*God Without Measure: Working Papers in Christian Theology* May 23 2022 In this two volume collection of essays, which forms a companion to *The Domain of the Word*, John Webster brings together studies of a range of topics in dogmatic and moral theology. This first volume, *God and the Works of God*, treats the themes of God's inner being and God's outer acts. After an overall account of the relation between God in himself and the economy of God's external works, there are studies of the divine aseity and of the theology of the eternal Son. These are followed by a set of essays on creation out of nothing; the relation between God and God's creatures; the nature of providence; the relation of soteriology and the doctrine of God; and the place of teaching about justification in Christian theology. Each of the essays explores the relation of theology proper to economy, and together they pose an understanding of Christian doctrine in which all theological teaching flows from the doctrine of the immanent Trinity.
