into a telephone. The book explains your options; explores the background behind, the workings of, and differences between VoIP and P2P networks; and discusses the advantages and drawbacks of both technologies (including service offerings, quality, capabilities, completion rates, and more). Talk is Cheap then goes into detail on what you can expect in Internet service from traditional phone companies such as Verizon and AT&T. In addition, you will learn more advanced techniques, including how to turn your Palm or Pocket PC into an Internet phone and how to work with Wi-Fi phones and videophones. A straightforward, quick introduction to the ins and outs of using Internet telephone services, this book provides everything you need to make informed telephone decisions--whether you're thinking about the switch from traditional phone service or have already made it and want to get the most out of your new Internet telephone.
