[The Curtain and the Wall: A Modern Journey Along Europe's Cold War Border](#) Jul 04 2020 The Iron Curtain divided the continent of Europe, north to south, with the Berlin Wall as its most visible, infamous manifestation. Since the Cold War ended and these borders came down, Europe has transformed itself. New generations have grown up, freed from the tensions and restrictions of the past. But what do the Curtain and the Wall mean today? What has happened to the people and places they divided? What have they left in their wake? In a major new book, Timothy Phillips travels the route of the Iron Curtain from deep inside the Arctic Circle to the meeting point of Armenia, Azerbaijan and Turkey. He explores the borderlands where the clash of civilisations was at its most intense between 1945 and 1989, and where the world's most powerful ideologies became tangible in reinforced concrete and barbed wire. He looks at the new Europe that emerged from the ruins. The people he meets bear vivid witness to times of change. There are those who look back on the Cold War with nostalgia and affection. Others despise it, unable to forgive the hard and sometimes lost decades that their families, friends and nations endured. These old fault lines have much to tell us about Europe now and about our societies' current disputes - over borders, and about belonging and the meaning of progress. The Curtain and the Wall transports the reader across 5,000 kilometres of Europe and through eight decades, to show how one of the defining stories of the 20th century continues to shape our world today.

[Global Undergrounds](#) Sep 29 2022 Rest your eyes long enough on the skylines of Delhi, Guangzhou, Jakarta—even Chicago or London—and you will see the same remarkable transformation, building after building going up with the breakneck speed of twenty-first-century urbanization. But there is something else just as transformative that you won't see: sprawling networks of tunnels rooting these cities into the earth. Global Undergrounds offers a richly illustrated exploration of these subterranean spaces, charting their global reach and the profound—but often unseen—effects they have on human life. The authors shine their headlamps into an astonishing diversity of manmade underground environments, including subway systems, sewers, communications pipelines, storage facilities, and even shelters. There they find not only an extraordinary range of architectural approaches to underground construction but also a host of different cultural meanings. Underground places can evoke fear or hope; they can serve as sites of memory, places of work, or the hidden headquarters of resistance movements. They are places that can tell a city's oldest stories or foresee its most distant futures. They are places—ultimately—of both incredible depth and breadth, crucial to all of us topside who work as urban planners, geographers, architects, engineers, or any of us who take subway trains or enjoy fresh water from a faucet. Indeed, as the authors demonstrate, the constant flux within urban undergrounds—the nonstop circulation of people, substances, and energy—serves all city dwellers in myriad ways, not just with the logistics of day-to-day life but as a crucial part of a city's mythology.

[Enver Hoxha](#) Aug 17 2021 Stalinism, that particularly brutal phase of the Communist experience, came to an end in most of Europe with the death of Stalin in 1953. However, in one country - Albania - Stalinism survived virtually unscathed until 1990. The regime that the Albanian dictator Enver Hoxha led from 1944 until his death in 1985 was incomparably severe. Such was the reign of terror that no audible voice of opposition or dissent ever arose in the Balkan state and Albania became isolated from the rest of the world and utterly inward-looking. Three decades after his death, the spectre of Hoxha still lingers over the country, yet many people – inside and outside Albania – know little about the man who ruled the country with an iron fist for so many decades. This book provides the first biography of Hoxha available in English. Using unseen documents and first-hand interviews, journalist Blendi Fevziu pieces together the life of a tyrannical ruler in a biography which will be essential reading for anyone interested in Balkan history and communist studies

Step into the 501 Facts Factory for a whirlwind world tour!

**Architecture and the Paradox of Dissidence** Sep 25 2019 *Architecture and the Paradox of Dissidence* maps out and expands upon the methodologies of architectural action and reinvigorates the concept of dissent within the architectural field. It expands the notion of dissidence to other similar practices and strategies of resistance, in a variety of historical and geographical contexts. The book also discusses how the gestures and techniques of past struggles, as well as 'dilemmas' of working in politically suppressive regimes, can help to inform those of today. This collection of essays from expert scholars demonstrates the multiple responses to this subject, the potential and dangers of dissidence, and thus constructs a robust lexicon of concepts that will point to possible ways forward for politically and theoretically committed architects and practitioners.

**The Infernal Library** Dec 29 2019 "A mesmerizing study of books by despots great and small, from the familiar to the largely unknown." —The Washington Post A darkly humorous tour of "dictator literature" in the twentieth century, featuring the soul-killing prose and poetry of Hitler, Mao, and many more, which shows how books have sometimes shaped the world for the worse Since the days of the Roman Empire dictators have written books. But in the twentieth-century despots enjoyed unprecedented print runs to (literally) captive audiences. The titans of the genre—Stalin, Mussolini, and Khomeini among them—produced theoretical works, spiritual manifestos, poetry, memoirs, and even the occasional romance novel and established a literary tradition of boundless tedium that continues to this day. How did the production of literature become central to the running of regimes? What do these books reveal about the dictatorial soul? And how can books and literacy, most often viewed as inherently positive, cause immense and lasting harm? Putting daunting research to revelatory use, Daniel Kalder asks and brilliantly answers these questions. Marshalled upon the beleaguered shelves of The Infernal Library are the books and commissioned works of the century's most notorious figures. Their words led to the deaths of millions. Their conviction in the significance of their own thoughts brooked no argument. It is perhaps no wonder then, as Kalder argues, that many dictators began their careers as writers.

**Concrete Mushrooms** Oct 31 2022 During Albania's period under the rule of the Marxist-Leninist Enver Hoxha between 1945 and 1985, some 750,000 bunkers were constructed all over the Albanian landscape. All are rounded and mushroom-like in design, and remain as a legacy of Hoxha's fear-based isolationist policies. The book contains descriptions and photographs of variously located bunkers, as well as information relating to their potential for use today.

**Design as Learning** Sep 17 2021 Why do design? What is design for? These are forward-looking questions for a creative discipline that seems more slippery to define than ever. In a world of dwindling natural resources, exhausted social and political systems, and an overload of information there are many urgent reasons to reimagine the design discipline, and there is a growing need to look at design education. Learning and unlearning should become part of an on-going educational practice. We need new proposals for how to organise society, how to structure our governments, how to live with, not against, the planet, how to sift fact from fiction, how to relate to each other, and frankly, how to simply survive. The 4th Istanbul Design Biennial, and this publication Design as Learning ask: can design and design education provide these critical ideas and strategies? -- Back cover.

**Seasons With Sojourners** Apr 12 2021 “DR. REITZUG SHARES AN AMAZINGLY WRITTEN COLLECTION OF HIS EXPERIENCES THAT HAVE IMPACTED MANY OF THE LESS FORTUNATE ... AN INSPIRING EXAMPLE OF AN UNSELFISH LIFE COMMITTED TO THOSE OFTEN LIVING ON THE EDGE.” - DICK FREDERICK, MEDICAL TEAMS INTERNATIONAL (Ret.) “Pushing carts, pulling suitcases, carrying babies, and dragging old folks, the endless procession in winter coats and mud-caked boots struggles up wintry hills. Gaunt faces reflect the silence that pervades when there are no more words to shout, when the well of tears has been drained, and the deluge of grief has drowned all other feeling. In a funeral cortège for a country and a way of life, the outcasts trudge on, mile after mile, hour after hour. At the top of a knoll, a weed-covered marker mutely announces the border of Albania. An Associated Press photographer standing next to it snaps a picture of the latest refugees from genocide.” Three days later the picture became front page news. Seeing it awakened threads to Dr. Reitzug’s refugee past. In the anguished faces he saw his own family’s season on the run. Moved, he soon found himself practicing medicine in refugee camps and in the hard places of disaster. Traveling by canoe, helicopter, Mekong River Speedboat, Land Rover, and Russian Jeep where there were no roads, Dr. Reitzug found heartache and joy, dodged danger, and ministered to the sojourners of our days in their season of need.

**Managing the Undesirables** May 14 2021 `An impassioned and tireless explorer of "useless" and hence "undesirable" populations, Michel Agier asks here about their future: how can they be returned to the human family, brought back from non-existence into the social world, from the camp to the town, from a life without time into history? How can they rediscover a place on the map of the world, and pass from the status of reject to that of subject? Urgent and indispensable reading for all who reflect on action to be taken, or are called on to take such action.' Zygmunt Bauman --

**Culture: urban future** Oct 07 2020 Report presents a series of analyses and recommendations for fostering the role of culture for sustainable development. Drawing on a global survey implemented with nine regional partners and insights from scholars, NGOs and urban thinkers, the report offers a global overview of urban heritage safeguarding, conservation and management, as well as the promotion of cultural and creative industries, highlighting their role as resources for sustainable urban development. Report is intended as a policy framework document to support governments in the implementation of the 2030 Agenda for Sustainable Urban Development and the New Urban Agenda.

**Global Education Monitoring Report 2020** Sep 05 2020 This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

**METAMORPHOSIS** Mar 12 2021 To strengthen his own political position, Albania's dictator Enver Hoxha (who ruled from 1944 to 1985), convinced his people that the outside world wished to invade their communist 'paradise'. Unable to afford advanced technological deterrents during the Cold War years, the country's communist regime built a costly and extensive network of military bunkers, allocating huge physical and economic resources in a frenzy of construction. Today the people of Albania reuse and recycle these in ways that are both extraordinary and varied: as cafes, homes, restaurants, swimming pools, barns, bridges and water tanks. Over several years Robert Hackman has photographed these strange mushroom-like structures which have now also become an element in Albania's burgeoning tourism industry.

**Re-inhabiting Cold War Sites** Aug 29 2022 In the north-east of Italy the sites of the Cold War represent an excellent opportunity to enhance the landscapes and cultures of the places where they are located. By their nature these sites were part of an international and intercontinental technological and military context. Gathering theoretical insights and design practice for the enhancement of these important sites, this book collects different international experiences around the theme of the reuse and architectural design of recently abandoned military areas to try to awaken attention to these important territorial signs that are in danger of disappearing.

**The Islamic Review** Oct 26 2019

**World Development Report 2009** May 02 2020 Rising densities of human settlements, migration and transport to reduce distances to market, and specialization and trade facilitated by fewer international divisions are central to economic development. The transformations along these three dimensions density, distance, and division are most noticeable in North America, Western Europe, and Japan, but countries in Asia and Eastern Europe are changing in ways similar in scope and speed. 'World Development Report 2009: Reshaping Economic Geography' concludes that these spatial transformations are essential, and should be encouraged. The conclusion is not without controversy. Slum-dwellers now number a billion, but the rush to cities continues. Globalization is believed to benefit many, but not the billion people living in lagging areas of developing nations. High poverty and mortality persist among the world's 'bottom billion', while others grow wealthier and live longer lives. Concern for these three billion often comes with the prescription that growth must be made spatially balanced. The WDR has a different message: economic growth is seldom balanced, and efforts to spread it out prematurely will jeopardize progress. The Report: documents how production becomes more concentrated spatially as economies grow. proposes economic integration as the principle for promoting successful spatial transformations. revisits the debates on urbanization, territorial development, and regional integration and shows how today's developers can reshape economic geography.

There are also sections on foreign and defense policy, economy, culture, future and a lengthy bibliography.

**Self-Orientalization in South East Europe** Jun 22 2019 The collapse of communist systems in South East Europe resulted in a landscape to be newly arranged. Diverse forces compete to capture the popular energies released by the embrace of old and new identities. Deficits of modernization in a post communist nexus have deepened cultural asymmetries and challenge EU integration in new ways. Drives to rule of the “strong hand”, feod-like patron-client relations, “self-orientalization” as result of dilettante “social engineering” and unrealistic cultural politics increase the entropy of transition. Plamen K. Georgiev discusses the most controversial issues of a possible accession of Turkey into EU and its impact on a number of collective identities as Bulgaria, Macedonia, Romania, Croatia, vulnerable to Islamic fundamentalism, but also new breeds of nationalisms. This comparative study prompts apt ideas for EU coordinated national politics, fostering its cultural homogeneity and integrity in a global world of rising risks and new responsibilities.

**That Greece Might Still be Free** Jan 10 2021 When in 1821, the Greeks rose in violent revolution against the rule of the Ottoman Turks, waves of sympathy spread across Western Europe and the United States. More than a thousand volunteers set out to fight for the cause. The Philhellenes, whether they set out to recreate the Athens of Pericles, start a new crusade, or make money out of a war, all felt that Greece had unique claim on the sympathy of the world. As Byron wrote, 'I dreamed that Greece might Still be Free'; and he died at Missolonghi trying to translate that dream into reality. William St Clair's meticulously researched and highly readable account of their aspirations and experiences was hailed as definitive when it was first published. Long out of print, it remains the standard account of the Philhellenic movement and essential reading for any students of the Greek War of Independence, Byron, and European Romanticism. Its relevance to more modern ethnic and religious conflicts is becoming increasingly appreciated by scholars worldwide. This new and revised edition includes a new Introduction by Roderick Beaton, an updated Bibliography and many new illustrations.

**Life is War** Jun 02 2020 The book reveals how everyday people survived political persecution and oppression, and champions human resilience in the face of unrelenting political terror. In *Life in War*, the reader accompanies Shannon Woodcock, the author and historian, through intimate interviews with six Albanian men and women. We hear how everyday people survived shocking living conditions, political persecution and oppression dependent on ethnicity, political status, gender and sexuality. This is a thorough and vivid history of lived communism in Albania, charting political and ideological shifts through the experiences of those who survived. *Life is War* stands as remarkable and profound testimony to the resilience of humanity in the face of unrelenting political terror. An accurate and precise historical work, engagingly rendered from life narratives, it plunges the reader into the difficult emotional truths that are at the core of remembering Albania's communist past. *Life is War* is a valuable contribution to studies of everyday life under communism and dictatorship. Eloquent and expertly researched, it will appeal to readers interested in life histories, war, communism, European history and trauma studies.

**Nationalism, Myth, and the State in Russia and Serbia** Nov 07 2020 This book examines the role of Russian and Serbian nationalism in dissolution of the Soviet Union and Yugoslavia in 1991.

**Rebels, Believers, Survivors** May 26 2022 Thanks to its half-century under Communism, as well as its little-known language, Albania has suffered from neglect and a sense of isolation. Yet, as this study helps to show, the Albanian lands have a long history of interaction with others. They have been a meeting-ground of Christianity and Islam; a channel through which Venice connected with the Ottoman Balkans; a place of interest to the Habsburgs; and a focus for the ambitions of neighbouring powers in the late Ottoman period. Albanians themselves could have many different identities. The studies in this volume, by one of the world's leading experts on Albanian history, range from the fifteenth century to the twentieth, taking in politics, social history, religion and diplomacy. Each is based on original research; the longest, on Ali Pasha, uses a wealth of manuscript material to tell, for the first time, the full story of the vital role he played in the international politics of the Napoleonic Wars. Other studies bring to life ordinary individuals hitherto unknown to history: women hauled before the Inquisition, for example, or the author of the first Albanian autobiography. Some of these studies have been printed before (several in hard-to-find publications, and one only in Albanian), but the greater part of this book appears here for the first time. This is not only a landmark publication for readers interested in south-east European history. It also engages with many broader issues, including religious conversion, 'crypto-Christianity' among Muslims, methods of enslavement within the Ottoman Empire, and the nature of modern myth-making about national identity.

**Albania on the Move** Dec 09 2020 "This academic and personal journey into Albania's post-communist society examines the links between internal and international migration in one of Europe's poorest countries. The author follows rural migrants to urban destination both within Albania and in neighboring Greece. Their lives and experiences are captured in 150 interviews, alongside group discussions and the ethnographic observations. This rich empirical material is analysed with reference to an extensive body of literature. The author's own experience as migrant and reflections as a researcher studying her own communities of origin add valuable insights. The result is a demonstration of the complexity of the links between internal and international migration, especially from a development perspective."--back cover.
