International Law's Collected Stories Nov 25 2022 This edited volume presents a collection of stories that experiment with different ways of looking at international law. By using different literary lenses -namely, storytelling, the novel, the drama,

the collage, the self-portrait, and the museum- the authors shed light on elements of international law that usually remain unseen or unheard and expose the limits of what international law can do. We inquire into who the storytellers of international law are, the stages on which they tell their stories, and who are absent in these tales. We present it as a collection: a set of different essays that more or less deal with the same subject matter. Alternatively, we would like to call it a potpourri of stories, since the diversity of topics and approaches is eclectic and unconventional. By placing multiple perspectives alongside each other we aim to compare and contrast, to allow for second thoughts, and to rediscover. In doing so, we engage with the ambiguities of international law's characters and spaces, and with the worldviews they reflect and worlds they create.

Recueil Des Cours de L'Académie de Droit Européen Oct 20 2019 The Academy of European Law was established by the European University Institute in 1990 and extends the Institute's current programmes into a larger field of interest. It has as its main activity the holding of annual Summer Courses in the law of the European Community and the protection of human rights in Europe. In addition to General Courses, shorter courses are held on subjects of special academic and practical interest in both fields. Finally, special guest lectures on topical issues are given by policy makers, judges and persons who have held or currently hold the highest position in these fields. The courses are published in the language in which they were delivered (English and French).

Collected Cases on Eu Labour Law Jan 15 2022 European labour law has an unmistakable influence on national law. This applies even more to the case law of the European Court of Justice, as it has implications for the application of European law in the Member States and thus the interpretation of national law. This book contains a collection of standard judgments that every labour lawyer must know. In addition, each section contains a number of judgments that are of particular interest to the Dutch legal system or determine the discussion on European labour law. The book is unique because it is the only one that focuses solely on European labour law and because each of the components is introduced with a text in which the judgments are placed in the broader European context. The book is also easy to use for the legal practitioner as it contributes to understanding the judgments and to determining whether and to what extent a particular judgment can be of importance for a case that he/she is dealing with.--

Interpretation, Law and the Construction of Meaning Aug 30 2020 The study of legal semiotics emphasizes the contingency and fluidity of legal concepts and stresses the existence of overlapping, competing and coexisting legal discourses. New problems, changing power structures and societal norms and new faces of injustice – all these force reconsideration, reformulation and even replacement of established doctrines. This book focuses on the application of law in a wide variety of contexts, including international politics and diplomatic practice.

Collected Works of James Wilson Sep 18 2019 This two-volume set brings together a collection of writings and speeches by James Wilson, one of only six signers of both the Declaration of Independence and the United States Constitution. His works had a significant impact on the deliberations that produced the cornerstone documents of American democracy.

Philosophy of Law Feb 16 2022 John Finnis has been a central figure in the fundamental re-shaping of legal philosophy over the past half-century. This volume of his Collected Essays shows the full range and power of his contributions to the philosophy of law. The volume collects nearly thirty papers: on the foundations of law's authority; major theories and theorists of law; legal reasoning; revolutions, rights and law; and the logic of law-making. The essays collected include Finnis' recent appreciations and root-and-branch critiques of Hart's legal and political theories, his engagements with other central figures and works in the field, including Dworkin's Law's Empire; Raz on authority and coordination; Coleman, Leiter and Gardner on legal positivism and naturalism; Aquinas as founder of legal positivism; Weber on the fact-value distinction and legitimation; Unger on indeterminacy in law; Posner on intention and economics; Kelsen and courts on revolutions; game-theory and rational-choice theory; with misinterpreters of Hohfeld on rights logic; John Paul II on voting for unjust laws; analogy's role in legal reasoning; the distribution of constitutional authority in the Empire and its dissolution; the judicial opportunism of separation of powers doctrine in the Australian constitution; the architecture of Blackstone's Commentaries; restitution in civil wrongs; and many other aspects of law and legal theory. Several papers bring to bear his

extensive work as a constitutional adviser and lawyer on persistent problems of constitutional theory. Previously unpublished papers include two on critical or post-modern legal theory, and an introduction reflecting on legal philosophy's development and future.

International Law: Volume 1, The General Works Jun 20 2022 These papers are concerned with the theory, history, sources, relationships of international law with municipal law, subjects of international law, recognition, succession, jurisdiction, territory, state responsibility, the individual, treaties, international organisations, settlement of disputes and the law of war and neutrality. This first or general volume includes the English text of a general course of lectures on international law which Hersch Lauterpacht delivered at the Hague Academy of International Law in 1937 and the chapters on the general part of international law which he prepared for the new edition of Oppenheim's International Law on which he was working at the time of his death.

The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the "Collected Courses of the Hague Academy of International Law .

Justice Oliver Wendell Holmes Mar 17 2022 "Persuasive. A welcome addition." —The Journal of Legal History "A masterly exposition of the complex details of Holmes' Supreme Court work." —The Core Review In this work, H.L. Pohlman calls for a new interpretation of Holmes as a moderate defender of free speech, and provides a window into Holmes' basic understanding of American constitutionalism. Pohlman argues that Holmes played a crucial role in the development of the idea that the Constitution is a living entity, an idea that differed radically from nineteenth-century antecedents.

Empire, Humanism and Rights May 07 2021 This book deals with Vitoria, Charles V and Erasmus. Vitoria's ideas had a major influence on Charles V and his European and American policy. In turn, Erasmus' humanism was decisive in the formation of a new international order intellectually discussed by Vitoria and put into practice by the Emperor. Shedding new light on the influence of Francisco de Vitoria and Erasmus on Charles V's imperial policy, the book's goal is to explore the impact of Vitoria's thought with regard to the history of, and contemporary issues in, international law, while also comparing his thinking with that of the well-known humanist Erasmus and assessing their respective influences on the imperial policy of Charles V.

Taxing Culture Jan 23 2020 The introduction of self-assessment for income tax collection in the late 1990s marked a striking moment of cultural convergence between the UK and the US. This book analyses the socio-political factors leading to and resulting from this fundamental change in the relationship between taxpayers and the Inland Revenue, using perspectives in comparative law and the new outlooks of modern tax and cultural theory. It will be of interest to those studying theories of compliance, cultural legal studies, and law and society.

Current Legal Problems 1994 Dec 22 2019 This year's volume of collected papers in the Current Legal Problems series contains many pieces of great topical interest. Public law has witnessed much activity both in the courts and in Parliament during the last twelve months and this is reflected in three essays which examine different aspects of human rights, equality, and the right to privacy. In the wake of the Royal Commission on Criminal Justice, two lengthy essays deal with evidence in police investigations and the concept of due process and pre-trial criminal justice. The theory of property is the subject of a major essay, and there are important contributions on commercial law, medical law, the law of contract, and European Community law.

Collected Legal Papers Aug 22 2022 A valuable compilation, this volume contains Holmes' most famous speeches and papers from 1885 to 1918. Its publication in 1920 was an important event in the legal community, and it was reviewed with great enthusiasm in the major journals and law reviews. Roscoe Pound offered the finest assessment in "Judge Holmes's Contributions to the Science of Law," an essay-review from 1921 that analyzed the place of these writings in the development of American law from the 1880s to the 1920: "Rereading them consecutively in their new form and remembering the dates of their original publication, one can but see that their author has done more than lead American juristic thought of the present generation. Above all others he has shaped the methods and ideas that are characteristic of the present as distinguished from the immediate past." Harvard Law Review 34 (1920-1921):449. . . . Collected Legal Essays is a good vertical section of the mind of that judge who beyond any other of his generation has impressed his ideas on the structure and course of the law." - Learned Hand. Oliver Wendell Holmes, Jr. [1841-1935] served as Chief Justice of the Supreme Court of the United States from 1902 to 1932. Known as "The Great Dissenter" on the Court because of the brilliant legal reasoning found in his written opinions, he often differed in opinion from Theodore Roosevelt, who had appointed him to the bench. As a young man he attended Harvard College, served in the American Civil War among the "Harvard Regiment" and was seriously wounded. After the war he attended, and later taught at Harvard Law School before his appointment to the Supreme Judicial Court of Massachusetts. Well known for his legal philosophy espoused here and in The Common Law, Holmes proposed that the law was not a science founded on abstract universal principles but a body of practices that responded to particular situations.
