Violence in Colombia Dec 17 2021 Colombia, one of South Americas oldest, middle-income democracies, has developed rapidly despite a fifty year "simmering" civil war and increasing levels of urban and rural crime and violence. In the past decade, however, the scale and intensity of violence has changed from a marginal conflict to generalized violence that now dominates the daily lives of most citizens. As remote guerilla activity has turned into country-wide "war," bringing in paramilitary groups, drug cartels, and other social actors, so too the causes of violence have changed. These have included both external events such as the collapse of the Cold War, as well as internal changes relating to economic liberalization, coal and oil developments and the impact of the global trade in illicit narcotics. Violence in Colombia is highly complex not only because of the different categories, but also due to its multiple causes. This paper combines disparate existing theories to develop an integrated framework that identifies four different levels of causality: structural, institutional, interpersonal, and individual. It recognizes the mutually reinforcing role played by factors at different levels of causality. Underlying the causes of violence in Colombia is minimal state presence in many parts of the country, widespread corruption and impunity, high levels of societal acceptance of violence, and a regionally fragmented country.

*Hell's Angels* Oct 15 2021 Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell's Angels, that is—in this short work of nonfiction. "California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again." Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as *The New Yorker* pointed out, "For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work." As illuminating now as when originally published in 1967, *Hell's Angels* is a gripping portrait, and the best account we have of the truth behind an American legend.

**Valentine's Day Garden Flag** Aug 21 2019 What is Valentine's Day? Antique Valentine's card Antique Valentine's card Valentine's Day (or Saint Valentine's Day) is observed on February 14 each year. Today Valentine's Day is celebrated in many countries around the world, mostly in the West, although it remains a working day in all of them. The original "St. Valentine" was just a liturgical celebration of one or more early Christian saint named Valentinus. All the modern romantic connotations were added several centuries later by poets. You can use this Blank Lined Journals (110 Pages - 6 x 9 Inch) to jot down your thoughts or class notes, write your work at home, or present it as a gift to someone you love.

**Zen and the Art of Motorcycle Maintenance** Nov 16 2021 THE CLASSIC BOOK THAT HAS INSPIRED MILLIONS A penetrating examination of how we live and how to live better Few books transform a generation and then establish themselves as touchstones for the generations that follow. Zen and the Art of Motorcycle Maintenance is one such book. This modern epic of a man's search for meaning became an instant bestseller on publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, Zen and the Art of Motorcycle Maintenance becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.

**Motorized Obsessions** Jan 18 2022 2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

**How to Survive The End Of The World As We Know It** Jan 26 2020 This is the definitive guide on how to prepare for any crisis, from global financial collapse to a flu pandemic. It would only take one unthinkable event to disrupt our way of life. If there is a terrorist attack, a flu pandemic, or sharp currency devaluation, you may be forced to fend for yourself in ways you've never imagined. Where would you get water? How would you communicate with relatives? What would you use for fuel? Survivalist expert James Wesley, Rawles, editor of SurvivalBlog.com and a former US Army Intelligence officer, shares the essential tools and skills you will need for your family to survive, including how to find and build a retreat, store food, supply power, rear animals, administer medicine, barter, and defend your family. 'Save those wine corks. Burned cork makes quick and cheap face camouflage.' 'Store only foods with minimal spices. When you are surrounded by starving people, just heating up a can of spicy chili con carne could be a death warrant.' 'If you are on a budget, you might get away with a good-quality bolt-action rifle...'

*Best in Show* May 30 2020 Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of *The Dogist: Photographic Encounters with 1,000 Dogs* by Elias Weiss Friedman, *Dogs* by Lewis Blackwell and Tim Flach, and *Underwater Dogs* by Seth Casteel
