Oceanic Explorations Aug 12 2021 Lapita comprises an archaeological horizon that is fundamental to the understanding of human colonisation and settlement of the Pacific as it is associated with the arrival of the common ancestors of the Polynesians and many Austronesian-speaking Melanesians more than 3000 years ago. While Lapita archaeology has captured the imagination and sustained the focus of archaeologists for more than 50 years, more recent discoveries have inspired renewed interpretations and assessments. Oceanic Explorations reports on a number of these latest discoveries and includes papers which reassess the Lapita phenomenon in light of this new data. They reflect on a broad range of interrelated themes including Lapita chronology, patterns of settlement, migration, interaction and exchange, ritual behaviour, sampling strategies and ceramic analyses, all of which relate to aspects highlighting both advances and continuing impediments associated with Lapita research.

Santa Cruz Island Figure Sculpture and Its Social and Ritual Contexts May 21 2022 In this ethnographic study of traditional sculpture from Santa Cruz Island, near the Solomon Islands in the southwest Pacific the late anthropologist William H. Davenport presents a distinctive genre of figure sculpture produced for and used in traditional religious rituals and ceremonies. The body of the book discusses the history of Santa Cruz Island society since the first Europeans came to the area in 1595, the cultural meanings of its most conspicuous features, and descriptions of the main components of worship, the rituals. The book includes discoveries about the making and use of the figurines, as well as the iconography of the pieces. The latter information is derived from general ethnographic data collected in the course of field research between 1958 and 1976 on Santa Cruz Island and the adjacent islands of the Santa Cruz Group, where Davenport's many close friends included both his informants in the villages and officers of the British Colonial Service. A dual

study of a tradition of so-called tribal art in its context and a study of Santa Cruz Island society, the book includes meticulous descriptions of the sacred objects, currency, dances, and social interactions. Davenport's records of 55 specimens of Santa Cruz sculpture from both private collections and museums—initial acquisition, subsequent ownership, and other detailed physical information—constitute the catalogue section of the book. An engaging and previously unrecorded transcription of information distilled from local informants of the oral myths, rituals, and ceremonies reveals how Santa Cruz believers distinguished, celebrated, and communicated with their deities. Davenport's own unique photographs—both black and white and color—illustrate rituals on the island and life as it was lived before independence in 1978. His work here is a record of a culture which is barely now either lived or remembered by the descendants of those who created it, and all figural sculpture discovered in the future must be judged against this corpus of authenticated originals. Audiences will include anthropologists interested in the tribal arts of Pacific peoples, libraries with Melanesian collections, art historians, contemporary historians interested in the difference between description and comparison, and the special political and economic situation of colonialism.

Sins of the Innocent Nov 22 2019 "This is Marokvia's second memoir, following *Immortelles: Memoir of a Will-o'-the-Wisp*), which focused largely on her French childhood (she was born in 1908). Here she moves ahead to her 1939 marriage in Germany to a German artist and photographer named Abel. After they were married in a civil ceremony, it was particularly jarring for her when the clerk gave her not the traditional Bible but *Mein Kampf*. When Germany invaded France, the couple's citizenship status became ambiguous. Abel was forced to work as a photographer for the German army or face imprisonment. Marokvia, left alone and watched as a possible French spy in Germany, drew on a well of strength to live a quiet, determined life and survive the war. Passionate, straightforward, and enthralling, this new memoir offers a glimpse of the seldom-seen life of a French citizen in Germany during World War II. Now in her late nineties, Marokvia is working on the final installment of a trilogy, which will pick up with the couple's postwar move to

America."--Library Journal.
