There aren't many vehicles that are so well-kept, babied, and, in some cases, ignored altogether that they never seem to get old and tired. In the old car hobby, these cars are called "Survivors." They usually have very low mileage, loving owners, and a lot of good fortune - and today they are more coveted than ever. In Only Originals, collector car fans can examine a fascinating cross section of Survivor cars and learn how they have managed to defy the odds. From Duesenbergs to Corvettes, Only Originals slates the unrestored, "time capsule" cars that remind us of yesterday.*

*Errett Lobban* Feb 01 2020 E.L. Cord was first and foremost a salesman, both of products and of himself. In 1924, after achieving great success as an automobile distributor, Cord became the man with enough talent and panache to lead the Auburn Automobile Company out of its slumber. By 1929, Auburn sales had increased 15-fold and Cord was the head of an empire. His Cord Corporation owned Lycoming Mfg. Co. (engines), Limousine Body Co. and Central Mfg. Co. (auto bodies), Century Airlines, and Duesenberg, among others. Cord's philosophy of automobile design (and salesmanship) might be summed up in two words: Novelty Sells. Though mechanically ordinary, his Auburn models, with outstanding styling and clever paint combinations, were hot sellers. Cord oversaw the introduction of the fabulous Model J Duesenberg, a car whose combination of size, cost, performance, and style was and is unmatched in American automotive history. His most novel car was the rakish Cord L-29, the first American production car to feature front-wheel drive. All this and more is told of America's true renaissance man, E.L. Cord, in the original and complete biography of the man behind the Auburn, Cord and Duesenberg lines. The luxurious presentation includes 280 over-sized pages containing more than 500 rare illustrations, photographs and documents.

*More Cadillac V-16s Lost and Found* Mar 16 2021 In 1930, Cadillac rolled out a line of new cars of unsurpassed elegance and craftsmanship that would launch the company into the top tier of luxury carmakers. While competitors produced models with eight or twelve-cylinder engines, Cadillac offered the smooth, powerful performance of a V-16. Over the next 11 years, each of the more than 4000 V-16s was as close to hand-made as a commercial auto manufacturer could come. Their drivers included statesmen, celebrities, businessmen and, sometimes, well-heeled ne'er-do-wells. Many of the cars survived wartime scrap drives, obsolescence, lack of replacement parts, neglect and the elements.
