The Creationist Writings of Byron C. Nelson Aug 25 2021 Originally published in 1995 this is the fifth volume in the series Creationism in 20th Century America. It re-publishes After Its Kind – a critique on theories of biological evolution and a defense of the biblical account of creation which Nelson wrote when he was a Pastor in New Jersey where he also attended classes in genetics and zoology at Rutgers university. His 1931 volume The Deluge Story in Stone: A History of the Flood Theory of Geology, also reprinted here was continuously in print until the 1960s. As his scientific and theological correspondence expanded in the wake of his publications, Nelson became further involved in the ‘evolution debates’. During the late 1930s his writings concentrated on early man and the glacial phenomena he saw all about him in Wisconsin and he compiled the materials he thought necessary to relate Scripture to the evidence of human antiquity.
