Jesus in Galilee Dec 25 2021 What was Galilee actually like in the first century? Whether one was a peasant or a wealthy landowner, a member of the Herodian ruling class or Roman aristocracy, Galilee was known to be inhabited by dangerous, malevolent phantasms, demons and evil spirits. The evidence, drawn from an exhaustive review of contemporary sources and literature, is overwhelming—a world completely alien to our own. There was no middle class, only the powerful and the poor. Poverty, foreign occupation, demonic proliferation, corrupt overseers, and onerous quotas, all underscored the daily struggle for subsistence among the peasants of Galilee who lived tiny, poor working villages. Life lasted only twenty-six years; forty percent of children died by the age of twelve. Contextual risk analysis allows entry into this first-century world of Jesus with remarkable clarity. How and why did Jesus engage with demons and condemn the elite and demonic imperialism? Why was he labeled an “evil-doer?” Why were traditions about the Galilean women suppressed? Why was Jesus ritually killed? The figures of Jesus, his opponents and those who followed into peril emerge in startling clarity, leaving us standing with Jesus in Galilee. **Books in Series** Oct 11 2020 Vols. for 1980- issued in three parts: Series, Authors, and Titles. *Enterprise 200* Feb 01 2020

**Under a White Sky** May 18 2021 NATIONAL BESTSELLER • The Pulitzer Prize–winning author of *The Sixth Extinction* returns to humanity’s transformative impact on the environment, now asking: After doing so much damage, can we change nature, this time to save it? RECOMMENDED BY PRESIDENT OBAMA AND BILL GATES • SHORTLISTED FOR THE WAINWRIGHT PRIZE FOR WRITING • ONE OF THE TEN BEST BOOKS OF THE YEAR: *The Washington Post* • ONE OF THE BEST BOOKS OF THE YEAR: *Time*, *Esquire*, *Publishers Weekly*, *Kirkus Reviews* • “Beautifully and insistently, Kolbert shows us that it is time to think radically about the ways we manage the environment.”—Helen Macdonald, *The New York Times* With a new afterword by the author That man should have dominion “over all the earth, and over every creeping thing that creepeth upon the earth” is a prophecy that has hardened into fact. So pervasive are human impacts on the planet that it’s said we live in a new geological epoch: the Anthropocene. In *Under a White Sky*, Elizabeth Kolbert takes a hard look at the new world we are creating. Along the way, she meets biologists who are trying to preserve the world’s rarest fish, which lives in a single tiny pool in the middle of the Mojave; engineers who are turning carbon emissions to stone in Iceland; Australian researchers who are trying to develop a “super coral” that can survive on a hotter globe; and physicists who are contemplating shooting tiny diamonds into the stratosphere to cool the earth. One way to look at human civilization, says Kolbert, is as a ten-thousand-year exercise in defying nature. In *The Sixth Extinction*, she explored the ways in which our capacity for destruction has reshaped the natural world. Now she examines how the very sorts of interventions that have imperiled our planet are increasingly seen as the only hope for its salvation. By turns inspiring, terrifying, and darkly comic, *Under a White Sky* is an utterly original examination of the challenges we face.

*Mismanagement, “Jumpers,” and Morality* Sep 21 2021 Executives’ morality and ethics became major research topics following recent business scandals, but the research missed a major explanation of executives’ immorality: career advancement by “jumping” between firms that causes ignorance of job-pertinent tacit local knowledge, tempting “jumpers” to covertly conceal this ignorance. Generating distrust and ignorance cycles and mismanagement, this choice bars performance-based career advancement and encourages immoral careerism, advancing by immoral subterfuges. Such careerism is a known managerial malady, but explaining its emergence proved challenging as managerial ignorance is covertly concealed as a dark secret on organizations’ dark side by conspiracies of silence. Managerially educated and experienced, Dr. Shapira achieved a breakthrough by a 5-year semi-native anthropological study of five “jumper”-managed automatic processing plants and their parent firms. This book untangles common ignorance and immoral careerism, concealed as dark secrets by executives who “rode” on the successes of mid-level “jumpers” who high-morally risked their authority and power by admitting ignorance and trustfully learned local tacit knowledge. The opposite choice tendencies accorded power, authority, and status rankings, which made practicing immorality easier the higher one’s position, suggesting that the common “jumping” between managerial careers nurtures immoral executives similar to those exposed in the recent business scandals.

*Fatherless in Galilee* Dec 13 2020 A compelling new treatment of the historical Jesus introduces the “fatherless son” theory, postulating that this role marginalized young Jesus and laid the foundation for his later ministry. Original.

**Greco-Roman Culture and the Galilee of Jesus** Aug 09 2020 Examining architecture, inscriptions, coins, and art from Alexander the Great's conquest until the early fourth century CE, Mark Chancey argues that the extent of Greco-Roman culture in the time of Jesus has often been greatly exaggerated.

Antipas's reign in the early first century was indeed a time of transition, but the more dramatic shifts in Galilee's cultural climate happened in the second century, after the arrival of a large Roman garrison. Any attempt to understand the Galilean setting of Jesus must recognize the significance of the region's historical development as well as how Galilee fits into the larger context of the Roman East.

**Effective Documentation Management: Vital Surviving Knowledge for Every Individual, Organization & Nation as a WHOLE** Feb 12 2021 Despite having your certified graduation certificate such as diploma, degree, masters or PhD holder, this failure indicates that your knowledge in management is still insufficient. The paper qualification that you have is clearly is not enough to help you and make you ready to solve any organization business functional management problem in your respective discipline! This also means that your existing occupation as a leader, manager, educator, consultant, auditor or politician has failed to assist you to answer the case study correctly. Such it would seem that there is an urgent need for you to relearn and refresh your knowledge on management discipline. I would sincerely advice you to stop making any misleading management advice and guidance to the public. A failure whether it is a big or small is still failure. Therefore, you should not try to give any excuses or reasons for your failure. Reckoning that you may be the main cause of your organization's survival failure due to your wrong management knowledge.

*Lee Kuan Yew* Apr 28 2022 Grand strategist and founder of modern Singapore offers key insights and controversial opinions on globalization, geopolitics, economic growth, and democracy. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader—including the one who takes the oath of office on January 20, 2013.

**Galilee, Jesus and the Gospels** Feb 24 2022 Provides a detailed picture of Galilean life in the period prior to and spanning the genesis of Christianity. Freyne offers a comprehensive treatment of geographical and historical, social and cultural, and religious aspects of Galilean life.

*Handbook of Water Sensitive Planning and Design* Nov 23 2021 Design options and planning procedures must be critically examined to ensure that landscapes are created with sensitivity to water quality and management issues as well as overall ecological integrity. *Handbook of Water Sensitive Planning and Design* presents the history of water as a design and planning element in landscape architecture and describes new interpretations of water management. This text pushes the frontiers of standard water management in new directions, challenging readers into abandoning the comfortable safety of conducting business-as-usual within narrow disciplinary confines, and instead directing views outward to the exciting and incompletely mapped regions of true interdisciplinary water sensitive planning and design. With contributions from renowned practitioners, Part I provides seventeen chapters addressing the subject of site-specific water sensitive design and Part II presents another seventeen chapters focusing on issues relating to the water sensitive planning of riparian buffers and watersheds. In addition, Professor France has provided a "Response" to accompany each chapter, which succinctly underscores the salient features in more detail and emphasizes cross-linking to other chapters in the book. The "Overview" provides a brief road-map to navigate through the section. Finally, the discussion summaries at the end of each section elaborate on past problems, current challenges, and future directions. *Handbook of Water*

Sensitive Planning and Design puts forward the very best of modern water sensitive planning and design and should be required reading for everyone involved in this dynamic and crucial field.

**Concepts and Strategies for Analysing and Handling Problems of a Critical Region** Jul 08 2020

The Boat and the Sea of Galilee Nov 04 2022 In 1986, when drought brought the level of the Sea of Galilee unusually low, the two brothers Moshe and Yuval Lufan unearthed the timber frame of an ancient fishing boat. Archaeologist Kurt Raveh was to call the two-thousand-year-old boat of the very type Jesus used to sail the Galilee the most important discovery of the twentieth century. Recovery and preservation of the waterlogged Jesus boat was a unique challenge, as no other wooden object had ever survived two millennia in sweet water. Here is the emotional, suspenseful and inspiring story of the boat and those who dedicated fourteen years of their lives to making it available for all the world to see.

*The Routledge Handbook of African Law* Jan 26 2022 The Routledge Handbook of African Law provides a comprehensive, critical overview of the contemporary legal terrain in Africa. The international team of expert contributors adopt an analytical and comparative approach so that readers can see the nexus between different jurisdictions and different legal traditions across the continent. The volume is divided into five parts covering: Legal Pluralism and African Legal Systems The State, Institutions, Constitutionalism, and Democratic Governance Economic Development, Technology, Trade, and Investment Human Rights, Gender-Based Violence, and Access to Justice International Law, Institutions, and International Criminal Law Providing important insights into both the specific contexts of African legal systems and the ways in which these legal traditions intersect with the wider world, this handbook will be an essential resource for academics, researchers, lawyers, and graduate and undergraduate students studying this ever-evolving field.

**Climate Justice Beyond the State** Mar 16 2021 Virtually every figure in the climate justice literature agrees that states are presently failing to discharge their duties to take action on climate change. Few, however, have attempted to think through what follows from that fact from a moral point of view. In *Climate Justice Beyond the State*, Lachlan Umbers and Jeremy Moss argue that states' failures to take action on climate change have important implications for the duties of the most important actors states contain within them – sub-national political communities, corporations, and individuals – actors that have been largely neglected in the climate justice literature, to date. Sub-national political communities and corporations, they argue, have duties to immediately, aggressively, and unilaterally reduce their emissions. Individuals, on the other hand, have duties to help promote collective action on climate change. Along the way, they contribute to a range of important contemporary debates, including those over the nature of collective duties, what agents are required to do under conditions of partial compliance, and the requirements of fairness. Targeted at academic philosophers working on climate justice, this book will also be of great interest to students and scholars of global justice, applied ethics, political philosophy, and environmental humanities.

**Overlooking Nazareth** May 06 2020 This is an ethnographic account of the Palestinian citizens of Israel. Dr. Rabinowitz has written widely on the current political situation in Israel, and here investigates situations of friction, conflict and cooperation in the new town of Natzerat Illit just outside Nazareth. Using case studies and biographical accounts, the author provides a major contribution to our understanding of confrontation in this area, offers a powerful critique of reflexive anthropology, and original insights into ideas of ethnicity and identity, nationalism and liberalism.

*Strategic Global Marketing* Apr 04 2020 Learn to select appropriate strategic tools and measure the competitiveness of international firms! This essential text addresses important strategic marketing issues and questions in a unique and insightful way. *Strategic Global Marketing: Issues and Trends* takes on the standardization vs. adaptation issue and will familiarize you with important topics, including customer value measurement in highly competitive industries; factors influencing export attitudes; qualities necessary for successful international business conduct; distribution channels behavior and regional differences in the way these channels function; and more! Handy charts, tables, and figures make the

information easy to access and understand. In *Strategic Global Marketing: Issues and Trends*, authors from Israel, the United States, India, Hong Kong, and New Zealand examine the usefulness of comparative studies of dominant cultural values in successful international strategy development as well as other specific facets of international marketing strategy, such as: technometrics—a benchmarked approach to compare competing brands on a set of attributes the attitudes of Taiwanese executives regarding exporting and international conduct the cultural values that must be taken into account to produce effective print advertisements in the United States and India the marketing roles and functions undertaken by Chinese wholesalers—and the functions they are still reluctant to perform a meta-analysis-tested model of the relationship between export performance and the degree of standardization of international marketing strategy used by the exporter the effectiveness of policies put in place by leaders of United States cities in their efforts to promote exports

**Di Bawah Langit Putih: Hakikat Kehidupan** Sep 29 2019 Anggapan bahwa manusia harus berkuasa òatas seluruh Bumi dan atas segala binatang melata yang merayap di BumiÓ merupakan nubuat yang telah mewujudkan menjadi fakta. Saking luasnya dampak manusia di planet ini, telah disebutkan bahwa kita hidup dalam masa geologis baru, Antroposen. Dalam *Under a White Sky*, Elizabeth Kolbert mengamati dunia baru yang kita ciptakan. Sepanjang jalan, dia bertemu ahli biologi yang mencoba melestarikan ikan paling langka di dunia, yang hanya hidup di satu kolam kecil di tengah Gurun Mojave; para insinyur yang mengubah emisi karbon jadi batu di Eslandia; peneliti Australia yang mencoba mengembangkan Ókarang superÓ yang bisa bertahan di dunia yang lebih panas; dan ahli-ahli fisika yang mempertimbangkan menembakkan intan kecil-kecil ke stratosfer untuk mendinginkan Bumi. Satu cara memandang peradaban manusia, kata Kolbert, adalah sebagai suatu upaya sepanjang ribu tahun untuk menantang alam. Dalam *The Sixth Extinction*, dia menjelajahi cara-cara kapasitas perusak kita mengubah alam. Kini Kolbert meneliti bagaimana jenis-jenis intervensi yang telah mengancam planet kita makin dipandang sebagai satu-satunya harapan untuk menyelamatkannya. Menginspirasi, membikin ngeri, sekaligus membuat geli, *Under a White Sky* merupakan pembahasan orisinal atas tantangan-tantangan yang kita hadapi.

**Public Sector Management** Jul 20 2021 Public-sector management is undergoing a revolution. Traditional approaches are being superseded. These changes, and the reasons for them, are explained and assessed through the readings in this work. Various approaches are covered, those of the new right, bureaucracy and privatization.

*Nakba and Survival* Apr 16 2021 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Beginning in 1948, Israeli paramilitary forces began violently displacing Palestinian Arabs from Palestine. *Nakba and Survival* tells the stories of Palestinians in Haifa and the Galilee during, and in the decade after, mass dispossession. Manna uses oral histories and Palestinian and Israeli archives, diaries, and memories to meticulously reconstruct the social history of the Palestinians who remained and returned to become Israeli citizens. This book focuses in particular on the Galilee, using the story of Manna's own family and their village Majd al-Krum after the establishment of Israel to shed light on the cruelties faced by survivors of the military regime. While scholars of the Palestinian national movement have often studied Palestinian resistance to Israel as related to the armed struggle and the cultural struggle against the Jewish state, Manna shows that remaining in Israel under the brutality of occupation and fighting to return to Palestinian communities after displacement are acts of heroism in their own right.

**Archaeology and the Galilee** Jun 18 2021 Speculating from the surviving evidence, it was during excavations at Sepphoris in the summer of 1993, doubtless while sweating in the afternoon sun, chewing gritty dirt, and flexing aches in all their limbs, that Edwards and McCollough bethought themselves how much nicer life would be editing a book than digging holes in the dirt. The result is a collection of 16 essays exploring both the region in classical times and the study of it. Among the topics are the spatial management of gender and labor, the clash between literary and archaeological models of provincial Palestine, Jesus and his Galilean context, German scholarship on Rabbinic Judaism, the Zodiac in synagogue decoration, and a second-to-first century BCE fortress and siege complex. Annotation copyrighted by Book News, Inc., Portland, OR

**Water Policy in Israel** Aug 21 2021 This book deals with water policy in Israel. It offers a detailed examination of the main sources of Israel's water, its principle consumers, the gap between supply and

demand, and the complex, contentious work of analyzing and devising the nation's water management and use policies. Water Policy in Israel is arranged in five broad sections: The dynamics of moving from one policy era to another; Supply management; Demand management; The importance of the Sea of Galilee and the Dead Sea; and Regional and global issues including water conflict and cooperation and climate change.

*The Third International Conference on the Mediterranean Coastal Environment* Jan 14 2021

**Transforming the Israeli-Palestinian Conflict** Oct 23 2021 This book is a collection of essential essays on resolving the Israeli-Palestinian conflict by eminent social psychologist Herbert C. Kelman. Few experts or practitioners know the Israeli-Palestinian conflict as well as Kelman, and for over forty years he has conducted interactive problem-solving workshops at Harvard University and elsewhere, engaging more than one hundred Israeli, Arab and Palestinian political activists, journalists and intellectuals in constructive dialogue. Spanning the years 1978 to 2017, the essays gathered here are still relevant today, and attest to the author's broad empathy for Palestinians and Israelis and his passionate pursuit of a resolution of their conflict based on consistent principles that satisfy the essential psychological needs and minimum political interests of both. The selected essays are not only insightful academic papers, but also serve as snapshots-in-time of the ebb and flow of conflict and peace efforts as well as guideposts for future would-be negotiators and facilitators. This volume will be of much interest to students of Middle Eastern politics, peace and conflict studies, and international relations, and will help would-be negotiators and mediators in practice.

**Danger, Death and Disaster in the Crowsnest Pass Mines, 1902-1928** Dec 05 2022 The Crowsnest Pass is famous for the tragic rock slide at Frank in 1903, but almost as famous are the many coal-mining tragedies that afflicted the region in the early twentieth century. With the discovery of a rich coal deposit in the region, the area underwent an economic boom and a spike in population that is still evidenced today. Unfortunately, with this type of mining, in rugged and often dangerous conditions comes the threat of disaster and occasionally death. This book examines carefully the various calamities that have afflicted the area and considers the impact on the inhabitants and victims of these numerous tragedies. Using original source material such as grave markers, folk songs, and oral histories, the author portrays vividly the psychological and sociological features of both the individual and collective responses to death and danger, giving the reader a unique picture of mining communities that is as true today as it was a century ago.

**Galilee Divided** Aug 28 2019

**Estimating Combined Loads of Diffuse and Point-Source Pollutants Into the Borkena River, Ethiopia** Sep 02 2022 This book is an initial attempt to estimate the loads of heavy metal and nutrient loads into an industrial effluent receiving rivers of a typical industrializing catchment. It shows the effects and impacts of diffuse and point sources of these loads into the rivers, and illuminate management, capacity and policy gaps of riverine water and sediment monitoring in the sub-Saharan countries perspective from Ethiopia. The study was done in semi-arid catchments of Kombolcha city with industrialising urban and peri-urban areas in north-central Ethiopia. The Leyole and Worka rivers, which receives industrial effluent and wash-off from the catchments' areas, were monitored for two years. This book contribute to our understanding on applicable methods to quantify loads of diffuse and point sources in data poor areas, and the most important contribution is to address the gaps in in controlling emission changes and. The results of this book contribute to the theory of river protection and understanding of water quality management of sub-Saharan African tropical rivers and sediments and provides policy options for improvement in rivers water quality of the sub-Saharan countries. In bridging this gap, this book proposed a model to estimate the total loads of nitrogen and phosphorus from a catchment.

**Tidal Marsh Restoration** Dec 01 2019
