Corporate Criminal Investigations and Prosecutions Oct 25 2021 Buy a new version of this textbook and receive access to the Connected eBook on CasebookConnect, including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Corporate Criminal Investigations and Prosecutions provides readers a comprehensive understanding of the process behind the investigation, prosecution, and resolution of criminal charges against organizations. Over the past two decades, corporate criminal liability has developed into one of the fastest-growing and most dynamic areas of legal practice. The growth of corporate criminal enforcement has correlated with a broad shift in how the government investigates and resolves corporate criminal violations. As a result of these developments, the practice of investigating, prosecuting, and resolving corporate criminal cases has many significant differences from other areas of criminal or civil law. Notably, one of the most significant aspects that distinguishes corporate criminal practice is that much of it occurs outside of the formal judicial system; nearly all DOJ corporate criminal matters are resolved through negotiated settlements, and very few cases involve court proceedings or go to trial. As a result, many parts of this practice remain relatively unknown to students and practitioners. Until now. With the publication of this book, authors Leo Tsao, Daniel Kahn, and Eugene Soltes, whose resumes collectively reflect the highest levels of practice and expertise in this field, open a window into all aspects of corporate criminal investigations and prosecutions. Professors and students will benefit from: The authors bring a unique perspective and unparalleled qualifications to the subject of corporate criminal liability. Daniel Kahn is the former acting Deputy Assistant Attorney General of the Criminal Division and former Chief of the Fraud Section and FCPA Unit. Leo Tsao is the former Principal Deputy Chief of the Money Laundering and Asset Recovery Section and has held supervisory positions in the Bank Integrity Unit and FCPA Unit within the DOJ's Criminal Division. Eugene Soltes is a professor at Harvard Business School, and regularly teaches and advises companies on corporate integrity, organizational cultures, and compliance systems. Comprehensive coverage: Part One addresses topics that are generally applicable to all corporate criminal cases, such as the legal principles underlying corporate criminal liability; the individual liability of corporate officers for corporate crimes; and the constitutional rights of criminal corporate defendants—to name a few. Part Two addresses specific categories of federal crimes commonly used to charge corporate defendants, such as conspiracy, the FCPA, the Bank Secrecy Act, antitrust laws, and RICO. Part Two also provides insights into criminal activity and law enforcement within the technology sector as it pertains to virtual currency (e.g., Bitcoin). Extensive online resources include discussion questions, and relevant case material for key chapters

The Bloomsbury Handbook of Sustainability in Higher Education Aug 30 2019 This Handbook illustrates that universities per se and higher education in general are essential to catalyze and action the transformative change needed for sustainability and delivery of the Sustainable Development Goals. Part One shows how sustainability can be adopted as a driver of change within higher education institutions (HEIs), as they react and respond to influencing factors outside the academy. Part Two examines how a university working with and for sustainability can influence, effect and amplify change beyond the institution, working with and through others. International contributors explore regional, national and international perspectives, presenting a variety of critically assessed accounts case studies that reflect different local and national contexts, institutional archetypes and academic missions. Frameworks of sustainability-led transformation are illustrated at the level of the institution (executive/administrative), organization, culture, place-based (anchor) and student in various countries including Aruba, Belgium, Brazil, Canada, Hong Kong, Japan, Lebanon, Nepal, New Zealand, Nigeria, South Africa, Spain, Uganda, United Kingdom and the United States of America. The book concludes with a manifesto for change and a call to action. It identifies that the sustainability journey of a HEI is influenced by context and place, with mission, leadership and strategy playing a vital role and change agency by students a key ingredient. Recognizing the patience and resolve to effect change, communication, dialogue and inclusion were central to community building and partnership.

The Palgrave Handbook of Teacher Education in Central and Eastern Europe Jun 20 2021 This handbook provides a comprehensive, scholarly overview of teacher education in Central and Eastern Europe (CEE), since the fall of communism in 1989. It looks closely at recent trends, emerging practices, and possible futures for teacher education in twenty-one CEE countries – reaching from the Balkans, through the Visegrad Group, to Eastern Europe and the Baltics. The contributing authors reflect on their own countries' uphill battles and journeys towards modernising teacher education over the last three decades. Subsequently, contemporary teacher education policies, structures, and practices are explored in light of Bologna reforms, EU higher education policies, and globalisation processes. Each chapter also offers some predictions about likely future trajectories – with concrete suggestions on how to develop and improve teacher education systems in response to the growing pressures of neoliberal ideologies. The Palgrave Handbook of Teacher Education in Central and Eastern Europe provides a valuable reference that enriches the work of scholars, students, policymakers, and practitioners across CEE and beyond.

Reflections on the Economy of Rwanda May 20 2021 The performance figures achieved by the Rwandan economy for the past three decades demonstrate an exceptional growth in real GDP. They are of real interest for economists because Rwanda has been in a state of almost perpetual war during that time, whether through internal conflict or through international wars conducted directly or through proxies and militias. This book examines the accuracy of these figures and asks why, despite such growth, Rwanda remains a country of marked inequality and poverty.

Selected Health Conditions and Likelihood of Improvement with Treatment Dec 15 2020 The Social Security Administration (SSA) administers two programs that provide disability benefits: the Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program. SSDI provides disability benefits to people (under the full retirement age) who are no longer able to work because of a disabling medical condition. SSI provides income assistance for disabled, blind, and aged people who have limited income and resources regardless of their prior participation in the labor force. Both programs share a common disability determination process administered by SSA and state agencies as well as a common definition of disability for adults: "the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months." Disabled workers might receive either SSDI benefits or SSI payments, or both, depending on their recent work history and current income and assets. Disabled workers might also receive benefits from other public programs such as workers' compensation, which insures against work-related illness or injuries occurring on the job, but those other programs have their own definitions and eligibility criteria. Selected Health Conditions and Likelihood of Improvement with Treatment identifies and defines the professionally accepted, standard measurements of outcomes improvement for medical conditions. This report also identifies specific, long-lasting medical conditions for adults in the categories of mental health disorders, cancers, and musculoskeletal disorders. Specifically, these conditions are disabling for a length of time, but typically don't result in permanently disabling limitations; are responsive to treatment; and after a specific length of time of treatment, improve to the point at which the conditions are no longer disabling.

Cochrane Handbook for Systematic Reviews of Interventions Dec 27 2021 Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

The Oxford Handbook of Prosecutors and Prosecution Dec 03 2019 The power of the modern prosecutor arises from several features of the criminal justice landscape: widespread use of law and order political rhetoric and heightened fear of crime among voters; legislatures' embrace of extreme sentencing ranges to respond to such concerns; and the uncertain or limited accountability of prosecutors to the electorate, the bar, or other political and professional constituencies. The convergence of these trends has transformed prosecution into an indispensable field of study. This volume brings together the work of leading international scholars across criminology, sociology, political science, and law - along with contributions from reform-minded practitioners - to examine a variety of issues in prosecutorial behaviour and the institutional structures that frame their behavior. The Handbook connects the dots among existing theoretical and empirical research related to prosecutors. Major sections of the volume cover (1) prosecutor performance during distinct phases of a criminal case, (2) the features of the prosecutor's environment, both inside the office and external to the office, that

influence the choices of individual prosecutors and office leaders, and (3) prosecutorial strategies and priorities when dealing with specialized types of crimes, victims, and defendants. Taken together, the chapters in this volume identify the founding texts, discuss leading theoretical and methodological approaches, explain the scope of unresolved issues, and preview where this field is headed. The volume provides a bottom-up view of an important new scholarly field.

Handbook of Research on the Changing Role of College and University Leadership Jan 28 2022 Higher education has changed significantly over the past 50 years, and the individuals who provide leadership for these institutions has similarly changed. The pathway to the college presidency, once the domain of academic administration, has diversified as an increasing number of development officers, student affairs and enrollment management professionals, and even politicians have become common in the role. It is important to understand who the presidents are in the current environment and the challenges they face. Challenges such as dealing with the COVID-19 pandemic, enrollment shortfalls, Title IX, and athletic scandals have risen to the forefront and have contributed to the issues and role of college and university leadership. The Handbook of Research on the Changing Role of College and University Leadership provides important research on the topic of college and university leadership, especially focusing on the changing role of the college president. The chapters discuss college leadership as it is now and how it will evolve into the future. Topics included are the role of the president at various types of universities, their involvement within university functions and activities, and the duties they must carry out and challenges they face. This book is ideal for professionals and researchers working in higher education, including faculty members who specialize in education, public administration, the social sciences, and management, along with teachers, administrators, teacher educators, practitioners, researchers, academicians, and students who are interested in college and university leadership and how this role is transforming.

Based on 2018 International Residential Code (IRC) Appendix Q, this book includes sample construction drawings and floor plans for a variety of tiny home styles, including: · Mobile (8'6"-wide trailers and RVs) · Movable (12'-wide, routine transport permit) · Site-built (up to 20' wide) Rather than being just another inspirational collection of tiny home photographs, The Tiny House Handbook constitutes a complete and fulsome reference for anyone seeking to build their own tiny home. From seasoned construction vets to total novices, this book will walk you through the process of designing and building a tiny house from start to finish.

A Civil Litigation Practice Manual Nov 06 2022 In this new text, A Civil Litigation Practice Manual, the author, Assistant Professor Hugh Zillmann, the Director of Bond University's Practical Legal Training Program, draws upon his extensive experience as both a legal practitioner and legal academic, to provide a user-friendly introduction to and explanation of the practical aspects of the civil litigation process. The manual is concisely formatted and presented in a narrative style, which tracks the stages of civil litigation, highlighting important procedural aspects of the process, as well as providing useful practical tips. The text is designed and structured to provide a link for the latter year law student/newly admitted practitioner, to enable them to understand the practical aspects of what they have learned during their degree studies and be in a position to apply that knowledge, both during practical legal training, as well as legal practice.
