Kadambari Mar 10 2021 Bana is among the three most important prose writers in classical Sanskrit, all of whom lived in the late sixth and early seventh centuries AD. It is clear, from his writings, that his mind was amazingly modern, humane and sensitive, especially for the seventh-century India in which he lived. Bana had a healthy irreverence

towards many of the established orthodoxies of his time and his strength lies in his skill as a storyteller and as a creator of characters vibrant with life and individuality. Kadambari is a lyrical prose romance that narrates the love story of Kadambari, a Gandharva princess, and Chandrapida, a prince who is eventually revealed to be the moon god. Acclaimed as a great literary work, it is replete with eloquent descriptions of palaces, forests, mountains, gardens, sunrises and sunsets and love in separation and fulfillment. Featuring an intriguing parrot-narrator, the story progresses as a delightful romantic thriller played out in the magical realms between this world and the other, in which the earthly and the divine blend in idyllic splendour.

The Tale of Genji Jan 20 2022

In the eleventh century Murasaki Shikibu, a lady in the Heian court of Japan, wrote the world's first novel. But The Tale of Genji is no mere artifact. It is, rather, a lively and astonishingly nuanced portrait of a refined society where every dalliance is an act of political consequence, a play of characters whose inner lives are as rich and changeable as those imagined by Proust. Chief of these is "the shining Genji," the son of the emperor and a man whose passionate impulses create great turmoil in his world and very nearly destroy him. Laws of UX Dec 07 2020 An understanding of psychology—specifically the psychology behind how users

behave and interact with digital interfaces—is perhaps the single most valuable nondesign skill a designer can have. The most elegant design can fail if it forces users to conform to the design rather than working within the "blueprint" of how humans perceive and process the world around them. This practical guide explains how you can apply key principles in psychology to build products and experiences that are more intuitive and human-centered. Author Jon Yablonski deconstructs familiar apps and experiences to provide clear examples of how UX designers can build experiences that adapt to how users perceive and process digital interfaces. You'll learn: How aesthetically pleasing design creates positive responses The principles from psychology most useful for designers How these psychology principles relate to UX heuristics Predictive models including Fitts's law, Jakob's law, and Hick's law Ethical implications of using psychology in design

• From the winner of the Nobel Prize in Literature, here is “an intricate and dazzling novel” (The New York Times) about the perfect butler and his fading, insular world in post-World War II England. This is Kazuo Ishiguro's profoundly compelling portrait of a butler named Stevens. Stevens, at the end of three decades of service at Darlington Hall, spending a day on a country drive, embarks as well on a journey through the past in an effort to reassure himself that he has served humanity by serving the “great gentleman,” Lord Darlington. But lurking in his memory are doubts about the true nature of Lord Darlington's “greatness,” and much graver doubts about the nature of his own life.

Marathi Apr 30 2020 Marathi, an Indo-Aryan language, is the official language of Maharashtra, including Mumbai. Father Thomas Stephens, the first English traveler to Goa, a pioneer linguist, wrote *Christa Puran in Marathi* (1616) and *Arte da Lingoa Canarim in Portuguese*, printed in (1640). The latter is a grammar of Konkani, a language closely related to Marathi. It is the first grammar of its kind marking a new grammatical tradition for modern Indo-Aryan languages. The present volume contains an extensive account of Marathi phonology, morphology, word formation and syntax. It succinctly describes the accentual system, special compound verb forms, unique pronominal anaphors, complex agreement due to split ergative system, and special pronominal marking. Imagine a killer with the infectiousness of the common cold and power of the Black Death. Imagine something so deadly that it wipes out 90% of those it touches. Imagine an organism against which there is no defence. But you don't need to imagine. Such a killer exists: it is a virus and its name is Ebola. The Hot Zone tells what happens when the unthinkable becomes reality: when a deadly virus, from the rain forests of Africa, crosses continents and infects a monkey house ten miles from the White House. Ebola is that reality. It has the power to decimate the world's population. Try not to panic. It will be back. There is nothing you can do...

The rise to stardom and tragic fall of one of the heroines of Indian film. Hansa Wadkar

(born Ratan Bhalchandra) was one of Maharashtra's best known stage and screen personalities. By the time she was married — to a much older family friend and impresario when she was just 15 — she had already starred in nine or ten movies and was becoming a name in the film world.

Supporting her family on her earnings, her brother sick with malaria, and both parents having taken to drink, life was not easy for the young woman. But Hansa was not only beautiful and immensely talented, she was tough, wilful, capricious and headstrong. Her autobiography, Sangtye Aika published in 1970 and translated into English here for the first time, created a sensation for its frankness and boldness. It was later made into a film, Bhumika, by the legendary director Shyam Benegal and starred Smita Patil in the title role. Published by Zubaan.

made from bamboo. I find that her act of weaving and my act of writing are organically linked. The weave is similar. It is the weave of pain, suffering, and agony that links us." Activist and award-winning writer Urmila Pawar recounts three generations of Dalit women who struggled to overcome the burden of their caste. Dalits, or untouchables, make up India's poorest class. Forbidden from performing anything but the most undesirable and unsanitary duties, for years Dalits were believed to be racially inferior and polluted by nature and were therefore forced to live in isolated communities. Pawar grew up on the rugged Konkan coast, near Mumbai, where the Mahar Dalits were housed in the center of the village so the upper castes could summon them at any time. As Pawar writes, "the community grew up with a sense of perpetual insecurity, fearing that they could be attacked from all four sides in times of conflict. That is why there has always been a tendency in our people to

shrink within ourselves like a tortoise and proceed at a snail's pace." Pawar eventually left Konkan for Mumbai, where she fought for Dalit rights and became a major figure in the Dalit literary movement. Though she writes in Marathi, she has found fame in all of India. In this frank and intimate memoir, Pawar not only shares her tireless effort to surmount hideous personal tragedy but also conveys the excitement of an awakening consciousness during a time of profound political and social change.

Swaraj Aug 27 2022 The last one-and-a-half years in India have been defined by the anti-graft agitation led by Anna Hazare. His key lieutenant, Arvind Kejriwal, has played a central role in the movement. In 2012, as it became clear that the political establishment was not going to accede to the main demand of the movement - to pass the Lokpal Bill. Team Anna demanded the setting up of a Special Investigative Team to probe corrupt politicians. On 25 July 2012, Kejriwal along

with two of his colleagues and Anna Hazare, sat on a fast to press this demand. This book, which serves as a manifesto for the movement going forward, gives practical suggestions as to what the ordinary citizen, the opinion makers and the political establishment in India can do to provide a political alternative, or to achieve true swaraj (self-rule). The author's central point is that power must shift from New Delhi and the state capitals to the village councils and the town communities, so that people can be directly empowered to take decisions about their own lives. A must-read for anyone with a dream to leave behind a better India for the next generation.

Cobalt Blue Oct 29 2022 Cobalt Blue is a tale of rapturous love and fierce heartbreak told with tenderness and unsparing clarity. Brother and sister Tanay and Anuja both fall in love with the same man, an artist lodging in their family home in Pune, in western India. He seems like the perfect tenant, ready with the rent and

happy to listen to their mother's musings on the imminent collapse of Indian culture. But he's also a man of mystery. He has no last name. He has no family, no friends, no history, and no plans for the future. When he runs away with Anuja, he overturns the family's lives. Translated from Marathi by acclaimed novelist and critic Jerry Pinto, Sachin Kundalkar's elegantly wrought and exquisitely spare novel explores the disruption of a traditional family by a free-spirited stranger to examine a generation in transition. Intimate, moving, sensual, and wry in its portrait of young love, Cobalt Blue is a frank and lyrical exploration of gay life in India that recalls the work of Edmund White and Alan Hollinghurst—of people living in emotional isolation, attempting to find long-term intimacy in relationships that until recently were barely conceivable to them.
