Children's Literature: A Very Short Introduction Mar 29 2022 Children's literature takes many forms - works adapted for children in antiquity, picture books and pop-ups - and now includes the latest online games and eBooks. This vast and amorphous subject is both intimately related to other areas of literary and cultural investigation but also has its own set of concerns, issues and challenges. From familiar authors including Beatrix Potter and Roald Dahl, classic books such as *Pooh*, *Alice in Wonderland*, and *The Secret Garden*, to modern works including *Harry Potter* and the *Twilight* series, this *Very Short Introduction* provides an overview of the history of children's literature as it has developed in English, whilst at the same time introducing key debates, developments, and figures in the field. Raising questions about what shape the future of literature for children should take, and exploring the crossover with adult fiction, Reynolds shows that writing for children - whether on page or screen - has participated in shaping and directing ideas about culture, society and childhood. **ABOUT THE SERIES:** The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Changing World of Caste and Hierarchy in Bengal Jul 01 2022 This book challenges the prevalent assumptions of caste, hierarchy and social mobility in pre-colonial and colonial Bengal. It studies the writings of colonial ethnographers, Orientalist scholars, Christian missionaries and pre-colonial literary texts like the *Mangalkavyas* to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure, but one which had room for spatial and social mobility. The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized. It delineates the linkages between sedimented peasant culture and the emergence of new agricultural castes in colonial Bengal. Moreover, the author discusses a wide spectrum of issues like marginality and hierarchy, the spread of Brahmanical hegemony, the creation of deities and the process of Sanskritization, popular Saivism, the cult of Manasa in Bengal and the revolt of 1857 and the caste question. Rich in archival sources, this book will be an essential read for scholars and researchers of colonial history, Indian history, political sociology, caste studies, exclusion studies, cultural studies, social history, cultural history and South Asian studies, especially those interested in undivided Bengal.

The Journey of a Bengali Woman to Japan Sep 03 2022 Four years before Rabindranath Tagore went to Japan, a young woman sailed from Bengal over the feared kalapani seas to meet her Japanese husband's family. Hariprabha Mallick had married Oemon Takeda in the liberal milieu of the Brahmo Samaj in the early 1900s. Her sojourn among her Japanese in-laws gave her another family in a different language, one who could communicate with her only in the language of the heart. She wrote about her experience of this interpersonal and cultural encounter, and travelled to Japan at least two more times. During the Second World War, she served as the Bengali voice of Radio Tokyo at the request of Rashbehari Bose. Translated in this volume from the original Bengali, Hariprabha Takeda's writing provides an account of Japan a century ago, seen through the eyes of a naive, yet perceptive and altogether extraordinary young woman. Three essays by Hariprabha Takeda have been translated for this volume, along with a wealth of other archival material about her life and times.

Critical Discourse in Bangla Jul 09 2020 This volume forms a part of the Critical Discourses in South Asia series which deals with schools, movements, and discursive practices in major South Asian languages. It offers crucial insights into the making of Bengali or Bangla literature and its critical tradition across a century. The book brings together English translation of major writings of influential figures dealing with literary criticism and theory, aesthetic and performative traditions, and reinterpretations of primary concepts and categories in Bangla. It presents 32 key texts in literary and cultural studies from Bengal from the middle of the 19th to that of the 20th century, with most of them translated for the first time into English. These seminal essays are linked with socio-historical events and phenomena in the colonial and post-independence period in Bengal, including the background to the Language Movement in Bangladesh. They discuss themes such as integrative aesthetic visions, poetic and literary forms, modernism, imagination, power structures and social struggles, ideological values, cultural renovations, and humanism. Comprehensive and authoritative, this volume offers an overview of the history of critical thought in Bangla literature in South Asia. It will be essential for scholars and researchers of Bengali/Bangla language and literature, literary criticism, literary theory, comparative literature, Indian literature, cultural studies, art and aesthetics, performance studies, history, sociology, regional studies, and South Asian studies. It will also interest the Bengali-speaking diaspora and those working on the intellectual history of Bengal and conservation of languages and culture

Public Women in British India Aug 02 2022 This book foregrounds the subjectivity of 'acting women' amidst violent debates on femininity and education, livelihood and labour, sexuality and marriage. It looks at the emergence of the stage actress as an artist and an ideological construct at critical phases of performance practice in British India. The focus here is on Calcutta, considered the 'second city of the Empire' and a nodal point in global trade circuits. Each chapter offers new ways of conceptualising the actress as a professional, a colonial subject, simultaneously the other and the model of the 'new woman'. An underlying motif is the playing out of the idea of spiritual salvation, redemption and modernity. Analysing the dynamics behind stagecraft and spectacle, the study highlights the politics of demarcation and exclusion of social roles. It presents rich archival work from diverse sources, many translated for the first time.

This book makes a distinctive contribution in intertwining performance studies with literary history and art practices within a cross-cultural framework. Interdisciplinary and innovative, it will appeal to scholars and researchers in South Asian theatre and performance studies, history and gender studies.

Routledge Handbook of Indian Cinemas Sep 10 2020 India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

The Shakespearean International Yearbook Oct 24 2021 This eighth volume of The Shakespearean International Yearbook presents a special section on 'European Shakespeares', proceeding from the claim that Shakespeare's literary craft was not just native English or British, but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European, and that has had effects and afterlives across the Continent. Guest editors Ton Hoenselaers and Clara Calvo have constructed this section to highlight both how the spread of 'Shakespeare' throughout Europe has brought together the energies of a wide variety of European cultures across several centuries, and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair. The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies. Contributors to this issue come from the US and the UK, Spain, Switzerland and South Africa, Canada, The Netherlands, India, Portugal, Greece, France, and Hungary. In addition to the section on European Shakespeares, this volume includes essays on the genre of romance, issues of character, and other topics.

Disciplined Subjects Apr 05 2020 This book examines interactions between Britain and India through the analytical framework of the production and circulation of knowledge throughout the long eighteenth century. Disciplined Subjects is one of the first works to analyse the imperial school curriculum, and the ways in which it shaped and influenced Indian subjectivity. The author focuses on the endeavours of the colonial government, missionaries and native stakeholders in determining the physical, material and intellectual content of institutional learning in India. Further, the volume compares the changes in pedagogical practices, and textbooks in schools in Britain and colonial Bengal, and its subsequent repercussions on the psyche and identity of the learners. Drawing on a host of primary sources in the UK and India, this volume will be of great interest to scholars and researchers of modern history, education, sociology and South Asian studies.

Reorienting Orientalism Oct 04 2022 This collection of eleven essays re-evaluates Edward Said's definition of 'orientalism' widely misconstrued as being merely postcolonial and contestable. The volume emphasizes the need to move beyond the prejudice and stereotyping tied to the context of colonial exploitation. It challenges the assumption that oriental studies only served to segregate cultures and undermine the oriental peoples' capacity for self-formation. This book shows how cultures can generate studies of themselves on their own and that the impetus for such work was clearly noticeable at least in Indian cultural scholarship during the colonial period. The contributors bring to light the orientals' ordering of themselves and expose the fallacy that western imperialist discourse defined and described us. In the process, they draw upon Said's distinction between 'oriental studies' and 'orientalism'.
