Ridin' the Wind Oct 25 2021 Ridin' the Wind is 40 stories of bikers and their life style. You will ride a low rider across the country, ride with the Grim Reaper and you will race the devil. You'll freeze in Jersey, sweat in Georgia and see gray dogs in Arizona. You'll spend time in bars, diners, pizza joints and bike shops. And you'll do plenty of riding. Short rides and all day rides. Along the way you'll meet old friends, make new ones and get into a fight or two. Solid brothers, crazy women, sportsters, bike thieves, loving wives, super glides, runs and memories. They're all here. Hang up your leather jacket and take a seat. I think you'll like the read you're about to start.

Race Tech's Motorcycle Suspension Bible Feb 03 2020 Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
