Women's Health Sep 02 2020 This is a highly practical symptom-based manual of common women's conditions. The patient-centred approach provides invaluable guidance on diagnosis, treatment and further investigation. Conditions are grouped as menstrual, hormonal, sexual, breast, urinary, pregnancy, or weight related, and within these areas each symptom is listed alphabetically for ease of reference. A helpful summary of each condition is included where possible to provide an overview, in non-technical language, for the patient. Concise and easy-to read, it is the ideal ready reference for any busy healthcare professional, especially doctors and nurses in primary care hospital emergency departments. 'Despite brilliant advances in science, women's health needs are still mainly focused around their unique reproductive role: contraception, unplanned pregnancy, pregnancy, infertility, the loss of fertility, body image and self esteem. I wanted to bring together information that could be used across these and other areas where women seek health advice: general practice, accident and emergency, etc. in a simple quick reference format.' - Sarah Bekaert, in the Introduction.

Tell Me the Truth, Doctor Feb 07 2021 "Hey, Doc--Got a Minute?" No matter where Dr. Richard Besser goes, a day doesn't go by without someone stopping him to ask that question. Often, that person is one of the millions who have come to rely on the vital information he shares on Good Morning America, World News with Diane Sawyer, and Nightline. Now, in response to thousands of inquiries from viewers, Dr. Besser has written his first book -- a comprehensive health guide that will both inform and surprise as he deciphers fact from fiction for nearly seventy confusing medical questions, including: "Should I take a daily aspirin to prevent a heart attack, stroke, or cancer?" "If my doctors order a lot of tests, does that mean they're more thorough?" "Do I need thirty minutes of exercise a day to stay healthy?" Recognizing the astonishing amount of misinformation that many important health decisions are based upon, Dr. Besser's commitment to delivering the truth is critical. He isn't afraid to challenge the status quo -- or the interests within the health care industry -- to provide the knowledge you need to take control of your health. Eager to help you make the choices that are right for YOU, he organizes his easy-to-understand answers into six lifestyle categories, including diet and nutrition; exercise and fitness; vitamins, supplements, and medicines; beating illness and injury; and navigating the perplexing world of health care, as well as a chapter dedicated to the questions you wished you asked before your doctor walks out the door. Throughout the book, Dr. Besser smashes myths while translating invaluable information into problem-solving advice you can use, including a "Dr. B's Bottom Line" at the end of each topic. As accessible as it is empowering, Dr. Besser's *Tell Me the Truth, Doctor* is a necessary addition to every home, office, and dorm room. "Besser . . . ably analyzes popular myths (the "Freshman Fifteen"), considers pros and cons (HRT and statins), and mostly takes unequivocal stands on the issues. . . . Quite often, his comments and suggestions surprise . . . Particularly helpful are his guidelines for avoiding the harmful effects of health care and hospitalization." -- Publishers Weekly Richard Besser, MD, ABC News' Chief Health and Medical Editor, provides medical analysis and commentary for all ABC News broadcasts and platforms,

including World News with Diane Sawyer, Good Morning America, and Nightline, as well as many other news/entertainment programs. Since joining ABC News in 2009, Dr. Besser has been at the forefront of news coverage for every major medical story, including the earthquake in Haiti and the Japanese radiation release. He was the leading correspondent on ABC's global health series, Be the Change, Save a Life, and received a 2011 Emmy nomination for Outstanding Investigative Journalism for his World News story on cord blood banking. Besser came to ABC News from the Centers for Disease Control and Prevention (CDC), where he worked for thirteen years, including as acting director from January to June 2009, during which time he led the CDC's response to the H1N1 influenza outbreak. He has taught and trained doctors at the University of California, San Diego and is a visiting fellow at the Harvard School of Public Health. Most important, for more than twenty-five years he has practiced medicine, giving his patients and their families straightforward, commonsense advice.
