Silent Partners Aug 03 2020 Silent Partners: Taxpayers and the Bankrolling of Bombardier is the shocking account of how the Canadian taxpayer unwittingly bankrolled the rise and fall of the Bombardier empire. Bombardier's improbable rise from snowmobile manufacturer in backwoods Quebec to the world's largest producer of rail and mass transit equipment and the third-largest aircraft manufacturer has been a source of national pride, especially in Quebec. Selling 94 per cent of its trains, planes, snowmobiles and watercraft outside the country, and with sales of \$24 billion, and 75,000 employees in 24 countries, Bombardier had become a global powerhouse. But this dazzling growth masked a host of problems.

Refinement of Production Engines and New Control Strategies May 24 2022 This collection is a resource for studying the history of the evolving technologies that have contributed to snowmobiles becoming cleaner and quieter machines. Papers address design for a snowmobile using the EPA test procedure and standard for off-road vehicles, along with more stringent U.S. National Park Best Available Technology (BAT) standards that are likened to those of the California Air Resources Board (CARB). Innovative technology solutions include: • Standard application for diesel engine designs • Applications to address and test both engine and track noise • Benefits of the Miller cycle and turbocharging The SAE International Clean Snowmobile Challenge (CSC) program is an engineering design competition. The program provides undergraduate and graduate students the opportunity to enhance their engineering design and project management skills by reengineering a snowmobile to reduce emissions and noise. The competition includes internal combustion engine categories that address both gasoline and diesel, as well as the zero emissions category in which range and draw bar performance are measured. The goal of the competition is designing a cleaner and quieter snowmobile. The competitors' modified snowmobiles are also expected to be cost-effective and comfortable for the operator to drive.

Hunters and Bureaucrats Aug 27 2022 This book challenges this conventional wisdom that land claims and co-management -- two of the most visible and celebrated elements of this restructuring the relationship between Aboriginal peoples and the Canadian state -- will help reverse centuries of inequity. Based on three years of ethnographic research in the Yukon, the author examines the complex relationship between the people of Kluane First Nation, the land and animals, and the state. This book moves beyond conventional models of colonialism, in which the state is treated as a monolithic entity, and instead explores how "state power" is reproduced through everyday bureaucratic practices -- including struggles over the production and use of knowledge.

The Lost Continent Feb 09 2021 'I come from Des Moines. Somebody had to' And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England, he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of trim and sunny place where the films of his youth were set. Instead, his search led him to Anywhere, USA; a lookalike strip of gas stations, motels and hamburger outlets populated by lookalike people with a penchant for synthetic fibres. He discovered a continent that was doubly lost; lost to itself because blighted by greed, pollution, mobile homes and television; lost to him because he had become a stranger in his own land. Bryson's acclaimed first success, *The Lost Continent* is a classic of travel literature - hilariously, stomach-achingly, funny, yet tinged with heartache - and the book that first staked Bill Bryson's claim as the most beloved writer of his generation.

Forgotten Labrador Jun 20 2019 *The Forgotten Labrador* recounts the history of a remarkable area of Canada - the Quebec part of the Labrador coast that extends eastward from Kegashka to Blanc Sablon. Cleophas Belvin describes the arrival of the Aborigines and the activities of the Breton and Basque fishermen and French- and English-speaking merchants from Quebec City who controlled the region for more than one hundred and fifty years. He paints a vivid picture of the lifestyle and living conditions of the early French- and English-speaking pioneers and their descendants, offering an analysis of why they settled in the region and how they dealt with the precariousness of the seal, salmon, and cod fisheries. *The Forgotten Labrador* also explores the role of the Anglican and Catholic missionaries, the establishment of educational, medical, transportation, and communication services, and the various government and local initiatives that were undertaken to provide the people with some form of economic prosperity.

Marketing for Sustainable Tourism Jul 02 2020 The aim of the Special Issue is to discuss the main current topics concerning marketing for sustainable tourism with reference to territories (i.e., tourism destinations, protected areas, parks and/or natural sites, UNESCO World Heritage Sites, rural regions/areas, etc.) and tourism enterprises and/or organisations (i.e., destination management organisations, hospitality enterprises, restaurant enterprises, cableway companies, travel agencies, etc.). In destinations where natural resources are pull factors for tourism development, the relationships among local actors (public, private, and local community), as well as marketing choices, are essential to develop sustainable tourism products. To this end, the Special Issue encourages papers that analyse marketing strategies adopted by tourism destinations and/or tourism enterprises to avoid overtourism, to manage mass sustainable tourism (as defined by Weaver, 2000), and to encourage and promote sustainable tourism in marginal areas or in territories suffering lack of integration in the tourism offer. Special attention will be given to contributions on the best practices to manage territories and/or enterprises adopting sustainable marketing strategies.

Shiver May 12 2021 This is a rollicking novel about marriage in America with epic depictions of bad weather and even worse human behavior [adult situations, language, sexual content]. It is the story of a man who not only loved women but married twelve of them. It is also a chronicle of America; and like the last half of the 20th century, it is a wild ride with our matrimonial hero circumnavigating the country and having adventures you could only hope to imagine and pray to avoid. Alternately shocking, funny, radical, literary, and religious (while only occasionally sad in the tradition of Tom Jones and Moll Flanders), this virtuoso first novel reinvents the picaresque entertainments popularized by Henry Fielding and Daniel Defoe. So put away your other novels of Scandinavian sorrow and introduce yourself to a new American author.

The Bombardier Story Jan 20 2022 The story of the company that was founded by the inventor of the snowmobile In 1942, Joseph-Armand Bombardier invented the snowmobile and founded his company to manufacture them. From its humble beginnings as an entrepreneurial company in rural Quebec, led by an enterprising inventor, Bombardier Inc. has emerged as a global leader in the transportation industry. This book tells the fascinating tale of this remarkably well managed company that has enjoyed spectacular growth in its chosen markets through strong leadership and management strategy, succession planning, strategic diversification, and turnaround and acquisition artistry. The fascinating story of the world's largest rail manufacturer for both railway and subway Reveals why Bombardier Inc. is a multi-faceted global company yet nobody knows their name Written by Larry MacDonald the author of Nortel Network The Bombardier Story shows how invention and entrepreneurship, management and leadership, smooth succession planning, and turnaround and acquisition built this global powerhouse.

Bion and Primitive Mental States Mar 10 2021 This clinically focused book explores W. R. Bion's thinking on primitive and unrepresented mental states and shows how therapists can work effectively with traumatized patients who are difficult to reach. The author illuminates how trauma survivors suffer from direct access to primal undifferentiated positions of the psyche that lie outside the symbolic order of the mind and are resistant to treatment. This access, unmediated by symbolic representation but represented in the body, disrupts the normal trajectory of development and of relationship. Integrating theory and clinical application, the book addresses processes of symbolization, somatic receptivity, and the use of countertransference when working therapeutically with undeveloped areas of the mind. It also demonstrates how primitive body relations and object relations include the body of the analyst as part of the analytic frame and are essential in establishing a therapeutic alliance. Illustrated with detailed clinical vignettes, Bion and Primitive Mental States is important reading for psychoanalysts, psychologists, social workers, and educators who wish to understand primitive states of mind and body in patients who have previously been considered untreatable.

Social Assistance in Albania Oct 29 2022 Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

White Tears Dec 07 2020 'Like Donna Tartt's *The Goldfinch*... A stunning novel of ideas that becomes a page-turning thriller... ' Stylist 'A fast-paced, ambitious, hallucinatory mystery' Publishers Weekly A dizzying, nail-biting ghost story about modern America from the bestselling author of *The Impressionist* Two twenty-something New Yorkers: Seth, awkward and shy, and Carter, the trust fund hipster. They have one thing in common: an obsession with music. Rising fast on the New York producing scene, they stumble across an old blues song long forgotten by history -- and everything starts to unravel. Carter is drawn far down a path that allows no return, and Seth has no choice but to follow his friend into the darkness. Electrifying, subversive and wildly original, *White Tears* is a ghost story and a love story, a story about lost innocence and historical guilt. This unmissable novel penetrates the heart of a nation's darkness, encountering a suppressed history of greed, envy, revenge and exploitation, and holding a mirror up to the true nature of America today.

The Believer as Citizen Oct 25 2019 "In recent years religious leaders of mainline Christian and Jewish groups have been calling on their adherents to play a larger role in the creation of a just social order. One of the most publicized of these was the declaration of the American Catholic bishops, Economic Justice For All. It remains to be seen whether believers raised in an era of affluence are deeply committed to the plight of the needy, and whether religion itself can mark out a path between social activism and conventional party politics." "John Courtney Murray (1904-1967) was a pioneer in the ongoing dialogue about the role of believers in public life. For all of his contributions, however, Murray spoke in a patrician manner to a social order that was stable and structured. How useful are his ideas in an age of multiculturalism, when the strongest pressure for justice comes from grassroots organizations of the poor and marginalized?" "The Believer as Citizen proposes a fresh view of Murray's public philosophy in a way that makes it applicable to today's conditions."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. [An Extraordinary Journey for an Ordinary Cameron Man](#) Sep 23 2019 This book follows the journey of Donald Leslie Cameron, a Scotsman who left home at seventeen to work in the remote regions of Arctic Canada for the Hudson's Bay Co. Skipping from island to island in the remotest outposts of the Canadian Arctic, Cameron's career brings him into contact with the fur traders and fishermen of the Inuit First Nations, with the adventurous men and women who populate the northernmost towns, and eventually, with the love of his life. Along the way, Cameron learns the trade of retailing and fur-buying as a manager for the Hudson's Bay Co, rising through the ranks of the corporation and traveling half of Canada's northern expanse. The work was prompted by Cameron's large family of six children, thirty-eight grandchildren, and five great-grandchildren to capture the sense of accomplishment, to tell the tale of his adventure, and to preserve his part of the history and geography of Northern Canada.

[The Rock From Mars](#) Jul 22 2019 In this riveting book, acclaimed journalist Kathy Sawyer reveals the deepest mysteries of space and some of the most disturbing truths on Earth. The Rock from Mars is the story of how two planets and the spheres of politics and science all collided at the end of the twentieth century. It began sixteen million years ago. An asteroid crashing into Mars sent fragments flying into space and, eons later, one was pulled by the Earth's gravity onto an icy wilderness near the southern pole. There, in 1984, a geologist named Roberta Score spotted it, launching it on a roundabout path to fame and controversy. In its new home at NASA's Johnson Space Center in Houston, the rock languished on a shelf for nine years, a victim of mistaken identity. Then, in 1993, the geochemist Donald "Duck" Mittlefehldt, unmasked the rock as a Martian meteorite. Before long, specialist Chris Romanek detected signs of once-living organisms on the meteorite. And the obscure rock became a rock star. But how did nine respected investigators come to make such startling claims about the rock that they triggered one of the most venomous scientific battles in modern memory? The narrative traces the steps that led to this risky move and follows the rippling impact on the scientists' lives, the future of space exploration, the search for life on Mars, and the struggle to understand the origins of life on Earth. From the second the story broke in *Science* magazine in 1996, it spawned waves of excitement, envy, competitive zeal, and calculation. In academia, in government agencies, in laboratories around the world, and even in the Oval Office--where an inquisitive President Clinton had received the news in secret--players of all kinds plotted their next moves. Among them: David McKay, the dynamic geologist associated with the first moon landing, who labored to achieve at long last a second success; Bill Schopf of UCLA, a researcher determined to remain at the top of his field and the first to challenge McKay's claims; Dan Goldin, the boss of NASA; and Dick Morris, the controversial presidential adviser who wanted to use the story for Clinton's reelection and unfortunately made sure it ended up in the diary of a \$200-an-hour call girl. Impeccably researched and thrillingly involving, Kathy Sawyer's *The Rock from Mars* is an exemplary work of modern nonfiction, a vivid account of the all-too-human high-stakes drive to learn our true place in the cosmic scheme.

[Guide to State Parks-Illinois](#) Aug 23 2019 For most visitors interested in the outdoors, Acadia National Park on Mount Desert Island is the top destination. It has more than 50 miles of groomed gravel carriage roads, where motorized traffic is banned. Nearly 120 miles of hiking trails traverse seven major barren mountaintops. There is much to see and do here, and plenty of places to explore. The island OCOs many lakes invite paddlers and swimmers of all skill levels. Pocket cobblestone beaches in hidden coves await discovery by those who wish to avoid the crowds at Sand Beach. With thousands of motel rooms, a similar quantity of campsites, and plenty of private cottages and cabins to rent, Mount Desert Island easily accommodates the throngs of visitors, although traffic can get heavy in late July and in August. Towns surrounding Acadia brim with galleries and shops offering interesting wares from around the world. Bar Harbor alone boasts more than 100 restaurants. While many come back year after year to stroll Bar Harbor OCOs shore path, gazing out at some of the more than 40 ocean liners that visit each year, others prefer to visit more traditional fishing villages such as Bass Harbor. Elsewhere along the coast in Hancock

and Washington Counties you will find picturesque fishing villages. To the west sits Castine, home to the Maine Maritime Academy and several historic sites. Just south is Deer Isle and Stonington, both home to busy commercial harbors bustling with lobster and fishing boats. Here, more and more galleries are tucked into the weathered buildings every year. Ellsworth is a major commercial center. Still, just a few miles from the inviting Main Street area of downtown, the waters of Green, Graham and Branch Lakes are popular recreational destinations. One of the undiscovered gems of this region is Schoodic Point, near Winter Harbor. Schoodic is part of Acadia National Park, and offers spectacular scenery and rough surf crashing into rocks on stormy days. Here is the most detailed guide to this unforgettable region of Maine. It is loaded with maps and color photographs as well."

[The Starlight Claim](#) Dec 27 2019 Fast-paced, evocative, and intensely suspenseful, Tim Wynne-Jones's latest psychological thriller finds a teenager setting his wits against the frigid wilderness and a menacing crew of escapees. Four months after his best friend, Dodge, disappeared near their families' camp in a boat accident, Nate is still haunted by nightmares. He'd been planning to make the treacherous trek to the remote campsite with a friend — his first time in winter without his survival-savvy father. But when his friend gets grounded, Nate secretly decides to brave the trip solo in a journey that's half pilgrimage, half

desperate hope he will find his missing friend when no one else could. What he doesn't expect to find is the door to the cabin flung open and the camp occupied by strangers: three men he's horrified to realize have escaped from a maximum-security prison. Snowed in by a blizzard and with no cell signal, Nate is confronted with troubling memories of Dodge and a stunning family secret, and realizes that his survival now depends on his wits as much as his wilderness skills. As things spiral out of control, Nate finds himself dealing with questions even bigger than who gets to leave the camp alive.

The Trouble with Eve Jan 28 2020 Luka was not a believer. He had always been skeptical of those biblical stories, including the supposed Forbidden Fruit tempting them under The Tree of Knowledge. But what was this hold Eve now had over him? Was it that? Was this the original sin? Or was it simpler than that? Was "the forbidden fruit" really just her delightful body? If so, Luka thought that Eve should have had a good lawyer. She had been framed. There was nothing sinful about it, Luka would argue. She was simply a natural wonder. To be fair, Luka's Eve was not the average human female. She was amazing! Better yet, many of their friends were nearly as awesome. So it went in Flathead County, home of 314 named mountains. As Rusty had somehow managed to inscribe on the side of one of those peaks, "Montana. It's Not For Wimps!"
