Comptabilité financière en IFRS Oct 01 2019 1. Contenu Ceci n'est pas un livre qui commente les normes IFRS, mais un manuel d'initiation à la comptabilité qui intègre les nouvelles normes. En 11 chapitres, il aborde tous les thèmes nécessaires à la préparation et à la présentation des états financiers en IFRS: présentation des normes, du système comptable et des principaux états financiers, produits et charges, actif courant et non courant, moyens de financement, tableaux de synthèse, analyse des états... Il ne requiert pas de connaissance comptable particulière. Le référentiel retenu est celui des normes comptables, mais les différences éventuelles avec le PCG (le plan comptable général français) sont mentionnées chaque fois que c'est nécessaire. 2. Démarche pédagogique L'ouvrage est très richement illustré: de nombreux exemples concrets illustrent la mise en pratique des principes généraux. Chaque notion, quelle que soit sa complexité, est accompagnée d'un exemple de numérotation simple montrant quelle est l'écriture comptable, quel est l'impact de l'opération sur les états financiers de l'entreprise. De nombreux extraits de rapports de sociétés en IFRS (Lafarge, Nestlé, Total, PSA) illustrent l'ouvrage et permettent de se familiariser avec la lecture des rapports annuels. Chaque chapitre est complété par un résumé et une série d'exercices.

Financial Reporting under IFRS Oct 25 2021 The International Financial Reporting Standards are quite different from other sets of accounting standards, and are fundamentally different from US-GAAP, in that they are based on principles, and not on detailed rules. Financial Reporting under IFRS: A topic-based approach offers a global perspective on IFRS by presenting the prescribed rationale and principles and illustrating them through numerous examples from large international companies. It aims to develop the fundamental skills necessary to read and use the information contained in all types of financial statements, through examples, activities, questions and answers. The book is broadly divided into three sections. Section one examines the structure of the Balance Sheet and the Income Statement, their links and the accounting mechanisms used to prepare them. Section two deals with the identification, evaluation and reporting of Balance Sheet items. Section three covers the use of financial statements to analyze a firm's performance and its risks. Throughout the book special topics are covered, including Derivatives and Hedge accounting (IAS 39), Business Combination (IFRS 3) and Operating Segments (IFRS 8). Financial Reporting under IFRS is ideally suited to the needs of students of accounting and financial reporting, but all users of financial statements, from creditors and investors to suppliers, customers, employees and governments will benefit from its concise, topic-based approach.
