The Future of Registered Partnerships Nov 06 2022 A book series dedicated to the harmonisation and unification of family and succession law in Europe. The series includes comparative legal studies and materials as well as studies on the effects of international and European law making within the national legal systems in Europe. The books are published in English, French or German under the auspices of the Organising Committee of the Commission on European Family Law (CEFL). In many jurisdictions registered partnerships were introduced either as a functional equivalent to marriage for same-sex couples or as an alternative to marriage open to all couples. But now that marriage is opened up to same-sex couples in an increasing number of jurisdictions, is there a role and a need for another form of formalised adult relationship besides marriage? In this book, leading family law experts from 15 European and non-European countries explore the history and function of registered partnership in their own jurisdictions. Further chapters look at the impact of the European Convention on Human Rights and European Union Law on the regulation of registered partnerships. In the concluding chapters the different approaches are analysed and compared. This book provides the foundation for an informed discussion not only on changes to the implementation of registered partnership schemes, but also more generally for reviewing the law concerning the recognition of adult relationships. About the editors: Dr Dr Jens M. Scherpe is a Reader at the University of Cambridge and Cheng Yu Tung Visiting Professor at the University of Hong Kong Dr Andy Hayward is a Lecturer in Family Law at Durham Law School, Durham University (Series: European Family Law, Vol. 44) [Subject: Family Law, European Law] **When Gay People Get Married** Jul 02 2022 In this book the author offers a look at how gay marriage is actually working, by taking readers to a land where it has been legal for same-sex couples to marry since 2001: the Netherlands. Through interviews with married gay couples we learn about the often surprising changes to their relationships, and the reactions of their families and work colleagues. Moreover, he shows how the institution itself has been altered, exploring how the concept of marriage itself has changed in the United States and the Netherlands. The evidence from around the world shows both that marriage changes gay people more than gay people change marriage and that it is the most liberal countries and states making the first moves to recognize gay couples. In the end, the author demonstrates that allowing gay couples to marry does not destroy the institution of marriage and that many gay couples do benefit, in expected as well as surprising ways, from the legal, social, and political rights that the institution offers. This book is a primer on the current state of the same-sex marriage debate, providing new insights into the political, social, and personal stakes involved.

From Civil Partnership to Same-Sex Marriage Sep 11 2020 The Civil Partnership Act 2004 and the Marriage (Same Sex Couples) Act 2013 are important legal, social and historical landmarks, rich in symbolic, material and cultural meanings. While fiercely opposed by many, within mainstream narratives they are often represented as a victory in a legal reform process that commenced with the decriminalisation of homosexuality. Yet, at the same time, for others they represent a problematic and ambivalent political engagement with the institution of marriage. Consequently, understood or labelled as ‘revolutionary’, ‘progressive’ and ‘conservative’, these legal reforms provide a space for thinking about issues that arguably affect everyone, regardless of sexual orientation or relationship status. This edited collection brings together scholars and commentators from a range of backgrounds, generations and disciplines to reflect on the first ten years of civil partnerships and the introduction of same-sex marriage. Rather than rehearsing the arguments ‘for’ and ‘against’ relationship recognition, the essays ask original questions, draw on a variety of methods and collectively provide a detailed and reflective ‘snap shot’ of a critical moment, a ‘history of the present’ as well as providing a foundation for innovative ways of thinking about and engaging with the possibilities and experiences arising from the new reality of relationship recognition for gays and lesbians.

Not The Marrying Kind Sep 23 2021 Not the Marrying Kind is a new and comprehensive exploration of the contemporary same-sex marriage debates in several jurisdictions including Australia, Canada, South Africa, the United Kingdom and the United States. It departs from much of the existing scholarship on same-sex marriage, which argues either for or against marriage for same-sex couples. Instead, this book begins from a critical analysis of the institution of marriage itself (as well as separate forms of relationship recognition, such as civil partnership, PaCS, domestic partnership) and asks whether and how feminist critiques of marriage might be applied specifically to same-sex marriage. In doing this, the author combines the theories of second wave feminism with insights from contemporary queer theory.

Poems and Readings for Weddings and Civil Partnerships Aug 23 2021 Choosing the right reading for a wedding ceremony can add a distinctive touch that will be remembered for a lifetime. Here are more than 150 evocative choices, ranging from Shakespeare's sonnets ('Shall I compare thee to a summer's day?') to a 13th-century Chinese poem by Kuan Tao-sheng ('You and I have so much love/That it burns like a fire/In which we bake a lump of clay'). Couples will also find guidance on acceptable and inappropriate readings in certain services and lists of today's most popular choices.

Marital Rights Dec 15 2020 This volume gathers influential and cutting-edge scholarship on the international and domestic rights attaching to married couples and other adult relationships. Addressing examples from the European Court of Human Rights, UK, USA, Canada, Australia and South Africa, it traces contentious debates about the content of marital rights and responsibilities and whether law should reach beyond marriage, and if so how. Twenty-four essays and a substantial introduction highlight the complexity and contradictions as marital law grapples with gender equality, the aftermath of recognizing gay and lesbian rights, abiding economic inequalities, and 'exotic' issues such as forced marriage and polygamy.

The Meaning of Matrimony Oct 25 2021 At the start of 2013 the Coalition Government presented to Parliament the Marriage (Same Sex Couples) Bill, which legislates to open up marriage to same-sex couples. In the words of Maria Miller, Secretary of State responsible for the Bill and author of the introduction, it has since progressed against a backdrop of 'strong feelings on all sides'.

Gay Marriage: for Better Or for Worse? Feb 26 2022 "Gay Marriage: For Better or for Worse? is the first book to present empirical evidence about the effects of same-sex marriage, based on almost two decades' worth of data and experience from the Nordic countries. Darren R. Spedale and William N. Eskridge, Jr. look at how same-sex marriage (in the form of registered partnerships) came to be in Scandinavia; who is getting married and why they are tying the knot; the Church's reception to same-sex unions; and how same-sex marriage has affected the couples, their families, their children, and their greater communities, both nationally and internationally."--BOOK JACKET.

Civil Partnership Act 2004 Aug 11 2020 The purpose of the Civil Partnership Act is to enable same-sex couples to obtain legal recognition of their relationship by forming a civil partnership. The Act also sets out the legal consequences of forming a civil partnership, including the rights and responsibilities of civil partners.

Same-Sex Relationships, Law and Social Change Sep 04 2022 This edited collection provides a forum for rigorous analysis of the necessity for both legal and social change with regard to regulation of same-sex relationships and rainbow families, the status of civil partnership as a concept and the lived reality of equality for LGBTQ+ persons. Twenty-eight jurisdictions worldwide have now legalised same-sex marriage and many others some level of civil partnership. In contrast other jurisdictions refuse to recognise or even criminalise same-sex relationships. At a Council of Europe level, there is no requirement for contracting states to legalise same-sex marriage. Whilst the Court of Justice of the European Union now requires contracting states to recognise same-sex marriages for the purpose of free movement and residency rights, unlike the US Supreme Court, it does not require EU Member States to legalise same-sex marriage. Law and Sociology scholars from five key jurisdictions (England and Wales, Italy, Australia, Canada, and the Republic of Ireland) examine the role of the Council of Europe, European Union and further international regimes. A balanced approach between the competing views of critically analytical rights based theorists and queer and feminist theorists interrogates the current international consensus in this fast moving area. The incrementalist theory whilst offering a methodology for future advances continues to be critiqued. All contributions from differing perspectives expose that even for those jurisdictions who have legalised same-sex marriage, still further and continuous work needs to be done. The book will be of interest to students and scholars in the field of human rights, family and marriage law and gender studies.

Same-Sex Marriage and the Constitution Mar 18 2021 The revised and expanded second edition of Same-Sex Marriage and the Constitution makes the case that the Constitution has long protected the right to marry, and that this protection includes the right to marry a person of the same gender. No other book makes this argument. This book addresses other issues, such as why same-sex marriage is completely different, both practically and constitutionally, from polygamy and incest, and it debunks the myth that pro-same-sex marriage decisions have created a backlash against either gays and lesbians or the Democratic Party.

License to Wed Jul 22 2021 A critical reader of the history of marriage understands that it is an institution that has always been in flux. It is also a decidedly complicated one, existing simultaneously in the realms of religion, law, and emotion. And yet recent years have seen dramatic and heavily waged battles over the proposition of including same sex couples in marriage. Just what is at stake in these battles? License to Wed examines the meanings of marriage for couples in the two first states to extend that right to same sex couples: California and Massachusetts. The two states provide a compelling contrast: while in California the rights that go with marriage—inheritation, custody, and so forth—were already granted to couples under the state's domestic partnership law, those in Massachusetts did not have this same set of rights. At the same time, Massachusetts has offered civil marriage consistently since 2004; Californians, on the other hand, have experienced a much more turbulent legal path. And yet, same-sex couples in both states seek to marry for a variety of interacting, overlapping, and evolving reasons that do not vary significantly by location. The evidence shows us that for many of these individuals, access to civil marriage in particular—not domestic partnership alone, no matter how broad—and not a commitment ceremony alone, no matter how emotional—is a home of such personal, civic, political, and instrumental resonance that it is ultimately difficult to disentangle the many meanings of marriage. This book attempts to do so, and in the process reveals just what is at stake for these couples, how access to a legal institution fundamentally alters their consciousness, and what the impact of legal inclusion is for those traditionally excluded.

Towards a Theology of Same-Sex Marriage Apr 30 2022 A transformative exploration of queer theology and the debate around same-sex marriage within the Church. Clare Herbert draws on her experience as a priest within the Church of England in a committed same-sex relationship and considers the questions that have shaped religious debate for many years. This book explores the concept of same-sex marriage in relation to the heteronormative definition of marriage, and its effect on past understandings of the sacrament. Interweaving stories from Christians struggling to reconcile their faith with their sexuality alongside wider queer theology and the theology of marriage, Herbert explores the unique understanding of God provided by the experience of committed same-sex love , and lays the groundwork for redefining the traditional definition of marriage.

A Long Petal of the Sea Jan 16 2021 The Sunday Times bestseller 'One of the strongest and most affecting works in Allende's long career' New York Times Book Review 'A defiantly warm and funny novel, by somebody who has earned the right to argue that love and optimism can survive whatever history might throw at us' Daily Telegraph September 3, 1939, the day of the Spanish exiles' splendid arrival in Chile, the Second World War broke out in Europe. Victor Dalmau is a young doctor when he is caught up in the Spanish Civil War, a tragedy that leaves his life – and the fate of his country – forever changed. Together with his sister-in-law, the pianist Roser, he is forced out of his beloved Barcelona and into exile. When opportunity to seek refuge arises, they board a ship chartered by the poet Pablo Neruda to Chile, the promised 'long petal of sea and wine and snow'. There, they find themselves enmeshed in a rich web of characters who come together in love and tragedy over the course of four generations, destined to witness the battle between freedom and repression as it plays out across the world. A masterful work of historical fiction that soars from the Spanish Civil War to the rise and fall of Pinochet, *A Long Petal of the Sea* is Isabel Allende at the height of her powers. Geography of Love May 08 2020 In 2011, there is no question that the most prominent gay rights issue in the United States is the right to marry. Yet accurate, objective information about same-sex marriage and relationship recognition in the United States is difficult to come by. In this new publication, Seattle-based authors Peter Nicolas & Mike Strong combine their respective training in law and cartography to depict the history and current state of marriage and relationship recognition rights for same-sex couples in the United States in words...and in maps.This publication begins with a detailed history of efforts to achieve marriage rights and other forms of relationship recognition (such as domestic partnerships and civil unions) for gay and lesbian Americans, from the first lawsuit filed in 1970 in Minnesota to the Illinois civil union law that goes into effect in June 2011—and just about everything (judicial and legislative) in between.Next, it provides detailed information on relationship recognition in the United States, including:• which states permit same-sex couples to marry or to enter into other types of legal unions; • the rules for entering into or terminating such relationships;• a comparison of the rights that each state provides to same-sex couples;• the extent to which same-sex relationships entered into in one state are recognized by other states; and• which cities and counties have domestic partnership registries and equal benefits ordinances.That is followed by a look at efforts to ban same-sex marriage at the ballot box, including:• selected vote details by state and county;• a closer look at where support for such efforts was weakest and strongest; and• a comparison of the processes for amending state constitutions across the United States.
