Guide to U.S. Government Publications Jul 09 2020 This comprehensive yet concise annual annotated reference source catalogs the important series, periodicals and reference tools published by U.S. government agencies. Over the years, the index section of the Guide to U.S. Government Publications has expanded to more than 40,000 entries. Agencies and titles are indexed, followed by a keyword title index for quick and easy referencing. No other single resource provides historical and current information on U.S. government publications in one place.
Management Considerations for Cultural Resources in Virginia Department of Transportation Rights of Way Sep 30 2019 At present, there are no clear guidelines for identifying and managing the wide variety of cultural resources within the Virginia Department of Transportation (VDOT) highway rights of way. These resources include such elements as archaeological sites; military earthworks; early road beds; buildings; structures; and objects as diverse as 19th century turnpike milestones, Civil War monuments, stone boundary markers, and early waysides. This project identified the types of cultural resources that can be encountered in the VDOT rights of way, identified pertinent governing legislation and management issues, and developed written guidelines for managing these resources. Brief case studies are included of examples of issues involving cultural resources and examples of resolutions of these issues. The guidelines and case studies can be used by cultural resource personnel; administrators; environmental specialists; inspectors; contractors; and crew members associated with local headquarters, residencies, and district and central offices alike. They are applicable not only to historic (i.e., eligible for the National Register of Historic Places) sites and structures but also to items of local importance and interest. It is envisioned that the guidelines, while having obvious statewide application, could have national application. The

benefits of this project are the identification and description of the types of cultural resources that can be encountered in VDOT rights of way, their governing legislation, and written guidelines for managing these resources. This descriptive information and guidelines streamline the environmental and cultural planning and management processes while facilitating VDOT personnel and contractors to act as responsible stewards of these cultural resources and to adhere to the legislative and regulatory requirements governing their treatment. Use of the descriptions and guidelines will also help VDOT personnel and contractors to avoid violating state and national statutes and misidentification or unnecessary damage to cultural resources. Avoiding such violations, misidentification, and/or damage will result in minimizing personnel time and costs and avoiding project delays.

Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 3 Aug 02 2022 Redefining Diversity and Dynamics of Natural Resources Management in Southeast Asia, Volumes 1-4 brings together scientific research and policy issues across various topographical areas in Asia to provide a comprehensive overview of the issues facing this region. Natural Resource Dynamics and Social Ecological Systems in Central Vietnam: Development, Resource Changes and Conservation Issues, Volume 3, focuses on the issues specific to Central Vietnam that are also found globally. War had significantly impacted both land and water resources, from which it had to recover environmentally. Additionally, this is an area with growing urbanization pressures and industrial development, both of which are known for stretching resources beyond their limits. The introduction of several hydro-electric power projects have even further eroded the local agricultural and forest ecosystems. This volume looks at Central Vietnam holistically, from management and use to policy and data-driven solutions. Provides land management practitioners and policy makers with the tools to deal with natural resource issues in a developing nation Reviews the impacts of the first PES, Payment for Ecosystem Services, policies upon which were based similar programs in Latin America

Reviews the current and potential future land management of Central Vietnam, giving an eye to solutions for any nation impacted by war, trying to balance development with conservation efforts and provide their populations with sustainable economic futures Examines Central Vietnam holistically, from management and use to policy and data-driven solutions

Global Forest Resources Assessment 2000
Jan 15 2021 This report provides a comprehensive and up-to-date view of the world's forest resources at the end of the second millennium. It is the result of the collective efforts of the countries of the world. This major undertaking was based primarily on information provided by the countries, supplemented by state-of-the-art technology to verify and analyse the information. The following parameters were included in the assessment: forest area and change in forest area; wood volume and above-ground woody biomass; forest plantations;

Access to Online Resources Nov 05 2022 This book is published open access under a CC BY 4.0 licence. The book offers a concise guide for librarians, helping them understand the challenges, processes and technologies involved in managing access to online resources. After an introduction the book presents cases of general authentication and authorisation. It helps readers understand web based authentication and provides the fundamentals of IP address recognition in an easy to understand manner. A special chapter is dedicated to Security Assertion Markup Language (SAML), followed by an overview of the key concepts of OpenID Connect. The book concludes with basic troubleshooting guidelines and recommendations for further assistance. Librarians will benefit from this quick and easy read, which demystifies the technologies used, features real-life scenarios, and explains how to competently employ authentication and access management.

Human Resources Management Success: The Ulrich Collection (3 Books) Oct 04 2022

This digital collection, curated by Harvard Business Review, includes three important books

by experts in the human resources field—The HR Scorecard, The HR Value Proposition, and Human Resource Champions. Learn how individuals in human resources can partner with line managers to make organizations more

competitive, how HR impacts business performance, and how HR leaders can bring substantial value to internal and external stakeholders.
