*Dying for an iPhone* Dec 24 2019 Suicides, excessive overtime, and hostility and violence on the factory floor in China. Drawing on vivid testimonies from rural migrant workers, student interns, managers and trade union staff, *Dying for an iPhone* is a devastating expose of two of the world's most powerful companies: Foxconn and Apple. As the leading manufacturer of iPhones, iPads, and Kindles, and employing one million workers in China alone, Taiwanese-invested Foxconn's drive to dominate global electronics manufacturing has aligned perfectly with China's goal of becoming the world leader in technology. This book reveals the human cost of that ambition and what our demands for the newest and best technology means for workers. Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production, challenge management and the Chinese state, and confront global tech behemoths. *Dying for an iPhone* allows us to assess the impact of global capitalism's deepening crisis on workers.

**The Scandalous Presidency of Barack Obama** Jul 11 2021 "I'm proud of the fact that [...] we're probably the first administration in modern history that hasn't had a major scandal in the White House." So President Barack Obama boldly declared before leaving office, and numerous times since. But is it true? Not according to Matt Margolis, bestselling co-author of *The Worst President in History: The Legacy of Barack Obama*. Margolis lays out the details of literally dozens of Obama administration scandals that have been ignored, downplayed, or covered-up by

the mainstream media. From “Fast and Furious,” to the illegal IRS targeting of conservative groups, to the recent NSA spying outrage, Margolis makes a powerful case that the Obama years represented nearly a decade of lawless and abusive governance. While Obama and his allies attempt to spin the narrative that his presidency represented a time of pristine politics, it’s critically important that Americans understand the truth—Barack Obama brought to Washington corrupt Chicago-machine politics of cronyism and corporate payoffs, combined with audacious Alinskyite tactics aimed at dividing Americans and destroying his opponents. Obama’s legacy will be discussed and debated for decades. But in the early months after he left office, more scandals have been uncovered—most notably an illegal scheme of using the NSA to spy on his political opponents and the frightening decision to block the prosecution of Iranian-backed terrorists. Far from being a virtuous New Camelot, the Obama administration abused its power like few others.
