Classic Motorcycles Jul 10 2020 Finally! The world's most incredible motorcycles are given the artful representation they deserve. The motorcycle should have disappeared with the advent of the inexpensive automobile, since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation, but a funny thing happened on the way to extinction - the motorcycle not only survived but thrived. Enough people were enamored of the thrill and beauty of the two-wheeled mechanical beast to ensure it would continue to exist indefinitely. And exist they have! Many of the motorcycles manufactured over the past century truly fit the description of "classic," and many consider these machines works of art. Written by noted motorcycle author Patrick Hahn, Classic Motorcycles presents the history of motorcycling as told through the most significant, iconic, classic motorcycles of all time, with both period photography and modern portrait photography. All the best domestic and international makes are represented here, from BMWs, Indians, and Triumphs to Vincents, Ducatis, and Harley-Davidsons - the most classic models. You'll drool over the 1933 Matchless Silver Hawk. Each motorcycle was shot in a studio setting using photographer Tom Loeser's light-painting technique. Period ads and relevant historic photos and documents are spread throughout the book to supplement the portraits of the bikes, really evoking a sense of time and place. Prepare to be in awe of the undeniably classic motorcycles in this collection. It's the only motorcycle history you'll need.

the history and the mechanical evolution of the company's engines. It continues describing the main motorcycle model families and digs down to describe the most famous models Harley has ever produced. The book is fully illustrated with pictures of the bikes.

Harley-Davidson Sportster Performance Handbook, 3rd Edition Nov 06 2022 For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

Have Mercy Jul 22 2021 Mercy Dillon lives in a small town in northeast Missouri and has just heard that life as she knew it is about to end. A large meteor is headed smack dab for earth. In fact it was going to hit in North America up in Canada. The powers that be had paraded scientists all over the news saying because of this hit it would cause earthquakes and possibly volcanoes to go off all over the world. They were sure the sun's light would be blocked as long as the dirt was flying around in the atmosphere and also cause winter to envelope the world for who knows how long. She had ran from the office and hopped on her Harley; headed home as fast as traffic would allow her. It didn't take but a few minutes and she could see the driveway to her apartment when she was surrounded by a myriad of other motorcycles. She looked over to see a large bearded man in a sidecar next to her smiling and getting ever closer; he seemed to be intent on grabbing her. But that couldn't be right, could it? They had her, now how to get back home.
