All the Time in the World Mar 14 2021 Entertaining, unexpected, and full of charm, the follow-up to Jessica Kerwin Jenkins's Encyclopedia of the Exquisite presents a miscellany of engaging stories, detailing the intriguing customs, traditions, and guilty pleasures pursued throughout the ages. All the Time in the World takes its cue from an iconic component of medieval life, the book of hours, which prescribed certain readings and contemplations for certain parts of the day throughout the year. Divided into more than seventy-five entries, All the Time in the World is brimming with witty bons mots, interesting etymologies, and arresting anecdotes encompassing an array of cultures and eras. Subjects covered include the daylong ceremony of laying a royal Elizabethan tablecloth; the radicalization of sartorial chic in 1890s Paris; Nostradamus's belief in the aphrodisiac power of jam; the sensuous practice of sniffing incense in fifteenth-century Japan; the American fascination with flaming desserts; the short-lived artistic discipline of "lumia," or visual music; the evolution of coffee from a religious ritual to a forbidden delight in the Middle East; Henriette d'Angeville's fearless and wine-fueled ascent of Mont Blanc; the elaborate treasure hunts concocted by London's Bright Young Things; and the musical revolution known as bebop. An antidote to the contemporary cult of "getting things done," All the Time in the World revives forgotten treasures of the past while inspiring a passion for good living in the present.

***Dwelling in the World* Dec 23 2021 By the early twentieth century, Chinese residents of the northern treaty-port city of Tianjin were dwelling in the world. Divided by nine foreign concessions, Tianjin was one of the world's most colonized and cosmopolitan cities. Residents could circle the globe in an afternoon, strolling from a Chinese courtyard house through a Japanese garden past a French Beaux-Arts bank to dine at a German café and fall asleep in a British garden city-style semi-attached brick house. *Dwelling in the World* considers family, house, and home in Tianjin to explore how tempos and structures of everyday life changed with the fall of the Qing Empire and the rise of a colonized city. Elizabeth LaCouture argues that the intimate ideas and practices of the modern home were more important in shaping the gender and status identities of Tianjin's urban elites than the new public ideology of the nation. Placing the Chinese home in a global context, she challenges Euro-American historical notions that the private sphere emerged from industrialization.**

She argues that concepts of individual property rights that emerged during the Republican era became foundational to state-society relations in early Communist housing reforms and in today's middle-class real estate boom. Drawing on diverse sources from municipal archives, women's magazines, and architectural field work to social surveys and colonial records, Dwelling in the World recasts Chinese social and cultural history, offering new perspectives on gender and class, colonialism and empire, visual and material culture, and technology and everyday life.

Whether you're an avid student of the Bible or a skeptic of its relevance, *The Book That Made Your World* will transform your perception of its influence on virtually every facet of Western civilization. Indian philosopher Vishal Mangalwadi reveals the personal motivation that fueled his own study of the Bible and systematically illustrates how its precepts became the framework for societal structure throughout the last millennium. From politics and science, to academia and technology, the Bible's sacred copy became the key that unlocked the Western mind. Through Mangalwadi's wide-ranging and fascinating investigation, you'll discover: What triggered the West's passion for scientific, medical, and technological advancement How the biblical notion of human dignity informs the West's social structure and how it intersects with other worldviews How the Bible created a fertile ground for women to find social and economic empowerment How the Bible has uniquely equipped the West to cultivate compassion, human rights, prosperity, and strong families The role of the Bible in the transformation of education How the modern literary notion of a hero has been shaped by the Bible's archetypal protagonist Journey with Mangalwadi as he examines the origins of a civilization's greatness and the misguided beliefs that threaten to unravel its progress. Learn how the Bible transformed the social, political, and religious institutions that have sustained Western culture for the past millennium, and discover how secular corruption endangers the stability and longevity of Western civilization.**

Endorsements: "This is an extremely significant piece of work with huge global implications. Vishal brings a timely message." (Ravi Zacharias, author, *Walking from East to West and Beyond Opinion*) "In polite society, the mere mention of the Bible often introduces a certain measure of anxiety. A serious discussion on the Bible can bring outright contempt. Therefore, it is most refreshing to encounter this engaging and informed assessment of the Bible's profound impact on the modern world. Where Bloom laments the closing of the American mind, Mangalwadi brings a refreshing optimism." (Stanley Mattson, founder and president, C. S. Lewis Foundation) "Vishal Mangalwadi recounts history in very broad strokes, always using his cross-cultural perspectives for highlighting the many benefits of biblical principles in shaping civilization." (George Marsden, professor, University of Notre Dame; author, *Fundamentalism and American Culture*)

Home in the World: A Memoir Dec 31 2019 From Nobel Prize winner
Amartya Sen, a long-awaited memoir about home, belonging, inequality,
and identity, recounting a singular life devoted to betterment of
humanity. The Nobel laureate Amartya Sen is one of a handful of people
who may truly be called "a global intellectual" (Financial Times). A
towering figure in the field of economics, Sen is perhaps best known for
his work on poverty and famine, as inspired by events in his boyhood
home of West Bengal, India. But Sen has, in fact, called many places
"home," including Dhaka, in modern Bangladesh; Kolkata, where he first
studied economics; and Trinity College, Cambridge, where he engaged
with the greatest minds of his generation. In Home in the World, these
"homes" collectively form an unparalleled and profoundly truthful vision
of twentieth- and twenty-first-century life. Here Sen, "one of the most
distinguished minds of our time" (New York Review of Books),
interweaves scenes from his remarkable life with candid philosophical
reflections on economics, welfare, and social justice, demonstrating how
his experiences—in Asia, Europe, and later America—vitaly informed his
work. In exquisite prose, Sen evokes his childhood travels on the rivers of
Bengal, as well as the "quiet beauty" of Dhaka. The Mandalay of Orwell
and Kipling is recast as a flourishing cultural center with pagodas,
palaces, and bazaars, "always humming with intriguing activities." With
characteristic moral clarity and compassion, Sen reflects on the
cataclysmic events that soon tore his world asunder, from the Bengal
famine of 1943 to the struggle for Indian independence against colonial
tyranny—and the outbreak of political violence that accompanied the end
of British rule. Witnessing these lacerating tragedies only amplified Sen's
sense of social purpose. He went on to study famine and inequality,
wholly reconstructing theories of social choice and development. In 1998,
he was awarded the Nobel Prize for his contributions to welfare
economics, which included a fuller understanding of poverty as the

deprivation of human capability. Still Sen, a tireless champion of the dispossessed, remains an activist, working now as ever to empower vulnerable minorities and break down walls among warring ethnic groups. As much a book of penetrating ideas as of people and places, Home in the World is the ultimate “portrait of a citizen of the world” (Spectator), telling an extraordinary story of human empathy across distance and time, and above all, of being at home in the world.

All the Time in the World Jan 12 2021 From a master of modern American letters comes an enthralling collection of brilliant short fiction about people who, as E. L. Doctorow notes in his Preface, are somehow “distinct from their surroundings—people in some sort of contest with the prevailing world.” Containing six unforgettable stories that have never appeared in book form, and a selection of previous classics, All the Time in the World is resonant with the mystery, tension, and moral investigation that distinguish the fiction of E. L. Doctorow.
