Anna Howard Shaw, the Story of a Pioneer Sep

22 2019 Anna Howard Shaw: The Story of a Pioneer is one of the classic autobiographies of American letters. A leader in the church as well as the suffrage movement, an M.D. as well as a powerful and eloquent lecturer, Anna Howard

Shaw (1847-1919) was a close associate of Susan B. Anthony and the first woman to receive the United States Distinguished Service Medal. Born in England, Shaw immigrated to the United States as a child and in 1880 became the first woman ordained as a Methodist preacher. She subsequently left the pulpit to serve as president of the National American Suffrage Association--and later, as

head of the Women's Committee of the Council of National Defense during World War I. Leontine T. C. Kelly was the first woman African American bishop in the United Methodist church. She retired in 1988. Golden Legacy Dec 26 2019 Back in print, the fascinating history of Little Golden Books, in celebration of their 75th anniversary in 2017! With a Foreword by Eric Carle. Eminent

children's historian Leonard Marcus' Golden Legacy chronicles the fascinating story of the creation, marketing, and worldwide impact of Little Golden Books, the most popular children's books of all time. Launched during the dark days of WWII, Golden Books such as The Poky Little Puppy were an instant sensation. Hallmarked by their superlative quality yet affordable to nearly all, they changed the cultural landscape and mirrored our changing postwar culture: the powerful influence of television, the post-Sputnik renaissance in American science education, and the birth of the civil rights movement. Lavishly illustrated with the iconic Golden Book covers and colorful artwork generations of children have pored over, Golden Legacy is a compelling tale of mavericks, innovators, and renowned authors and illustrators. . . a stirring celebration of the humble books in which we scrawled our names, with the cardboard cover and the shiny gold-foil spine.

So what will happen when Ferdinand is picked for the bull fights in Madrid? Beloved all

Story of Life Dec 30 2022 At first, nothing lived on Earth. It was a noisy, hot, scary place. Choking gas exploded from volcanoes and oceans of lava bubbled around the globe... Then in the deep, dark ocean, something amazing happened. This is an exciting and dramatic story about how life began and developed on Planet Earth, written especially for younger children. The authors explain how the first living cell was created, and how the cells multiply and create jellyfish and worms, and then fish with bendy necks, which drag themselves out of the water into swampy forests. They tell the story of the biggest creatures that have ever walked on land - the dinosaurs. Long after that, hairy creatures who have babies, not eggs, take over, stand on two legs and spread around the world, some of them living through cataclysmic events such as ice ages and volcanic eruptions. Everyone living today is related to these survivors. With delightful illustrations including lots of detail and humour, all carefully researched and checked, this book shows the development of

life on Earth in a truly accessible and simple way.
