Environmental Management Oct 25 2021 Environmental Management, with few exceptions, is not taught in colleges, universities, technical and management institutions. The result is that the students of these institutions lack knowledge and sensitisation to environmental issues. They lack the awareness of environmental consequences of human actions. To fill this void, Environmental Management is timely. The book provides background material to various environmental problems. It surveys a range of topics from sustainable development and ecological imperatives to strategies for managing environmental issues. The problem of pollution, waste management, biological diversity and forest management have been analysed in the light of laws and international conventions and treaties. The book brings out the realities about the damage being inflicted on the environment and our exploitive attitude to nature. It concludes with discussion and debate about values in nature and touches upon the subject of metamorphosis of the whole trajectory of attitudes in modern societies.

The Haze Problem in Southeast Asia May 08 2020 Despite the efforts of Southeast Asian governments and of ASEAN, transboundary haze continues to be a major environmental problem in Southeast Asia. This book demonstrates that the issue is complex, and explains why efforts to solve the problem in purely political terms are ineffective, and likely to continue to be ineffective. The book shows how state-led, state-incentivised agribusiness development lies at the heart of the problem, leading to a large rise in palm oil production, with extensive clearing of forests, leading to deliberate or accidental fires and the resulting haze. Moreover, although the forest clearing is occurring in Indonesia, many of the companies involved are Malaysian and Singaporean; and,

further, many of these companies have close relationships with the politicians and officials responsible for addressing the problem and who thereby have a conflict of interest. The author concludes by discussing the huge difficulties involved in overturning this system of 'patronage politics'.

On a Global Mission: The Automobiles of General Motors International Volume 3 Apr 30 2022

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Who Was Who on TV Apr 06 2020 The information herein was accumulated of fifty some odd years. The collection process started when TV first came out and continued until today. The books are in alphabetical order and cover shows from the 1940s to 2010. The author has added a brief explanation of each show and then listed all the characters, who played the roles and for the most part, the year or years the actor or actress played that role. Also included are most of the people who created the shows, the producers, directors, and the writers of the shows. These books are a great source of trivia information and for most of the older folk will bring back some very fond memories. I know a lot of times we think back and say, "Who was the guy that played such and such a role?" Enjoy!

Automotive FDI in Emerging Europe Jun 08 2020 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower-wage labour and significant government incentives, the world's largest automakers have launched more

than 20 passenger car assembly complexes in CE nations, with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy-makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development.

Business Strategy In Asia: A Casebook Nov 06 2022 This book fills an important underserved niche in the strategy arena. Written by expert researchers on Asian business, it presents a broad selection of cases addressing a range of current and important issues in business strategy. The cases have been carefully chosen to represent all the different dimensions of diversity within Asia: geographic (countries), industries, and firm types. More than half of them are either new to or revised for this edition. The cases present an array of large and small firms, high-technology and new-economy firms, and those in emerging as well as mature industries, achieving success and suffering failure in a variety of business environments.

Indonesia-Taiwan Economic Cooperation Arrangement: Is it Feasible? May 20 2021 Center for Political Studies, Indonesian Institute of Science (P2P LIPI) and Chung Hua Institution for Economic Research (CIER) have been undertaking joint study on Indonesia-Taiwan economic and trade relations since 2011. From the first year of the joint study, the research teams have explored several potential sectors that Indonesia and Taiwan could develop in a more beneficial economic framework, such as agriculture, SMEs, human resource development, electronics and automotive. It is common that in any economic transaction, each party will try to get as much as possible benefits. Although, in reality, different conditions will produce different advantages. This situation is also reflected in the case of Indonesia and Taiwan economic and trade relations, in which Taiwan seems to gain more benefits and opportunities rather than Indonesia, because of its high economic performance, advanced technology, and good quality of human resources. P2P LIPI continues the project in 2012 under the focus on "Feasibility study of ECA between Indonesia and Taiwan" by using two methodologies (or tools). First, Global Trade Analysis Project (GTAP) is to analyze the impact of ECA in the general equilibrium and the aggregated level. Second, Single Market Partial Equilibrium Simulation Tool (SMART) is to analyze impact the ECA in the partial equilibrium and disaggregated level. The Feasibility study covers two main aspects: (1) potential impacts of ECA Indonesia and Taiwan's trade relations. (2) potential regulatory cooperation between the two economic entities under the scheme of ECA. To deal with the asymmetric positions between Indonesia and Taiwan, government, civil society and private sector must have the same knowledge and understanding on how to reduce the gaps. This study has also shown a fruitful economic and trade relations between Indonesia Taiwan, although there are some conditions that need to be considered. First, since Indonesia has no diplomatic ties with Taiwan, the process of ECA will be much more difficult. The preparational stage will be the most important part to negotiate any policy on a single commodity in details, including environmental factor. This is primarily to reduce negative impact from Taiwan's FDI in Indonesia. Indonesia must pay more attention in the domestic priorities (trade and investment) that must be negotiated carefully in the context of ECA. This has to be the focus of the

Indonesia's government policies. Economic growth has to be parallel with the distribution of income. Second, Indonesia generally earns minimum benefits from the ongoing FTAs. Therefore, ECA has to be constructed for producing more economic advantages for Indonesia. The most possible scenario under ECA is be strengthening the "Private to Private" (P to P) or "Business to Business" (B to B) ties. The political reality remains that China has taken different political treatment to Taiwan. In the regional context, ASEAN also respects to the One China Policy, although Taiwan has its own interpretation about the policy. In the context of ECFA (Economic Cooperation Framework Agreement), China and Taiwan, have different interpretations about ECFA.

The Motor Industry of Great Britain Nov 01 2019

Multinational Corporations and Local Firms in Emerging Economies Jul 10 2020 In order for foreign direct investment to have deep and lasting positive effects on host countries, it is essential that multinational corporations have close direct and indirect interaction with local firms. A valuable addition to the emerging literature on multinational-local firm interfaces, this book provides a number of case studies from emerging economies that examine such mutually beneficial business relationships and the policy measures necessary to support them.

Korupsi Kepresidenan Sep 04 2022 Istana Kepresidenan Republik Indonesia, selama lebih dari 30 tahun terakhir, menjadi lahan subur bagi berkembangnya korupsi dan kroniisme yang menyengsarakan ekonomi negara. Dengan dukungan kuat partai politik yang berkuasa dan militer, Istana ramai dikerubuti para koruptor yang mencari sesuap nasi dari kucuran dana-dana haram yang sesungguhnya merupakan hak rakyat Indonesia. Sejak era Soeharto, megakorupsi di Indonesia telah tumbuh sedemikian rupa menjadi jalinan oligarki yang sulit diputus mata rantainya. Presiden-presiden ber-ikutnya juga tak luput dari jaring-jaring oligarki tersebut, yang terus dipertahankan dan diperbarui melalui persekutuan-persekutuan terselubung lewat berbagai sektor ekonomi dan politik.

Vehicle and Automotive Engineering Jun 01 2022 This book presents the proceedings of the first vehicle engineering and vehicle industry conference. It captures the outcome of theoretical and practical studies as well as the future development trends in a wide field of automotive research. The themes of the conference include design, manufacturing, economic and educational topics.

Marketing In India, Cases And Readings - Dec 15 2020 This book provides a comprehensive overview of the current marketing environment in India. It examines the changing dynamics of marketing management against the backdrop of globalization and liberalization, analysing how both marketers and consumers are adapting to radical changes. Insightful perspectives on key issues including market segmentation, brand strategy, product planning, advertising, pricing and distribution strategies as well as challenges of rural marketing are given. This Fourth Edition boasts of incisive coverage of all contemporary concepts and formats of marketing, including retailing, Internet marketing and telemarketing. It is further enriched by varied case studies that are drawn from the Indian experience and will go a long way to inculcate skills of analysis, logical thinking and decision making in students. Valuable not only to students and teachers of marketing management, the book is a must-have for practising managers who want to stay abreast with the latest developments in their field.
