*Avoidance: From Basic Science to Psychopathology* Jun 06 2020 Coping has a myriad of facets: knowledge concerning the circumstances of threats to emotional and physical well being, the ability to meet immediate needs to mitigate, the potential for recurrence, the ability to apply efforts and resources to manage recurrence, and the complex assessment of competing motivations and changing circumstances. Successful coping is measured in the efficiency of efforts in balance with the degree of threat and likelihood of future occurrence. As one means of coping, avoidance encompass thoughts and efforts toward prevention of future aversive experiences and events. Anxiety disorders exemplify an extreme bias toward avoidance. A diathesis learning model focuses research efforts on individual vulnerabilities to acquire and express avoidance, the neurobiology of avoidance learning and its attendant circuitry. A fundamental understanding of avoidance through a diathesis learning model offers will facilitate the development of effective treatment protocols in alleviating anxiety disorders.

*Handbook of Research on Citizenship and Heritage Education* Jan 02 2020 Cultural competence in education promotes civic engagement among students. Providing students with educational opportunities to understand various cultural and political perspectives allows for higher cultural competence and a greater understanding of civic engagement for those students. The Handbook of Research on Citizenship and Heritage Education is a critical scholarly book that provides relevant and current research on citizenship and heritage education aimed at promoting active participation and the transformation of society. Readers will come to understand the role of

heritage as a symbolic identity source that facilitates the understanding of the present and the past, highlighting the value of teaching. Additionally, it offers a source for the design of didactic proposals that promote active participation and the critical conservation of heritage. Featuring a range of topics such as educational policy, curriculum design, and political science, this book is ideal for educators, academicians, administrators, political scientists, policymakers, researchers, and students.

**Guidelines for Analysis and Description of Soil and Regolith Thin Sections** Dec 13 2020 A revised guide to the study and of soil and regolith thin sections A specialized system of terms and concepts must be used to accurately and effectively distinguish and name the microscopic features of soils and regoliths. With a comprehensive, consistent terminology at their disposal, researchers may compare, store and discuss new data easily and with less risk of error. The second edition of Guidelines for Analysis and Description of Soil and Regolith Thin Sections has been assembled to address this need, offering a practical system of analysis and description to those working with soil and regolith materials. This essential resource includes: An introduction to micromorphology and its practice Guidelines for the study of thin sections Sections covering the various microscopic features of soils and regoliths Illustrative graphics and colour micrographs Suggested description schemes and data presentation tips By providing an economical, navigable system for the study and documentation of soils and regoliths, Guidelines for Analysis and Description of Soil and Regolith Thin Sections, second edition, offers invaluable guidance for soil scientists, geologists, ecologists, archaeologists and all those concerned with micromorphology.

**The 21st Century Cold War** Aug 28 2019 The 21st Century Cold War is a multidisciplinary approach to understanding the pattern of Russian interference in the internal affairs of other nations, suggesting that what in the Cold War was a simple conflict of East vs. West has expanded into a conflict between Russia and two increasingly separate Wests. The book begins with an examination of the structure of the Cold War and post-Cold War world, and subsequently explores Russian interference by overt, grey, and covert means including, but not limited to, cyberespionage, "fake news", and the use of what in the Cold War would have been called front groups and agents of influence. The approach encompasses both historic and contemporary themes, with the question of whether the Cold War between East and West—capitalism and communism—is a thing of the past, or does it continue today in new ideological guises, as a central theme. Expert contributors explore what the motivations and implications for the pattern of Russian interference in the political processes of other states would be, and what new coalitions of actors are taking shape both for and against Russian activities. With a series of historical and contemporary case studies, focusing on the origins and contemporary dimensions of Russian information warfare, and exploring the issues involved from every perspective, The 21st Century Cold War will be of great interest to scholars of Security and Strategic Studies, International Relations, and Cold War History, as well as policy makers and security professionals. The chapters were originally published as a special issue of Terrorism and Political Violence.

**Análisis de la Conversación** Oct 30 2019 Análisis de la Conversación: fundamentos, metodología y alcances ofrece la primera introducción comprehensiva al Análisis de la Conversación (AC) en español y con datos conversacionales disponibles en línea. El libro está organizado en nueve capítulos. En los capítulos iniciales, se presenta el AC como una disciplina y método analítico para el estudio del habla y otras formas de conducta humana en la interacción social, se hace un breve recuento histórico del desarrollo de la perspectiva analítico-conversacional y se introduce a los lectores al sistema de transcripción usado en el AC. Los capítulos siguientes están dedicados a explorar cuatro dominios claves en la organización de la conversación espontánea: la toma de turnos, las secuencias de acciones, la preferencia y la enmienda, destacando la importancia de prácticas del diseño de turno en cada dominio. Seguidamente, se discute la conexión entre organizaciones y prácticas del habla en interacción y contextos sociales e identidades de los participantes en conversación. El libro concluye ofreciendo

una serie de sugerencias para la investigación analítico-conversacional en español y señalando su relevancia para la indagación de la interacción en contextos legales, políticos, médicos, tecnológicos, entre otros. Cada capítulo incluye ejemplos tomados de conversaciones auténticas en distintas variedades de español, cuyos audios pueden ser consultados directamente en línea. Con el fin de revisar y profundizar lo aprendido, cada capítulo ofrece un apartado final con preguntas, actividades y lecturas adicionales. Como apéndices al libro, se ofrecen, además, un glosario de términos bidireccional español-inglés y un sumario con las convenciones de transcripción más usadas. Escrito enteramente en español, el libro ofrece una introducción actual, comprehensiva y amigable al AC y sus aplicaciones por lo que constituye una fuente de referencia ideal para estudiantes, instructores e investigadores en lingüística (hispanica), sociología y comunicaciones. *Análisis de la Conversación* provides the first comprehensive, Spanish-language introduction to the field of Conversation Analysis (CA), utilizing conversational data that is publicly available online. The book is organized in nine chapters. The opening chapters introduce Conversation Analysis as a unique theory and method to study language and other forms of conduct in social interaction. Readers are presented with a history of the development of this framework for analyzing interaction and introduced to the transcription system used in CA. The following chapters explore four key domains of organization within spontaneous conversation—turn-taking, preference, sequence, and repair—highlighting the importance of turn design practices in each. The authors then review the connection of these organizations and practices to social contexts and participant identities, and they conclude by suggesting a range of avenues for future research on Spanish conversation, including its relevance in specific legal, political, medical, and technological settings. Each chapter includes a variety of examples from authentic Spanish conversation, which readers can consult directly online. Each chapter is additionally accompanied by a set of questions and activities that allow readers to check and reinforce their understanding, as well as lists of additional readings for readers interested in more specific topics. Glossaries of technical vocabulary—both Spanish-English and English-Spanish—are included as appendices, along with a summary of transcription system notation. Written entirely in Spanish, this book presents a thorough and engaging introduction to Conversation Analysis and its applications. It is ideal for students, instructors, and researchers in Hispanic Studies, (Spanish) Linguistics, Sociology, and Communication Studies.

ECIE2015-10th European Conference on Innovation and Entrepreneurship Nov 11 2020 These proceedings represent the work of contributors to the 10th European Conference on Innovation and Entrepreneurship (ECIE 2015), hosted this year by The University of Genoa, Italy on the 17-18 September 2015. The Conference Chair is Prof Luca Beltrametti and the Programme Co-chairs are Prof Renata Paola Dameri, Prof. Roberto Garelli and Prof. Marina Resta, all from the University of Genoa. ECIE continues to develop and evolve. Now in its 10th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and growing area of research. The opening keynote presentation is given by Marco Doria – Mayor of Genoa on the topic of Innovation and entrepreneurship in Genoa: past, present and future. A second keynote will be given by Flavia Marzano from the National board for innovation and Italian digital agenda on the topic of Innovation: New visions not just new technologies. The second day Keynote will be given by Roberto Santoro, President of the European Society of Concurrent Engineering Network (ESoCE Net) on the topic of People Olympics for healthy and active living: A people driven social innovation platform. In addition to the main themes of the conference there are a number of specialist mini tracks on topics including Innovation and strategy, Entrepreneurship education in action, The theory and practice of collaboration in entrepreneurship and Challenges for entrepreneurship and innovation in the 21st Century. With an initial submission of 275 abstracts, after the double blind, peer review process there are 88 Academic research papers, 6 PhD research papers, 1 Masters Research paper, 4 work-in-progress papers and 1 Non-academic paper published in these Conference Proceedings. These papers represent research from Australia, Brazil, Bulgaria, Colombia, Croatia, Cyprus, Czech Republic, Denmark, Egypt, Finland, , France, Germany, Ghana, Greece, Hungary, India, Iran, Ireland, Israel, Italy, Japan, Kazakhstan, , Kuwait, Lithuania, Malaysia, Mexico, Netherlands, New Zealand, Nigeria, Norway, Poland, Portugal, Romania, Romania, Russia, Russian Federation, Saudi Arabia, South Africa, Spain, Sweden, Thailand, Thailand, UK and USA

*Natural Resource Governance, Grievances and Conflict* Sep 09 2020 Janine Romero Valenzuela analyses the Bolivian lithium program in the largest empirical study to date with a focus on local perspectives and governance, identifying grievances and conflict dimensions. The case study shows that it is particularly an altered governance approach, the local trust in government and the high expectations that the Morales administration could create around lithium that influence local viewpoints. By applying the meaningful grievance concept on the local level, the book supports a further refinement of theories on a resource-governance-conflict-link.

**Eat Wheat** May 06 2020 The international bestseller by the author of *The 3-Season Diet*: “A compelling, evidence-based approach for safely eating wheat and dairy . . . a must-read” (Dr. Rav Ivker, author of *Sinus Survival*). Have you gone gluten-free or dairy-free? If so, you might not have to deny yourself the foods you love any longer. *Eat Wheat* is your guide to safely bringing wheat and dairy back into your diet, using a scientific and clinically proven approach to addressing food intolerances. Dr. John Douillard, a former NBA nutrition expert and creator of LifeSpa.com, addresses the underlying cause of the recent gluten intolerance epidemic. *Eat Wheat* explains how a breakdown in digestion has damaged the intestinal wall, causing “grain brain” symptoms and food allergies. Although eliminating wheat and dairy from your diet may help your symptoms, it is only a temporary solution. *Eat Wheat* addresses the root cause: the inability to digest well and break down harmful toxins that can lead to more serious health concerns. Backed by more than 600 scientific studies, *Eat Wheat* is a revolutionary guidebook to regaining your digestive strength. *Eat Wheat will: Reveal hidden science on the benefits of wheat and dairy Help you navigate around food toxins in modern wheat and dairy Retrain your body to digest wheat and dairy again Flush congested lymphatics linked to food intolerance symptoms Teach you to follow natural digestive circadian cycles Help bring your blood sugar back into balance Teach you proven exercise and detox techniques to reboot strong digestion and achieve optimal health and vitality*

**The Registrar's Manual for Detecting Forced Marriages** Jul 08 2020 Swimming for his life towards traffickers on the Italian shore, Selim enters a world where Kurdish refugees disguise themselves as tomatoes, dates of birth are a matter of opinion, and a residency permit is a ticket to paradise. When he ends up in a small town in Germany, Selim believes he is finally safe, until the law catches up with him and the clock starts ticking. Selim realises there is only one way to avoid deportation, if he dare try . . . Fifteen years later, in a town hall in Paris, a Registrar receives an unsettling book in the post. *The Registrar's Manual for Detecting Forced Marriages* only fuels her suspicions surrounding an impending Kurdish wedding. Unsure how to intervene, she embarks on an investigation that brings her uncomfortably close to an old acquaintance: Selim. Written with real imaginative flair, heart and humour, *The Registrar's Manual for Detecting Forced Marriages* introduces an unlikely hero who'll prove impossible to forget, and a prodigious new talent in Sophie Hardach.

*The Future of Productivity* Feb 24 2022 This book addresses the rising productivity gap between the global frontier and other firms, and identifies a number of structural impediments constraining business start-ups, knowledge diffusion and resource allocation (such as barriers to up-scaling and relatively high rates of skill mismatch).

**BRAVO Principal!** Nov 04 2022 It is only through effective leadership actions that principals can become outstanding leaders. By building relationships that value all stakeholders—including teachers, students, parents, and community members—your actions will lead to a thriving school. This book provides you with the tools for emphasizing shared purpose, caring, integrity, and honesty so you can Build Relationships with Actions that Value Others. In this updated edition, you'll find out how to: Establish trusting relationship based on mutual support, respect, and empowerment. Demonstrate cultural responsiveness by embracing diversity and integrating multicultural awareness throughout the curriculum. Employ creative concern-solving strategies and address conflicts with students, parents, and staff. Develop a learning culture to nurture student and teacher achievement. Each chapter concludes with a set of review questions to help you to reflect, evaluate, and improve upon your leadership skills. Filled with suggestions for actions that you can apply today, this book shows you how to become a BRAVO Principal!

*Manuel Alvarez Bravo* Mar 28 2022 "Over 370 tritone photographs, arranged in broadly chronological order, mark Alvarez Bravo's remarkable eighty-year career. Strikingly poetic and richly resonant, the collection includes iconic images as well as over thirty previously unpublished masterpieces. Urban and rural scenes, still lifes, nudes, religious and vernacular subjects, portraits of luminaries including Diego Rivera, Frida Kahlo and Octavio Paz: all illustrate the peerless acuity of the photographer's eye. Above all, Alvarez Bravo's work celebrates his beloved Mexico, with its indigenous rituals and age-old customs."--Jacket.

**Producing Safe Eggs** Jul 20 2021 *Producing Safe Eggs: Microbial Ecology of Salmonella* takes the unique approach of interfacing problems of Salmonella and microbial contamination with commercial egg production. It presents in-depth information on microbial contamination, safety and control, physiology, immunology, neurophysiology, and animal welfare, which makes this book a complete reference for anyone involved in the safe production of eggs and egg products in the food industry. This book discusses management and risk factors across the entire egg production process, including practical applications to decrease disease and contaminated food products in poultry houses, processing plants and retail businesses. It is an integral reference for food scientists, food safety and quality professionals, food processors, food production managers, and food business owners, as well as students in food science, safety, microbiology, and animal science. Includes pre- and post-harvest control measures to reduce microbial contamination and salmonella risks Presents hot topics regarding vaccination, egg-in-shell pasteurization, and other new technologies currently under development Provides risk assessment strategies for implementation in business operations Discusses management and risk factors across the entire egg production

process, including practical applications to decrease disease and contaminated food products in poultry houses, processing plants, and retail businesses Offers a complete reference for anyone involved in the safe production of eggs and egg products in the food industry

*Dietary Polyphenols in Human Diseases* Aug 21 2021 Diets rich in plant polyphenols or dietary polyphenols are the subject of increasing scientific interest because of their diverse range of health benefits and medicinal uses. This book, *Dietary Polyphenols in Human Diseases: Advances and Challenges in Drug Discovery*, fills the gap that exists in the current knowledge by presenting the latest information in the area of polyphenol-based drug discovery research. The book focuses on the current understanding of the beneficial effects on human health of diets rich in polyphenols and/or polyphenolic compounds derived from dietary sources (plant-based foods) and their possible preventive role in the management of chronic human diseases. In addition, biochemical mechanisms involved in the antioxidative effect of dietary polyphenols along with their bioavailability, pharmacokinetic, and toxicological considerations are also discussed herein. Key Features Presents health benefits and medicinal importance of dietary polyphenols having antioxidative effects and their possible preventive role against oxidative stress (OS)-induced chronic human diseases. Summarizes the latest understanding of the biochemical mechanism(s) involved in the antioxidative action of dietary polyphenols along with their bioavailability, pharmacokinetic, and toxicological considerations. Highlights novel approaches of drug discovery from dietary polyphenols through computational screening of bioactive phytochemical components. With contributions by a global team of experts (academics, scientists, and researchers), this book is intended to be a useful resource for a wider audience, particularly those working in the area of drug discovery and development research, such as discovery scientists, pharmaceutical scientists (R&D), formulation scientists, medicinal chemists, pharmacologists, toxicologists, phytochemists, biochemists, clinicians, researchers, students, teachers, and many others.

**The Sell** Oct 11 2020 The nation's #1 real estate broker and charismatic costar of Bravo's Million Dollar Listing New York shares his secrets on how to be successful. In the ten years since moving from Sweden to New York City, with no experience in real estate and no contacts, Fredrik Eklund has transformed himself into the best seller in the most competitive real estate market on the planet. In *The Sell*, Eklund leverages his years of experience to create the go-to manual for self-promotion and sales. At the core of the book are chapters tied to Eklund's 10-step program for "selling anything to everyone," and he shares his secrets on everything from personal authenticity and looking your very best to crafting the perfect sales pitch, negotiating with savvy, and closing deals promptly and efficiently . . . lest they slip away. Whether you're just starting a job as a sales rep at Verizon, navigating your career as an executive or entrepreneur, or hitting your stride closing big transactions as a banker at Goldman Sachs, *The Sell* will show you how to improve your game and radically increase the money you're bringing home. *The Sell* is a vital resource for anyone who wants to have an impact in his or her personal and professional life, with a razor-sharp focus on selling: selling yourself—or your brand—no matter your background.

*Improving University Reputation Through Academic Digital Branding* Dec 05 2022 As higher education institutions adapt to an increasingly digital world, it is imperative that they adopt technological techniques that allow them to establish a digital presence. Academic e-branding involves managing a university's brand and image to promote and build the reputation of the institution, especially in regards to its student and faculty research and achievements. Without a solid digital presence, higher education institutions may struggle to remain competitive. *Improving University Reputation Through Academic Digital Branding* is a critical scholarly publication that explores digital

branding and its role in establishing the reputation of academic institutions and programs. Featuring a range of topics including digital visibility, social media, and inclusive education, this book is ideal for higher education boards, brand managers, university and college marketers, researchers, academicians, practitioners, administrators, and students.

*Volunteered Geographic Information and the Future of Geospatial Data* May 18 2021 Geographic data is a valuable source of information in modern society. By utilizing alternative sources of this data, the availability and potential applications of geographic information systems can be increased. *Volunteered Geographic Information and the Future of Geospatial Data* is a pivotal reference source for the latest scholarly research on information gathering from volunteers, as opposed to official agencies and private companies, to compile geospatial data. Highlighting a range of pertinent topics such as regional landscape mapping, road safety, and land usage, this book is ideally designed for researchers, academics, students, professionals, and practitioners interested in the growing area of volunteered geographic information.

**Radiotelephony Manual** Jun 18 2021 The UK Radiotelephony Manual (CAP 413) aims to provide pilots, Air Traffic Services personnel and aerodrome drivers with a compendium of clear, concise, standard phraseology and associated guidance for radiotelephony communication in United Kingdom airspace

*Rhythms in Healthcare* Jun 30 2022 This book provides an insightful review and methodological contribution about future healthcare system. It also provides a space for creating and designing techniques for effective sensing, processing, and analysis of patient health situations based on bio-signal processing. Additionally, it discusses novel methods and algorithms which are needed to overcome limitations in current rhythmic bio-signals models. It also discusses solutions and systems needed to efficiently evaluate and process real-time data. The book is useful for wide range of users, including students, research scientists, teachers, and practitioners working in the field of health informatics, neuroscience, biomedical engineering, and medical image processing and diagnosis.

Human Interaction, Emerging Technologies and Future Systems V May 30 2022 This book reports on research and developments in human–technology interaction. A special emphasis is given to human–computer interaction and its implementation for a wide range of purposes such as health care, aerospace, telecommunication, and education, among others. The human aspects are analyzed in detail. Timely studies on human-centered design, wearable technologies, social and affective computing, augmented, virtual and mixed reality simulation, human rehabilitation, and biomechanics represent the core of the book. Emerging technology applications in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically grounded, but also professionally oriented snapshot of the current state of the field. The book gathers contributions presented at the 5th International Conference on Human Interaction and Emerging Technologies (IHIET 2021, August 27–29, 2021) and the 6th International Conference on Human Interaction and Emerging Technologies: Future Systems (IHIET-FS 2021, October 28–30, 2021), held virtually from France. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design, systems engineering, and management of the next-generation technology and service systems.

*Conifers* Mar 04 2020 Conifers include a wide range of species that are spread all over the world. These species have wide diversity, variable stand structures ranging from monospecific monocohort to multispecific multicohort, and produce an assortment of products and services, the most frequent of which is timber. This book is a collection of contributions, both reviews and research studies, from different fields and perspectives on the management, regeneration, growth, diversity, and production of conifer stands. The book also addresses the effect of wildfires on conifer ecosystems and respiratory allergies to conifers.

*Interpretation of Micromorphological Features of Soils and Regoliths* Mar 16 2021 Interpretation of Micromorphological Features of Soils and Regoliths, Second Edition, provides researchers and students with a tool for interpreting features observed in soil thin sections and through submicroscopic studies. After an introduction and general overview, micromorphological aspects of regoliths (e.g., saprolites, transported materials) are highlighted, followed by a systematic and coherent discussion of the micromorphological expression of various pedogenic processes. The book is written by an international team of experts in the field, using a uniform set of

concepts and terminology, making it a valuable interdisciplinary reference work. The following topics are treated: freeze-thaw features, redoximorphic features, calcareous and gypsiferous formations, textural features, spodic and oxic horizons, volcanic materials, organic matter, surface horizons, laterites, surface crusts, salt minerals, biogenic and pedogenic siliceous materials, other authigenic silicates, phosphates, sulphidic and sulphuric materials, and features related to faunal activity. The last chapters address anthropogenic features, archaeological materials and palaeosoils. Updates the first exhaustive publication on interpretation of micromorphological features, with some new chapters and with a larger number of additional references Covers related topics, making micromorphology more attractive and accessible for geomorphologists, archaeologists and quaternary geologists Includes thematic treatment of a range of soil micromorphology fields and broadens its applications Features input from a multi-disciplinary team, ensuring thorough coverage of topics related to soil science, archaeology and geomorphology

**Innovative Product Design and Intelligent Manufacturing Systems** Oct 23 2021 This book gathers selected research articles from the International Conference on Innovative Product Design and Intelligent Manufacturing System (ICIPDIMS 2019), held at the National Institute of Technology, Rourkela, India. The book discusses latest methods and advanced tools from different areas of design and manufacturing technology. The main topics covered include design methodologies, industry 4.0, smart manufacturing, and advances in robotics among others. The contents of this book are useful for academics as well as professionals working in industrial design, mechatronics, robotics, and automation.

**From my own to the unknown and back to my own** Apr 28 2022 In this book the reader is presented with a journey or a process of moving towards positive intercultural awareness. The hope is that this positive awareness can result in a different understanding of other cultures that can lead to tolerance between cultural groups and a celebration of the value of diversity that will transform intercultural relationships. The title of this book From my own to the unknown and back to my own places the emphasis on the practical journey towards intercultural relationships. The thinking behind this has deeply to do with the transformation of ourselves that takes place in the journey with the unknown, which then in turn has a transformative impact on ourselves.

**Postharvest Extension and Capacity Building for the Developing World** Feb 01 2020 It is estimated that around 1.3 billion tons per year of food produced for human consumption, which is about one-third of all food produced, is either lost or wasted globally. Reduction of the postharvest losses is being considered as one of the sustainable ways to ensure world food security. Postharvest Extension and Capacity Building for the Developing World provides information on postharvest extension/outreach programs, capacity building, and practical methodologies for postharvest extension professionals and food science teachers, food processing trainers, and outreach specialists who work in the field. The book provides information on training of postharvest trainers, food loss assessment methods, capacity building in universities and agro-industry, distance education methods, models for cost effective postharvest/food processing extension work, success stories, and lessons learned from past projects and programs. The book is divided into four sections. Section I explains postharvest loss assessments methods, Section II is on capacity building, and Sections III and IV focus on training and postharvest extension models. Food loss assessment methodologies are highlighted from several high-profile institutions and it is envisioned that researchers and postharvest extension personnel will benefit from the development and field testing of a hybrid methodology, incorporating the strengths and utilizing the best practices from each of the methodologies in current use. Chapters cover postharvest extension work and capacity building in a wide range of regions.

**The Japanese Economy** Aug 01 2022 Japan has many unique strengths, but it also faces numerous challenges, many of which are related to population ageing. Rapid demographic change is projected to reduce Japan's population by one-quarter by 2060 while increasing the share of elderly people from 29% of the total population to 38%, which would be the highest share among advanced countries. This book analyses the Japanese economy and the challenges it faces, and suggests policies to promote wellbeing, high living standards, fiscal sustainability, social inclusion and environmental sustainability. The book's 24 chapters focus on key aspects of Japan's economy, including the labour market, innovation, education, women in the workforce, corporate governance, small and medium-sized enterprises, the service sector, agriculture, fiscal and monetary policy, income distribution and policies to address climate change. The volume aims to increase understanding of Japan, the world's third-largest economy and a key player in the global economy. It will assist policymakers and serve as a resource for academics

and students of economics and public policy. As Japan is a front-runner in population ageing, the book's analysis and policy recommendations are highly relevant to other countries that are, or soon will be, facing similar challenges.
