The State of the World's Children 2005 Nov 05 2020 The 2005 edition of UNICEF's State of the World's Children focuses on how poverty, conflict and HIV/AIDS threaten the idea of childhood as a period of time for children to grow and develop to their full potential. In several regions and countries, some of the gains made since the adoption of the Convention on the rights of the child in 1989 are in danger of reversal. The rights of over 1 billion children are violated by being severely underserved of one or more of the basic services required to survive, grow and develop.

Ad \$ Summary Nov 17 2021 Advertising expenditure data across ten media: consumer magazines, Sunday magazines, newspapers, outdoor, network television, spot television, syndicated television, cable television, network radio, and national spot radio. Lists brands alphabetically and shows total ten media expenditures, media used, parent company and PIB classification for each brand. Also included in this report are industry class totals and rankings of the top 100 companies of the ten media.

The State of the World's Children 2006 Jul 13 2021 This year's report highlights the needs of the millions of children who have not been the beneficiaries of past gains, the ones who are excluded or "invisible". As the world presses ahead with the strategies, initiatives and financing needed to realize the vision of the Millennium Declaration, it must not allow these children to be forgotten.

Clarence H. White and His World May 11 2021 Restoring a gifted art photographer to his place in the American canon and, in the process, reshaping and expanding our understanding of early 20th-century American photography Clarence H. White (1871-1925) was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo-Secession. This beautiful publication offers a new appraisal of White's contributions, including his groundbreaking aesthetic experiments, his commitment to the ideals of American socialism, and his embrace of the expanding fields of photographic book and fashion illustration, celebrity portraiture, and advertising. Based on extensive archival research, the book challenges the idea of an abrupt rupture between prewar, soft-focus idealizing photography and postwar "modernism" to paint a more nuanced picture of American culture in the Progressive era. Clarence H. White and His World begins with the artist's early work in Ohio, which shares with the nascent Arts and Crafts movement the advocacy of hand production, closeness to nature, and the simple life. White's involvement with the Photo-Secession and his move to New York in 1906 mark a shift in his production, as it grew to encompass commercial portraiture and an increasing commitment to teaching, which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography. The book also incorporates new formal and scientific analysis of White's work and techniques, a complete exhibition record, and many unpublished illustrations of the moody outdoor scenes and quiet images of domestic life for which he was revered.

ABD News Jan 19 2022

The Fullness of Time Apr 29 2020 Over the course of the fifteenth century, the Low Countries transformed Europe's economic, political and cultural life. Innovative and influential cultural practices emerged across the region in flourishing courts, towns, religious houses, guilds and confraternities. Whether in visual culture, music, devotional practice, or communal rituals, the thriving cultures of the Low Countries wrestled with time, both

through explicit measurement and reflection, and in the rhythms of social and religious life. This book offers a deeper understanding of how time was structured and experienced by different constituencies through a series of detailed readings of diverse cultural objects and practices, ranging from woodcuts and painted altarpieces, to early print books, and to the use of polyphony in the liturgy. Individual chapters are devoted to life in the university towns of Louvain and Ghent, the liturgical rituals at Cambrai Cathedral, and the rich pageantry that marked the courts of Philip the Good and the new Burgundian rulers. What emerges is a complex temporal landscape in which devotional and secular practices and experiences merged into a new "fullness of time."

World Health Statistics 2009 Dec 18 2021 World Health Statistics 2009 contains WHO's annual compilation of data from its 193 member states, and includes a summary of progress towards the health-related millennium development goals and targets. This edition also contains a new section on reported cases of selected infectious diseases. It provides a comprehensive summary of the current status of national health and health systems including; mortality and burden of disease, causes of death, reported infectious diseases, health service coverage, risk factors, health systems resources, health expenditures, inequities and demographic and socioeconomic statistics. The section on inequities presents statistics on the distribution of selected health outcomes and interventions within countries, disaggregated by sex, age, urban and rural settings, wealth, and educational level. WHO presents World Health Statistics 2009 as an integral part of its ongoing effort to inform better measures of population health and national health systems.
