Going Big by Getting Small Dec 03 2019 *Going Big by Getting Small* examines how the United States Special Operations Forces apply operational art, the link between tactics and strategy, in the non-wartime, steady-state environments called Phase Zero. With revised and innovative operational art constructs, US Special Operations offer scalable and differentiated strategic options for US foreign policy goals. This book analyzes light footprint special operations approaches in Yemen, Indonesia, Thailand, and Colombia. When a large military presence may be inappropriate or counterproductive, Colonel Brian Petit makes the case for fresh thinking on Phase Zero operational art as applied by small, highly skilled, joint-force teams coupled with interagency partners. The past decade (2002-2012) of operations focused on large-scale, post-conflict counterinsurgency. Less publicized, but no less important in this same decade, was the emerging application of nuanced campaigns, actions, and activities in Phase Zero. These efforts were led or supported by special operations in countries and regions contested, but not at war. This book fills a gap in the literature of how to adapt the means, method, and logic of US military foreign engagements in a diplomacy-centric world with rapidly shifting power paradigms. *Going Big by Getting Small* is not a yarn on daring special operations raids nor a call for perpetual war. It is the polar opposite: this book contemplates the use of discreet engagements to sustain an advantageous peace, mitigate conflict, and prevent crises.

Arts Integration and Special Education Feb 26 2022 *Arts Integration and Special Education* contributes to research, policy, and practice by providing a theory of action for studying how linguistic, cognitive, and affective student engagement relates to arts integrated learning contexts and how these dimensions of engagement influence content area and literacy learning. *Arts Integration and Special Education* connects the interdisciplinary framework in human development and linguistics, special education, and urban education with primary action research by special educators trained in arts integration, working in an inclusive urban charter school with middle school age students. Upper elementary to middle-grade level student learning is relatively understudied and this work contributes across fields of special education and urban education, as well as arts education. Moreover, the classrooms in which the action research occurs are comprised of students with a diverse range of abilities and needs. The book's interdisciplinary model, which draws on developmental and educational psychology, special education, and speech/language pathology research and practice, is the first to posit explanations for how and why AI contexts facilitate learning in students with language and sensory processing disorders, and those at-risk for school failure due to low socioeconomic status conditions.

Story Drama in the Special Needs Classroom Jul 30 2019 Introducing drama to the learning experience is guaranteed to enrich a child's development, and is an especially effective approach for children with special educational needs, including those with autism spectrum disorders. This practical handbook offers teachers an array of simple and easy-to-implement theatrical techniques that will enhance students' learning and encourage artistic expression. The author demonstrates how dramatic play doesn't have to be restricted to drama lessons and can be applied to a diverse range of school subjects and recreational settings. 'The Little Red Hen', for example, covers themes that are relevant to literacy (rhyming and rhythm), maths (counting seeds), science (discussing farming), and art lessons (designing costumes). Step-by-step lesson plans take teachers through every aspect of running fun and engaging story dramas, including warm ups, movement, songs and props. Handy tips throughout suggest ideas for developing the plays further and ways to adapt them according to the needs of the group. This book will be an essential and comprehensive guide for anyone interested in drama as an educational tool in inclusive or special needs settings.

Special Interests in Art Therapy with Autistic People Oct 01 2019 Introducing the Special Interest Communication Theory (SICT) Facilitative Framework, this guide will help you to support autistic clients and meet their needs through special interests and pop culture. Turning away from a culture that has often sought to suppress autistic special interests, Stallings asks that therapists meet autistic children and adults on their own terms. Creating an autism positive environment and engaging with special interests - from video games to K-Pop - builds rapport and helps identify therapeutic goals. Jessica Woolhiser Stallings combines this practical guide to her evidence-based framework with an overview of the history and applications of therapies and arts therapies used with autism. From a perspective that respects autistic self-advocacy and the role of art therapy in supporting individual emotional health, this guide offers tools to address anxiety, social interaction, communication, identity and more.

Hip-Hop, Art, and Visual Culture Jul 22 2021 Visual art has been tied to hip-hop culture since its emergence in the 1970s. Commentary on these

initial connections often emphasizes the importance of graffiti and fashion during hip-hop's earliest days. Forty years later, hip-hop music has grown into a billion-dollar global industry, and its influence on visual art and society has also expanded. This book-length printed edition of *Arts* collects essays by scholars who explore this evolving influence through their work in art education, cultural theory, and visual culture studies. The topics covered by these authors include discussions on identity and cultural appropriation, equity and access as represented in select works of art, creativity and copyright in digital media, and the use of fine art tropes within the sociocultural history of hip-hop. As a collected volume, these essays make potentially important contributions to broadening the narrative on art education and hip-hop beyond the topics of graffiti, fashion, and the use of cyphers in educational contexts.

Addressing Special Educational Needs and Disability in the Curriculum: Art Aug 03 2022 The SEND Code of Practice (2015) reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making art lessons accessible and interesting for all pupils, including those with special needs. The authors draw on a wealth of experience to share their understanding of special educational needs and disabilities and show how the art teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of art teaching, this book will enable teachers to: develop students' understanding, appreciation and enjoyment of art and design; advance students' sense of enquiry about visual and tactile experiences; help pupils to realise their creative intentions, through the development of technical competence and manipulative skills; provide opportunities for personal and imaginative enquiry; sample a variety of art and design projects to use in their own lessons; plan the classroom layout and display to enhance learning; successfully train, and fully use the support of, their teaching assistants. An invaluable tool for continuing professional development, this text will be essential for secondary art teachers (and their teaching assistants) seeking guidance specific to teaching art to all pupils, regardless of their individual needs. The book will also be of interest to secondary SENCOs, senior management teams and ITT providers. Full of practical ideas and inspiration, and supported by free online resources, this is an essential tool for art teachers and teaching assistants and will help to deliver successful, inclusive lessons for all pupils.

Antony Gormley Jun 28 2019 The sculptor Antony Gormley has become a household name, thanks to prominent public installations and major solo shows. Awarded the Turner Prize in 1994, he was knighted in 2014. From *The Angel of the North* (1998) to the hundred cast-iron life-size human figures that populate Crosby Beach in Liverpool, his works often explore the human body and its relationship to the space it inhabits. In this authoritative survey, the leading scientist and writer on cosmology Priyamvada Natarajan explores the role of space and light in Gormley's work. Michael Newman places Gormley within the British sculptural tradition, while Jeanette Winterson OBE adds her personal response to Gormley's sculpture. Martin Caiger-Smith introduces this body of work, exploring the roots of Gormley's practice, and the role that public sculpture can play in the twenty-first century. This book accompanies an exhibition at the Royal Academy of Arts, London (21 September to 3 December, 2019) AUTHORS: Martin Caiger-Smith teaches at the Courtauld Institute of Art and wrote a monograph on Antony Gormley in 2017. Priyamvada Natarajan is Professor of Astronomy and Physics at Yale University. Michael Newman is Professor of Art Writing at Goldsmiths, University of London. Jeanette Winterson OBE is an award-winning writer, who won the Whitbread Prize in 1985 for her novel *Oranges Are Not the Only Fruit*. SELLING POINTS: * New work from Antony Gormley, one of the best known and respected sculptors working today * Includes photography of works installed at the Royal Academy as part of a major exhibition 200 colour images
