Understanding Things Fall Apart: A Student Casebook to Issues, Sources, and Historical Documents Apr 09 2021 *Things Fall Apart* is the most widely read and influential African novel. Published in 1958, it has sold more than eight million copies and been translated into fifty languages. African culture is not familiar to most American readers however, and this casebook provides a wealth of commentary and original materials that place the novel in its historical, social, and cultural contexts. Ogbaa, an Igbo scholar, has selected a wide variety of historical and firsthand accounts of Igbo history and cultural heritage. These accounts illuminate the historical context and issues relating to the colonization of Africa by European powers, in particular Britain's colonization of Nigeria. Fascinating materials bring to light the novel's cultural context—folkways, language and narrative customs, and traditional Igbo religion. Among the documents included are a slave narrative, interviews, journal and magazine articles, and historical essays. Each chapter is followed by questions for class discussion and ideas for student paper topics. A selection of maps and photos of Igbo culture complement the text. Following a literary analysis, historical documents trace the European powers' partition of Africa and the creation and colonization of Nigeria, home of the Igbo people. Several chapters on Igbo cultural harmony feature materials that explain the Igbo view of the world of humans and the world of the spirits, Igbo language, and traditional Igbo religion and material customs. Selections on the African novelists' novel place *Things Fall Apart* in the context of African literature and emphasize the difference between African and Western elements of fiction. A concluding chapter examines the debate on writing African novels in ex-colonizers' languages. This casebook will greatly enhance the reader's appreciation of the novel and understanding of Igbo history, society, culture, and civilization. *The Psychopath Test* Oct 23 2019 What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, *The Psychopath Test* is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges. *Then It Fell Apart* May 22 2022 What do you do when you realise you have everything you think you've ever wanted but still feel completely empty? What do you do when it all starts to fall apart? The second volume of Moby's extraordinary life story is a journey into the dark heart of fame and the demons that lurk just beneath the bling and bluster of the celebrity lifestyle. In summer 1999, Moby released the album that defined the millennium, *PLAY*. Like generation-defining albums before it, *PLAY* was ubiquitous, and

catapulted Moby to superstardom. Suddenly he was hanging out with David Bowie and Lou Reed, Christina Ricci and Madonna, taking ecstasy for breakfast (most days), drinking litres of vodka (every day), and sleeping with super models (infrequently). It was a diet that couldn't last. And then it fell apart. The second volume of Moby's memoir is a classic about the banality of fame. It is shocking, riotously entertaining, extreme, and unforgiving. It is unedifying, but you can never tear your eyes away from the page.

How to Fall Apart Aug 21 2019 'Honest, vulnerable and empowering' Angela Scanlon 'Poignant, profound, and moving, I have no doubt that this beautifully written book will comfort anyone who is in the process of falling apart' Louise O'Neill 'Liadán Hynes writes with so much heart. Her story will help shine a light during uncertain, painful times. After reading, you'll be ready to heal' Cecelia Ahern When journalist and podcaster Liadán Hynes's marriage ended, it felt like a loss: of her best-friend, and of the happy ending she had envisaged on their wedding day. In the months that followed, she had to adjust to a different future - as a single mum juggling work and managing a home -- without someone to share the ups and downs of the everyday. Here, in this honest, poignant and beautifully written memoir, she gives an account of her experience. From navigating Friday-night dinner parties and Saturday nights alone on the couch, to counselling and having more gurus than is sensible, *How to Fall Apart* is a story of one woman who discovered the value of different kinds of love and, in doing so, found herself: single, stronger and surrounded by love.

Now, somehow the Proctor knows them, too. The four must uncover the true killer before The Proctor exposes more than they can bear and costs them more than they can afford, like Nancy's full scholarship. So You've Been Publicly Shamed Jan 26 2020 Now a New York Times bestseller and from the author of *The Psychopath Test*, a captivating and brilliant exploration of one of our world's most underappreciated forces: shame. 'It's about the terror, isn't it?' 'The terror of what?' I said. 'The terror of being found out.' For the past three years, Jon Ronson has travelled the world meeting recipients of high-profile public shamings. The shamed are people like us - people who, say, made a joke on social media that came out badly, or made a mistake at work. Once their transgression is revealed, collective outrage circles with the force of a hurricane and the next thing they know they're being torn apart by an angry mob, jeered at, demonized, sometimes even fired from their job. A great renaissance of public shaming is sweeping our land. Justice has been democratized. The silent majority are getting a voice. But what are we doing with our voice? We are mercilessly finding people's faults. We are defining the boundaries of normality by ruining the lives of those outside it. We are using shame as a form of social control. Simultaneously powerful and hilarious in the way only Jon Ronson can be, *So You've Been Publicly Shamed* is a deeply honest book about modern life, full of eye-opening truths about the escalating war on human flaws - and the very scary part we all play in it.

When Things Fell Apart Nov 28 2022 In the later decades of the twentieth century, Africa plunged into political chaos. States failed, governments became predators, and citizens took up arms. In *When Things Fell Apart*, Robert H. Bates advances an exploration of state failure in Africa. In so doing, he not only plumbs the depths of the continent's late-century tragedy, but also the logic of political order, and the foundations of the state. This book covers a wide range of territory by drawing on materials from Rwanda, Sudan, Liberia, and Congo. Written to be accessible to the general reader, it is nonetheless a must-read for scholars and policymakers concerned with conflict and state failure.

The Wisdom of No Escape Jun 30 2020 The "down-to-earth, unsentimental, [and] high-humored" Pema Chödrön classic on learning to face our lives just as they are (Los Angeles Times) It's true, as they say, that we can only love others when we first love ourselves—and we can only experience real joy when we stop running from pain. The key to understanding these truisms is simple but not easy: we must learn to open ourselves up to life in all its manifestations. Here, spiritual teacher and *When Things Fall Apart* author Pema Chödrön presents a uniquely practical approach to doing just that, showing us the true value in having "no escape" from the ups and downs of life. Drawing from her own experiences with marriage, divorce, motherhood, and more, Pema reveals that when we embrace the happiness and heartache, the inspiration and confusion—all the twists and turns that are part of natural life—we can begin to discover a true wellspring of courageous love that's been within our hearts all along. As she writes in chapter four: "Our neurosis and our wisdom are made out of the same material. If you throw out your neurosis, you also throw out your wisdom."

Lights Out Oct 03 2020 How could General Electric--perhaps America's most iconic corporation--suffer such a swift and sudden fall from grace? This is the definitive history of General Electric's epic decline, as told by the two Wall Street Journal reporters who covered its fall. Since its founding in 1892, GE has been

more than just a corporation. For generations, it was job security, a solidly safe investment, and an elite business education for top managers. GE electrified America, powering everything from lightbulbs to turbines, and became fully integrated into the American societal mindset as few companies ever had. And after two decades of leadership under legendary CEO Jack Welch, GE entered the twenty-first century as America's most valuable corporation. Yet, fewer than two decades later, the GE of old was gone. *Lights Out* examines how Welch's handpicked successor, Jeff Immelt, tried to fix flaws in Welch's profit machine, while stumbling headlong into mistakes of his own. In the end, GE's traditional win-at-all-costs driven culture seemed to lose its direction, which ultimately caused the company's decline on both a personal and organizational scale. *Lights Out* details how one of America's all-time great companies has been reduced to a cautionary tale for our times.

Things Fell Apart, But the Center Held Nov 16 2021 Dianne's memoir includes stories of her adventures in all those places, but it also recounts the abuse she experienced. It tells the story of Dianne's extraordinary childhood, rich with wonderful experiences juxtaposed with sexual, emotional and spiritual abuse. Personal and institutional betrayal would impact Dianne and her family for life, but her candid memoir also shows how unwavering love, support and courage set the stage for her to thrive in spite of it all. Dianne reveals how the physical effects of that trauma followed her into adulthood. However, through all the good and bad, Dianne's gratitude shines through for the love and courage of those who defended her as a child, kept her world together and allowed her faith and resiliency to grow.

1919 Feb 19 2022 After the worst war in history - 'the war to end all wars' - there were hopes for a lasting peace and a better world. 1919 was to be the year for recovery, peace-making and the healing of wounds.

Instead the world was afflicted by a terrible influenza pandemic that took more lives than the Great War itself. The huge death toll from the war and the pandemic excited fears of national decay. Soldiers returning home were often ill and restive, and sometimes radical and violent. Across the world there were race riots, prolonged industrial disputes, political protests, revolutions and counter-revolutions, and in Europe the first stirrings of fascism. At the Versailles Peace Conference, the victors' attempts to define the conditions for a lasting peace were compromised by recriminations and squabbling over the spoils of war. The world seemed to have climbed from the abyss into a nightmare. The sciences of war had more than demonstrated their lethal capabilities; the potentialities of Rutherford's 'splitting of the atom' and the import of Einstein's theory of relativity were yet only dimly realised. The nine historians who examine 1919, the year that seemed to be falling apart, are all Fellows or Associates of SHAPS at the University of Melbourne: Roderick W. Home, Anthea Hyslop, John Lack, Ross McMullin, Val Noone, David Palmer, Carolyn Rasmussen, Tony Ward, and Fay Woodhouse.

When Things Fall Apart Apr 21 2022 Pema Chödrön's perennially best-selling classic on overcoming life's difficulties cuts to the heart of spirituality and personal growth--now in a newly designed 20th-anniversary edition with a new afterword by Pema--makes for a perfect gift and addition to one's spiritual library. How can we live our lives when everything seems to fall apart--when we are continually overcome by fear, anxiety, and pain? The answer, Pema Chödrön suggests, might be just the opposite of what you expect. Here, in her most beloved and acclaimed work, Pema shows that moving toward painful situations and becoming intimate with them can open up our hearts in ways we never before imagined. Drawing from traditional Buddhist wisdom, she offers life-changing tools for transforming suffering and negative patterns into habitual ease and boundless joy.

The Purpose of Power Jan 06 2021 An essential guide to building transformative movements to address the challenges of our time, from one of the country's leading organizers and a co-creator of Black Lives Matter "Excellent and provocative . . . a gateway [to] urgent debates."—Keeanga-Yamahtta Taylor, *The New Yorker* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time • Marie Claire • Kirkus Reviews In 2013, Alicia Garza wrote what she called "a love letter to Black people" on Facebook, in the aftermath of the acquittal of the man who murdered seventeen-year-old Trayvon Martin. Garza wrote: Black people. I love you. I love us. Our lives matter. With the speed and networking capacities of social media, #BlackLivesMatter became the hashtag heard 'round the world. But Garza knew even then that hashtags don't start movements—people do. Long before #BlackLivesMatter became a rallying cry for this generation, Garza had spent the better part of two decades learning and unlearning some hard lessons about organizing. The lessons she offers are different from the "rules for radicals" that animated earlier generations of activists, and diverge from the charismatic, patriarchal model of the American civil rights movement. She reflects instead on how making room amongst the woke for those who are still awakening can inspire and activate more people to fight for the world we all deserve. This is the story of one woman's lessons through years of bringing people together to create change. Most of all, it is a new paradigm for change for a new generation of changemakers, from the mind and heart behind one of the most important movements of our time.

Them Sep 26 2022 A wide variety of extremist groups -- Islamic fundamentalists, neo-Nazis -- share the oddly similar belief that a tiny shadowy elite rule the world from a secret room. In *Them*, journalist Jon Ronson has joined the extremists to track down the fabled secret room. As a journalist and a Jew, Ronson was often considered one of "Them" but he had no idea if their meetings actually took place. Was he just not invited? *Them* takes us across three continents and into the secret room. Along the way he meets Omar Bakri Mohammed, considered one of the most dangerous men in Great Britain, PR-savvy Ku Klux Klan Grand Wizard Thom Robb, and the survivors of Ruby Ridge. He is chased by men in dark glasses and unmasked as a Jew in the middle of a Jihad training camp. In the forests of northern California he even witnesses CEOs and leading politicians -- like Dick Cheney and George Bush -- undertake a bizarre owl ritual. Ronson's investigations, by turns creepy and comical, reveal some alarming things about the looking-glass world of "us" and "them." *Them* is a deep and fascinating look at the lives and minds of extremists. Are the extremists onto something? Or is Jon Ronson becoming one of them?

The African Trilogy Mar 08 2021 Chinua Achebe is considered the father of African literature in English, the writer who 'opened the magic casements of African fiction' for an international readership. Following the 50th anniversary of the publication of his ground-breaking *Things Fall Apart*, Everyman republish Achebe's first and most famous novel alongside *No Longer at Ease* and *Arrow of God*, under the collective title *The African Trilogy*. In *Things Fall Apart* the individual tragedy of Okonkwo, 'strong man' and tribal elder in the Nigeria of the 1890s is intertwined with the transformation of traditional Igbo society under the impact of Christianity and colonialism. In *No Longer at Ease*, Okonkwo's grandson, Obi, educated in England, returns to a civil-service job in colonial Lagos, only to clash with the ruling elite to which he now believes he belongs. *Arrow of God* is set in the 1920s and explores the conflict from the two points of view - often, but not always, opposing - of Ezeulu, an Igbo priest, and Captain Winterbottom, a British district officer. In spare and lucid prose, Achebe tells a universal tale of personal and moral struggle in a changing world which continues to resonate in Africa today and has captured the imaginations of readers everywhere.

Going to Pieces Without Falling Apart Aug 01 2020 An intimate guide to self-acceptance and discovery that offers a Buddhist perspective on wholeness within the framework of a Western understanding of self. For decades, Western psychology has promised fulfillment through building and strengthening the ego. We are taught that the ideal is a strong, individuated self, constructed and reinforced over a lifetime. But Buddhist psychiatrist Mark Epstein has found a different way. *Going to Pieces Without Falling Apart* shows us that happiness doesn't come from any kind of acquisitiveness, be it material or psychological. Happiness comes from letting go. Weaving together the accumulated wisdom of his two worlds--Buddhism and

Western psychotherapy—Epstein shows how "the happiness that we seek depends on our ability to balance the ego's need to do with our inherent capacity to be." He encourages us to relax the ever-vigilant mind in order to experience the freedom that comes only from relinquishing control. Drawing on events in his own life and stories from his patients, *Going to Pieces Without Falling Apart* teaches us that only by letting go can we start on the path to a more peaceful and spiritually satisfying life.

Why Nations Fail Apr 28 2020 Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became

accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions? *Why Nations Fail* will change the way you look at—and understand—the world.
