*Mr Penumbra's 24-hour Bookstore* Oct 19 2021 A New York Times bestseller, *Mr Penumbra's 24-hour Bookstore* is an entirely charming and lovable first novel of mysterious books and dusty bookshops; it is a witty and delightful love-letter to

both the old book world and the new. Recession has shuffled Clay Jannon out of his life as a San Francisco Web-design drone - and serendipity, coupled with sheer curiosity, has landed him a new job working the night shift at Mr. Penumbra's 24-Hour Bookstore. But after just a few days, Clay begins to realize that this store is even more curious than the name suggests. There are only a few customers, but they come in repeatedly and never seem to actually buy anything, instead they simply borrow impossibly obscure volumes from strange corners of the store, all according to some elaborate, long-standing arrangement with the gnomish Mr. Penumbra. The store must be a front for something larger, Clay concludes, and soon he's embarked on a complex analysis of the customers' behaviour and roped his friends into helping to figure out just what's going on. But once they bring their findings to Mr. Penumbra, it turns out the secrets extend far outside the walls of the bookstore... 'The pages swell with Mr Sloan's nerdy affection and youthful enthusiasm for both tangible books and new media... [but] the ties that bind the story are friendship and vitality for life. This is a clever and whimsical tale with a big heart' The Economist Shortlisted for the LA Times Book Award for First Fiction.

How to Live on 24 Hours a Day Jun 26 2022 You have to live on twenty-four hours of daily time. Out of it you have to spin health, pleasure, money, content, respect, and the evolution of your immortal soul. Its right use, its most effective use, is a matter of the highest urgency and of the most thrilling actuality. All depends on that. Your happiness - the elusive prize that you are all clutching for, my friends! - depends on that. Which of us lives on twenty-four hours a day? And when I say "lives," I do not mean exists, nor "muddles through." Which of us is not saying to himself - which of us has not been saying to himself all his life: "I shall alter that when I have a little more time"? We never shall have more time. We have, and we have always had, all the time there is. It is the realization of this profound and neglected truth (which, by the way, I have not discovered) that has led me to the minute practical examination of daily time-expenditure.
