**No Place for Home** Sep 23 2021 This book was written to venture beyond interpretations of Cormac McCarthy's characters as simple, antinomian, and non-psychological; and of his landscapes as unrelated to the violent arcs of often orphaned and always emotionally isolated and socially detached characters. As McCarthy usually eschews direct indications of psychology, his landscapes allow us to infer much about their motivations. The relationship of ambivalent nostalgia for domesticity to McCarthy's descriptions of space remains relatively unexamined at book length, and through less theoretical application than close reading. By including McCarthy's latest book, this study offer the only complete study of all nine novels. Within McCarthy studies, this book extends and complicates a growing interest in space and domesticity in his work. The author combines a high regard for McCarthy's stylistic prowess with a provocative reading of how his own psychological habits around gender issues and family relations power books that only appear to be stories of masculine heroics, expressions of misogynistic fear, or antinomian rejections of civilized life.

Place/No-Place in Urban Asian Religiosity Oct 25 2021 This book discusses Asia's rapid pace of urbanization, with a particular focus on new spaces created by and for everyday religiosity. The essays in this volume – covering topics from the global metropolises of Singapore, Bangalore, Seoul, Beijing, and Hong Kong to the regional centers of Gwalior, Pune, Jaipur, and sites like Wudang Mountain – examine in detail the spaces created by new or changing religious organizations that range in scope from neighborhood-based to consciously global. The definition of “spatial aspects” includes direct place-making projects such as the construction of new religious buildings – temples, halls and other meeting sites, as well as less tangible religious endeavors such as the production of new “mental spaces” urged by spiritual leaders, or the shift from terra firma to the strangely concrete effervescence of cyberspace. With this in mind, it explores how distinct and blurred, and open and bounded communities generate and participate in diverse practices as they deliberately engage or disengage with physical landscapes/cityscapes. It highlights how through these religious organizations, changing class and gender configurations, ongoing political and economic transformations, continue as significant factors shaping and affecting Asian urban lives. In addition, the book goes further by exploring new and often bittersweet “improvements” like metro rail lines, new national highways, widespread internet access, that bulldoze – both literally and figuratively – religious places and force relocations and adjustments that are often innovative and unexpected. Furthermore, this volume explores personal experiences within the particularities of selected religious organizations and the ways that subjects interpret or actively construct urban spaces. The essays show, through ethnographically and historically grounded case studies, the variety of ways newly emerging religious communities or religious institutions understand, value, interact with, or strive to ignore extreme urbanization and rapidly changing built environments.

*No Place Like Home* May 20 2021 Comedy with a conscience. A laugh-out-loud mashup of romantic comedy, crime fiction, and satire: Dorothy Parker meets Dorothy L. Sayers. Perennially down-and-out socialite Camilla Randall a.k.a. "The Manners Doctor" is a magnet for murder, mayhem and Mr. Wrong, but she always solves the mystery in her quirky, but oh-so-polite way. Usually with more than a little help from her gay best friend, Plantagenet Smith. Doria Windsor, the uber-rich editor of Home decorating magazine loses everything, including her Ponzi-schemer husband, when their luxury wine-country home mysteriously goes up in flames. Homeless, destitute, presumed dead and branded a criminal, 59-yr-old Doria has a crash course in reality...and a second chance at love. Meanwhile, reluctant sleuth Camilla Randall is facing homelessness too, as Doria's husband's schemes unravel and take down innocent bystanders along the way. When the mysterious—and dangerously attractive—Mr. X. turns up at Camilla's bookstore looking for clues to the death of a missing homeless man, Camilla joins in the search. With the help of brave trio of homeless people and a little dog named Toto, Doria, Camilla and Mr. X journey to unmask the real killer and reveal the dark secrets of Doria's "financial wizard" husband. Anne. R. Allen weaves her usual blend of archetypal images (this time from The Wizard of Oz) with unique and wacky characters, hilarious situations, and laugh-out-loud one-liners that all somehow come together and make perfect sense at the end. *No Place Like Home* is the fourth of the Camilla Randall Mysteries, but can be read as a stand-alone novel. "Snarky, quirky, and hilarious!" "A warp-speed, lighthearted comedy mystery, *No Place Like Home* offers lasting laughs beneath which a message resounds – Being homeless is scary" "Don't miss this wild and wacky ride from the gorgeous Morro Bay and the Edna Valley wineries to the Big Sur coastline. *No Place For Monsters* Feb 03 2020 In this spellbinding, lavishly illustrated story that Diary of a Wimpy Kid author Jeff Kinney calls "wildly imaginative and totally terrifying," two unlikely friends face down their worst fears in order to stop their small town—and themselves—from disappearing. Levi and Kat are about to discover a very dark side to their neighborhood. Nothing ever seems out of place in the safe, suburban town of Cowslip Grove. Lawns are neatly mowed, sidewalks are tidy, and the sounds of ice cream trucks fill the air. But now . . . kids have been going missing—except no one even realizes it, because no one remembers them. Not their friends. Not their teachers. Not even their families. But Levi and Kat do remember, and suddenly only they can see why everyone is in terrible danger when the night air rolls in. Now it is up to Levi and Kat to fight it and save the missing kids before it swallows the town whole.

*No Place to Pee* Sep 04 2022 *No Place to Pee* is an intimate collection from a woman who spent 5,000 hours in a male-dominated industry. Margaret H. Piggott, a retired physical therapist worked as a laborer in Alaska on the

Klondike Highway and Alaskan Pipeline from 1975 to 1977. For the Klondike Highway, she worked on the brush-clearing, powder, and drill crews. On the pipeline, she worked in the shop at Chandalar, Beams and Anchors, detonating, culvert and insulation, and Butt List crews. Piggott's gender meant she had a rough time, right from her first footfall in Skagway, "a windy place with white caps on the water." But she'll tell you in the next breath that she also had good times on this rollicking adventure of risk and weather. Only the toughest women can work in this world, she discovered, but the pay was worth it. This memoir, presented in diary format and written in quick, confessional bursts, captures the immediacy and survival of a lone woman in a man's world.

A Biography of No Place May 08 2020 This is a biography of a borderland between Russia and Poland, a region where, in 1925, people identified as Poles, Germans, Jews, Ukrainians, and Russians lived side by side. Over the next three decades, this mosaic of cultures was modernized and homogenized out of existence by the ruling might of the Soviet Union, then Nazi Germany, and finally, Polish and Ukrainian nationalism. By the 1950s, this "no place" emerged as a Ukrainian heartland, and the fertile mix of peoples that defined the region was destroyed. Brown's study is grounded in the life of the village and shtetl, in the personalities and small histories of everyday life in this area. In impressive detail, she documents how these regimes, bureaucratically and then violently, separated, named, and regimented this intricate community into distinct ethnic groups. Drawing on recently opened archives, ethnography, and oral interviews that were unavailable a decade ago, *A Biography of No Place* reveals Stalinist and Nazi history from the perspective of the remote borderlands, thus bringing the periphery to the center of history. We are given, in short, an intimate portrait of the ethnic purification that has marked all of Europe, as well as a glimpse at the margins of twentieth-century "progress." Drawing on recently opened archives, ethnography, and oral interviews that were unavailable a decade ago, *A Biography of No Place* reveals Stalinist and Nazi history from the perspective of the remote borderlands, thus bringing the periphery to the center of history. Brown argues that repressive national policies grew not out of chauvinist or racist ideas, but the very instruments of modern governance - the census, map, and progressive social programs - first employed by Bolshevik reformers in the western borderlands. We are given, in short, an intimate portrait of the ethnic purification that has marked all of Europe, as well as a glimpse at the margins of twentieth century "progress." Kate Brown is Assistant Professor of History at University of Maryland, Baltimore County. *A Biography of No Place* is one of the most original and imaginative works of history to emerge in the western literature on the former Soviet Union in the last ten years. Historiographically fearless, Kate Brown writes with elegance and force, turning this history of a lost, but culturally rich borderland into a compelling narrative that serves as a microcosm for understanding nation and state in the Twentieth Century. With compassion and respect for the diverse people who inhabited this margin of territory between Russia and Poland, Kate Brown restores the voices, memories, and humanity of a people lost. --Lynne Viola, Professor of History, University of Toronto Samuel Butler and Kate Brown have something in common. Both have written about Erewhon with imagination and flair. I was captivated by the courage and enterprise behind this book. Is there a way to write a history of events that do not make rational sense? Kate Brown asks. She proceeds to give us a stunning answer. --Modris Eksteins, author of *Rites of Spring: The Great War and the Birth of the Modern Age* Kate Brown tells the story of how succeeding regimes transformed a onetime multiethnic borderland into a far more ethnically homogeneous region through their often murderous imperialist and nationalist projects. She writes evocatively of the inhabitants' frequently challenged identities and livelihoods and gives voice to their aspirations and laments, including Poles, Ukrainians, Germans, Jews, and Russians. *A Biography of No Place* is a provocative meditation on the meanings of periphery and center in the writing of history. --Mark von Hagen, Professor of History, Columbia University

**No Place to Learn** Mar 06 2020 The Red Cross is studied and criticized. The Royal Family is studied and criticized. Churches and hospitals are studied and criticized. Canadian universities are seldom studied and criticized and are worse off for this neglect. This book seeks to repair this damage by casting a critical eye on how Canadian universities work - or fail to work.

*No Place for Truth* Jul 22 2021 Has something indeed happened to evangelical theology and to evangelical churches? According to David Wells, the evidence indicates that evangelical pastors have abandoned their

traditional role as ministers of the Word to become therapists and "managers of the small enterprises we call churches." Along with their parishioners, they have abandoned genuine Christianity and biblical truth in favor of the sort of inner-directed experiential religion that now pervades Western society. Specifically, Wells explores the wholesale disappearance of theology in the church, the academy, and modern culture. Western culture as a whole, argues Wells, has been transformed by modernity, and the church has simply gone with the flow. The new environment in which we live, with its huge cities, triumphant capitalism, invasive technology, and pervasive amusements, has vanquished and homogenized the entire world. While the modern world has produced astonishing abundance, it has also taken a toll on the human spirit, emptying it of enduring meaning and morality. Seeking respite from the acids of modernity, people today have increasingly turned to religions and therapies centered on the self. And, whether consciously or not, evangelicals have taken the same path, refashioning their faith into a religion of the self. They have been coopted by modernity, have sold their soul for a mess of pottage. According to Wells, they have lost the truth that God stands outside all human experience, that he still summons sinners to repentance and belief regardless of their self-image, and that he calls his church to stand fast in his truth against the blandishments of a godless world. The first of three volumes meant to encourage renewal in evangelical theology (the other two to be written by Cornelius Plantinga Jr. and Mark Noll), *No Place for Truth* is a contemporary jeremiad, a clarion call to all evangelicals to note well what a pass they have come to in capitulating to modernity, what a risk they are running by abandoning historic orthodoxy. It is provocative reading for scholars, ministers, seminary students, and all theologically concerned individuals.

*No Place to Hide* Sep 11 2020 *No Place to Hide: Alpha Company at Nui Ba Den* puts into words what few can imagine and even fewer have experienced the harrowing and life-altering experience of facing deadly assaults from snipers. The U.S. Army's Alpha Company, deployed in Vietnam in 1969, followed orders sending it toward a mountain, Nui Ba Den. There they encountered North Vietnamese snipers, secure on higher ground, who subjected the company to two days of unremitting attack. In the end, nine members of the company and two of Charlie Company who came to their aid lost their lives. The author, Bill Sly, survived both the battle at Nui Ba Den and the Vietnam War. A college degree in history education and his military duties writing narratives to support awards of the Medal of Honor provided him with the background and expertise to bring to life his first-hand experience with the war and this particular engagement. In the pages of *No Place to Hide*, he tells the story of this company and its men who served, fought, and died and those who survived to remember and to remind others of the sacrifices of their comrades. *No Place to Hide: Alpha Company at Nui Ba Den* honors the men who fought together, remembers the sacrifices of those who died, and preserves the history of the events it depicts.

*No Place for Russia* Jul 30 2019 The optimistic vision of a “Europe whole and free” after the fall of the Berlin Wall in 1989 has given way to disillusionment, bitterness, and renewed hostility between Russia and the West. In *No Place for Russia*, William H. Hill traces the development of the post–Cold War European security order to explain today’s tensions, showing how attempts to integrate Russia into a unified Euro-Atlantic security order were gradually overshadowed by the domination of NATO and the EU—at Russia’s expense. Hill argues that the redivision of Europe has been largely unintended and not the result of any single decision or action. Instead, the current situation is the cumulative result of many decisions—reasonably made at the time—that gradually produced the current security architecture and led to mutual mistrust. Hill analyzes the United States’ decision to remain in Europe after the Cold War, the emergence of Germany as a major power on the continent, and the transformation of Russia into a nation-state, placing major weight on NATO’s evolution from an alliance dedicated primarily to static collective territorial defense into a security organization with global ambitions and capabilities. Closing with Russia’s annexation of Crimea and war in eastern Ukraine, *No Place for Russia* argues that the post–Cold War security order in Europe has been irrevocably shattered, to be replaced by a new and as-yet-undefined order.

**No Place To Go** Nov 13 2020 Adults don't talk about the business of doing our business. We work on one assumption: the world of public bathrooms is problem- and politics-free. *No Place To Go: Answering the Call of Nature in the Urban Jungle* reveals the opposite is true. *No Place To Go* is a toilet tour from London to San Francisco to Toronto and beyond. From pay potties to deserted alleyways, *No Place To Go* is a marriage of urbanism, social narrative, and pop culture that shows the ways — momentous and mockable — public bathrooms just don't work. Like, for the homeless, who, faced with no place to go sometimes literally take to the streets. (Ever heard of a municipal poop map?) For people with invisible disabilities, such as Crohn’s disease, who stay home rather than risk soiling themselves on public transit routes. For girls who quit sports teams because they don’t want to run to the edge of the pitch to pee. Celebrities like Lady Gaga and Bruce Springsteen have protested bathroom bills that will stomp on the rights of transpeople. And where was Hillary Clinton after she arrived back to the stage late after the first commercial break of the live-televised Democratic leadership debate in December 2015? Stuck in a queue for the women’s bathroom. Peel back the layers on public bathrooms and it’s clear many more people want for good access than have it. Public bathroom access is about cities, society, design, movement, and equity. The real question is: Why are public toilets so crappy?

**No Place to Call Home** Apr 30 2022 Abstract: This publication reports the conclusions of a series of hearing concerning support and services for children in troubled families. The Congress has made a commitment to guarantee support in the form of out of home placement when necessary and reunification with their families when possible. This report sought to answer several questions including: are there fewer unnecessary placements of children out of their homes than previously occurred? When children must be placed, are there more effective permanent placements than there were ten years ago? Are children receiving quality services when they are entrusted to the child welfare system? Several failings of the system are revealed while some promising policies, innovative strategies, and effective programs were found.

*No Place Like Here* Feb 14 2021 Life leads you to unexpected places. Love brings you home. Ashlyn Zanotti has big plans for the summer. She's just spent a year at boarding school and can't wait to get home. But when Ashlyn's father is arrested for tax evasion and her mother enters a rehab facility for "exhaustion," a.k.a. depression, her life is turned upside down. The cherry on top? Ashlyn's father sends her to work with a cousin she doesn't even know at a rustic team-building retreat center in the middle of nowhere. A self-proclaimed "indoor girl," not even Ash's habit of leaving breadcrumb quotes—inspirational sayings she scribbles everywhere—can help her cope. With a dangerously careless camp manager doling out grunt work, an overbearing father trying to control her even from prison, and

more than a little boy drama to struggle with, the summer is full of challenges. And Ashlyn must make the toughest decision of her life: keep quiet and follow her dad's marching orders, or find the courage to finally stand up to her father to have any hope of finding her way back home. From Christina June, author of *It Started with Goodbye and Everywhere You Want to Be*, comes *No Place Like Here*, a modern twist on Hansel and Gretel.

**No Place to Hide: A 30-minute Summary of Glenn Greenwald's book** Feb 26 2022 PLEASE NOTE: This is a summary of the book and NOT the original book. No Place to Hide: A 30-minute Summary of Glenn Greenwald's book Inside this Instaread Summary: Overview of the entire book Introduction to the Important people in the book Summary and analysis of all the chapters in the book Key Takeaways of the book A Reader's Perspective Preview of this summary: Chapter 1 Edward Snowden first contacted Glenn Greenwald on December 1, 2012, using the alias name Cincinnatus. Snowden is a former Senior Advisor to the NSA, a former Field Officer with the CIA, and a former lecturer for the United States Defense Intelligence Agency. He had confidential information he wanted to share with Greenwald, but would only do it if he knew their connection was secure. Greenwald is a journalist known for his reporting on the wrongdoings of the National Security Agency (NSA). Snowden wanted Greenwald to use PGP (pretty good privacy) encryption on his computer so that he could safely send him some information that he had gathered. Although Greenwald considered adding these extra security measures to his computer, he was very busy with other things and did not want to take the time to put the complicated software in place. Snowden sent him a guide on how to add the encryption, but Greenwald still took no action. Snowden offered to find someone who could help Greenwald install the system. Without positive proof that the information Snowden had was really newsworthy, Greenwald did not feel motivated to take the steps necessary to install the PGP encryption. However, without a secure form of communication in place, Snowden was unwilling to risk sharing the information he had with Greenwald. This communication between the two took place over several weeks and then came to a standstill. On April 18, Laura Poitras contacted Greenwald. Laura Poitras is a documentary filmmaker who is known for fearlessly taking risks in making her films. She made three films about the conduct of the United States during the war on terror, which made her a target of government officials whenever she entered or left the country. Poitras wanted to talk to Greenwald about something but would only do it in person and in private in a secure location...

*No Place to Hide* Jun 28 2019 A groundbreaking look at the NSA surveillance scandal, from the reporter who broke the story, Glenn Greenwald, star of *Citizenfour*, the Academy Award-winning documentary on Edward Snowden In May 2013, Glenn Greenwald set out for Hong Kong to meet an anonymous source who claimed to have astonishing evidence of pervasive government spying and insisted on communicating only through heavily encrypted channels. That source turned out to be the 29-year-old NSA contractor and whistleblower Edward Snowden, and his revelations about the agency's widespread, systemic overreach proved to be some of the most explosive and consequential news in recent history, triggering a fierce debate over national security and information privacy. As the arguments rage on and the government considers various proposals for reform, it is clear that we have yet to see the full impact of Snowden's disclosures. Now for the first time, Greenwald fits all the pieces together, recounting his high-intensity ten-day trip to Hong Kong, examining the broader implications of the surveillance detailed in his reporting for *The Guardian*, and revealing fresh information on the NSA's unprecedented abuse of power with never-before-seen documents entrusted to him by Snowden himself. Going beyond NSA specifics, Greenwald also takes on the establishment media, excoriating their habitual avoidance of adversarial reporting on the government and their failure to serve the interests of the people. Finally, he asks what it means both for individuals and for a nation's political health when a government pries so invasively into the private lives of its citizens—and considers what safeguards and forms of oversight are necessary to protect democracy in the digital age. Coming at a landmark moment in American history, *No Place to Hide* is a fearless, incisive, and essential contribution to our understanding of the U.S. surveillance state.

**No Place to Go** Aug 03 2022 A generation ago, the Joint Commission on the Mental Health of Children concluded that "there is not a single community in this country which provides an acceptable standard of services for its mentally ill children." Since then, many states have acknowledged the need to develop a system of care for such children, yet few adequate solutions have been implemented. Parents and other decision makers often face two unsatisfactory choices: coping as well as they can by themselves or turning the child over to someone else. This book surveys issues related to the care and civil commitment of children with emotional disturbance. The authors examine research on the residential treatment system for children and youths, then analyze the prevailing legal framework for the commitment of minors to such treatment. They systematically address the question of what child mental health policy should be and conclude by proposing a policy that emphasizes privacy, autonomy, and family integrity. **No Place to Go** is both a major scholarly statement on the treatment of children with emotional disturbance and a rallying cry for principled change. Gary B. Melton is the director of the Institute for Families in Society and a professor of neuropsychiatry and behavioral science, and adjunct professor of law, pediatrics, and psychology at the University of South Carolina. Phillip M. Lyons Jr. is an assistant professor at the College of Criminal Justice, Sam Houston State University. Willis J. Spaulding is an attorney in Charlottesville, Virginia.

**No Place to Die** Nov 25 2021 DS Jane Bennett takes charge of South London's Lewisham murder squad following the temporary suspension of her boss, DI Mike Lockyer. His involvement with a female witness resulted in her murder. Mike returns to work but he's a shadow of the detective he was a few months before. Bennett gets a desperate call from an old friend to say that her husband, retired colleague Mark Leech, has gone missing. Blood spatters found in the home suggest that she doesn't have long to find him. When Jane is sent to a site in Elmstead Woods she stumbles upon a sinister murder scene. A tomb has been created, and the body she finds is not Mark's - as she dreaded and suspected - but that of missing university student, Maggie Hungerford. Her killer recorded her last moments, even providing an air supply which was only cut off when the game lost its thrill. Two men admit to having had a sexual relationship with Maggie. Both deny murder. Someone is lying. And Mark is still missing. When another tomb is discovered, an anonymous tip and mounting evidence suggest a disturbing link which threatens to derail both cases and let a murderer walk free. Lockyer is shocked into supporting Bennett in a case which becomes ever more ominous and dangerous as the investigation deepens. They know that their hunt is for a killer with a mind so twisted that he, or she, is likely to stop at nothing.
