German Inheritance and Gift Tax Reform 2009 Sep 25 2021
Inhaltsangabe: Introduction: Background and Subject of this Thesis: After long negotiations within the Grand Coalition (Große Koalition) and despite jurisdictional criticisms of numerous points, on 31st December 2008 the new inheritance and gift tax law (Erbchaftsteuerreformgesetz - ErbStRG) was

published in the Federal Law Gazette (Bundesgesetzblatt), to become effective on 1st January 2009 just in time to avoid the need for retroactive regulations and the related discussions. This marks the end of the discussion about the future of the inheritance tax that has been started by the decision of the Federal Constitutional Court (Bundesverfassungsgericht - BVerfG) from 7th November 2006. The related uncertainty came to an end, at least for now. In its decision the Federal Constitutional Court states, that the discrepancy between fair market value and valuation value for significant groups of assets (business assets, portions of corporations, real estate property and agriculture and forestry (AF) businesses) are violating the principle of equality of § 3 sec. 1 of the German Basic Law (Grundgesetz - GG). The legislative was obliged to define a new legislation in line with the constitution until 31 December 2008, latest. On 11 December 2007, the German Federal Government (Bundesregierung) finally agreed on a draft revision of the inheritance and gift tax law and the valuation law. The German Federal Parliament (Bundestag) passed the inheritance tax reform on 27 November 2008 in the 2nd and 3rd reading, during which the finance committee of the German Parliament (Finanzausschuss des Bundestages) made considerable changes to the original draft. The approval in the German Federal Council (Bundesrat) was obtained in the special session of the council on 5.12.2008, the approval of the Federal President (Bundespräsident) on 24.12.2008. Current Situation: In addition to the changes necessary for constitutional reasons, the central concern of the reform is to simplify business takeover by the successors. However, the legislator neither has had the courage to - as hoped by many - completely abolish inheritance taxation, nor did he take the opportunity to perform a complete change of the inheritance taxation system which might become mandatory for constitutional reasons. The result is a compromise between of the various government parties: a law that amends the existing inheritance tax law on which it is based in a limited number of points. The new [...]

Department of Homeland Security Appropriations for 2009, Part 5, February 26, 2008, 110-2 Hearings, * Sep 06 2022

Pacific Symposium on Biocomputing 2009, Kohala Coast, Hawaii, USA, 5-9 January 2009 Jul 04 2022 The Pacific Symposium on Biocomputing (PSB) 2009 is an international, multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2009 will be held on January 50Co9, 2009 in Kamuela, Hawaii. Tutorials will be offered prior to the start of the conference. PSB 2009 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods, as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's OC hot topics.OCO In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field."
