**Scientific and Technical Aerospace Reports Nov 25 2022** Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.

**Users Guide to Ecohydraulic Modelling and Experimentation Jun 20 2022** Users Guide to Ecohydraulic Modelling and Experimentation has been compiled by the interdisciplinary team of expert ecologists, geomorphologists, sedimentologists, hydraulicists and engineers involved in HYDRALAB IV, the European Integrated Infrastructure Initiative on hydraulic experimentation which forms part of the European Community's Seventh Framework Programme. It is designed to give an overview of our current knowledge of organism-environment interactions in marine and freshwater aquatic systems and to provide guidance to those wishing to use hydraulic experimental facilities to explore ecohydraulic processes. By highlighting the current state of our knowledge, this design manual will act as a guide to the use of living organisms in physical models and experiments and help scientists and engineers understand limitations on the use of surrogates. It incorporates chapters on the general decisions that need to be taken when designing an ecohydraulic experiment as well as specific chapters on the main aquatic and marine organisms likely to be of interest. Each of the chapters reviews current knowledge in a defined area of ecohydraulic experimental research. It excludes consideration of fish and mammals and does not deal with plankton, as it focuses on the sediment-water interface and the influences of biota in this complex area. Its primary purpose is to disseminate the extensive knowledge and experience of the team of ecohydraulic experimentalists involved in HYDRALAB IV as part of the PISCES research project as well as some of the important advances being made in this fast developing field of research.

**Handbook of Research on Novel Soft Computing Intelligent Algorithms Apr 06 2021** "This book explores emerging technologies and best practices designed to effectively address concerns inherent in properly optimizing advanced systems, demonstrating applications in areas such as bio-engineering, space exploration, industrial informatics, information security, and nuclear and renewable energies"--Provided by publisher.

**Mothers, Military and Society Mar 17 2022** "Motherhood" and "military" are often viewed as dichotomous concepts, with the former symbolizing feminine ideals and expectations, and the latter suggesting masculine ideals and norms. Mothers, Military, and Society contributes to a growing body of research that disrupts this false dichotomy. This interdisciplinary and international volume explores the many ways in which mothers and the military converse, align, contest, and intersect in society. Through various chapters that include in-depth case studies, theoretical perspectives and personal

narratives, this book offers insights into the complex relationship between motherhood and the military in ways that will engage both academic and non-academic readers alike.

**Sugar: User's Guide To Sucrose** Jul 21 2022 Covers sugar manufacturing from both beet and cane plants and sugar utilization in dairy products, breakfast cereals, beverages, preserves and jellies, confectionery, processed foods, and microwave oven products. Also discusses non-food applications of sugar, its general properties, and the impact of sugar on human health. Includes a listing of the industry's American and Canadian companies and important associations world-wide. Annotation copyrighted by Book News, Inc., Portland, OR

**Energy Research Abstracts** Sep 11 2021 Semiannual, with semiannual and annual indexes. References to all scientific and technical literature coming from DOE, its laboratories, energy centers, and contractors. Includes all works deriving from DOE, other related government-sponsored information, and foreign nonnuclear information. Arranged under 39 categories, e.g., Biomedical sciences, basic studies; Biomedical sciences, applied studies; Health and safety; and Fusion energy. Entry gives bibliographical information and abstract. Corporate, author, subject, report number indexes.

**Handbook of Microsimulation Modelling** Aug 18 2019 Microsimulation Modelling involves the application of simulation methods to micro data for the purposes of evaluating the effectiveness and improving the design of public policy. The field has been applied to many different policies within both government and academia. This handbook describes and discusses the main issues within the field.

**The Essential PROC SQL Handbook for SAS Users** May 19 2022 Navigate the world of the powerful SQL procedure with Katherine Prairie's Essential PROC SQL Handbook for SAS Users. Written in an easy-to-use, logical format, this comprehensive reference focuses on the functionality of the procedure, as well as the accomplishment of common tasks using PROC SQL, enabling readers to quickly develop and enhance their SQL skills. Features include more than 300 examples of PROC SQL code, plus queries and diagrams showing how the statements are processed, tips and techniques highlighting "need-to-know" concepts, and an appendix designed specifically for SQL Pass-Through Facility and SAS/ACCESS users. This practical guide is written for SAS users of all levels who want to learn how to integrate the SQL procedure into their Base SAS and/or SAS/ACCESS programs as well as SQL programmers who want to adapt their current skills to SAS. This book is part of the SAS Press program.
