Ethical and Legal Issues in Neurology Sep 22 2019 Advances in our understanding of the brain and rapid advances in the medical practice of neurology are creating questions and concerns from an ethical and legal perspective. Ethical and Legal Issues in Neurology provides a detailed review of various general aspects of neuroethics, and contains chapters dealing with a vast array of specific issues such as the role of religion, the ethics of invasive neuroscience research, and the impact of potential misconduct in neurologic practice. The book focuses particular attention on problems related to palliative care, euthanasia, dementia, and neurogenetic disorders, and concludes with examinations of consciousness, personal identity, and the definition of death. This volume focuses on practices not only in North America but also in Europe and the developing world. It is a useful resource for all neuroscience and neurology professionals, researchers, students, scholars, practicing clinical neurologists, mental health professionals, and psychiatrists. A comprehensive introduction and reference on neuroethics Includes coverage of how best to understand the ethics and legal aspects of dementia, palliative care, euthanasia and neurogenetic disorders Brings clarity to issues regarding ethics and legal responsibilities in the age of rapidly evolving brain science and related clinical practice

Palmer's Index to "The Times" Newspaper Feb 20 2022 Covers the period from 1790 to 1905 in The Times of London.

Nanoscience May 31 2020 This volume will present critical and comprehensive reviews examining the latest research and developments in nanoscience in accessible articles. Quantum dot synthesis, soft lithography and graphene will feature in the debut volume, along with perspectives on research in China and India.

Electrical Drives for Direct Drive Renewable Energy Systems Jul 13 2021 Wind turbine gearboxes present major reliability issues, leading to great interest in the current development of gearless direct-drive wind energy systems. Offering high reliability, high efficiency and low maintenance, developments in these direct-drive systems point the way to the next generation of wind power, and Electrical drives for direct drive renewable energy systems is an authoritative guide to their design, development and operation. Part one outlines electrical drive technology, beginning with an overview of electrical generators for direct drive systems. Principles of electrical design for permanent magnet generators are discussed, followed by electrical, thermal and structural generator design and systems integration. A review of power electronic converter technology and power electronic converter systems for direct drive renewable energy applications is then conducted. Part two then focuses on wind and marine applications, beginning with a commercial overview of wind turbine drive systems and an introduction to direct drive wave energy conversion systems. The commercial application of these technologies is investigated via case studies on the permanent magnet direct drive generator in the Zephyros wind turbine, and the Archimedes Wave Swing (AWS) direct drive wave energy pilot plant. Finally, the book concludes by exploring the application of high-temperature superconducting machines to direct drive renewable energy systems. With its distinguished editors and international team of expert contributors, Electrical drives for direct drive renewable energy systems provides a comprehensive review of key technologies for anyone involved with or interested in the design, construction, operation, development and optimisation of direct drive wind and marine energy systems. An authoritative guide to the design, development and operation of gearless direct drives Discusses the principles of electrical design for permanent magnet generators and electrical, thermal and structural generator design and systems integration Investigates the commercial applications of wind turbine drive systems

Human-Computer Interaction -- INTERACT 2013 May 23 2022 The four-volume set LNCS 8117-8120 constitutes the refereed proceedings of the 14th IFIP TC13 International Conference on Human-Computer Interaction, INTERACT 2013, held in Cape Town, South Africa, in September 2013. The 55 papers included in the second volume are organized in topical sections on E-input/output devices (e-readers, whiteboards), facilitating social behaviour and collaboration, gaze-enabled interaction design, gesture and tactile user interfaces, gesture-based user interface design and interaction, health/medical devices, humans and robots, human-work interaction design, interface layout and data entry, learning and knowledge-sharing, learning tools, learning contexts, managing the UX, mobile interaction design, and mobile phone applications.

Success with STEM Feb 26 2020 Success with STEM is an essential resource, packed with advice and ideas to support and enthuse all those involved in the planning and delivery of STEM in the secondary school. It offers guidance on current issues and priority areas to help you make informed judgements about your own practice and argue for further support for your subject in school. It explains current initiatives to enhance STEM teaching and offers a wide range of practical activities to support exciting teaching and learning in and beyond the classroom. Illustrated with examples of successful projects in real schools, this friendly,

inspiring book explores: Innovative teaching ideas to make lessons buzz Activities for successful practical work Sourcing additional funding Finding and making the most of the best resources STEM outside the classroom Setting-up and enhancing your own STEM club Getting involved in STEM competitions, fairs and festivals Promoting STEM careers and tackling stereotypes Health, safety and legal issues Examples of international projects An wide-ranging list of project and activity titles Enriched by the authors' extensive experience and work with schools, Success with STEM is a rich compendium for all those who want to develop outstanding lessons and infuse a life-long interest in STEM learning in their students. The advice and guidance will be invaluable for all teachers, subject leaders, trainee teachers and NQTs.

Kozier & Erb's Fundamentals of Nursing Australian Edition Aug 02 2020 Kozier and Erb's Fundamentals of Nursing prepares students for practice in a range of diverse clinical settings and help them understand what it means to be a competent professional nurse in the twenty-first century. This third Australian edition has once again undergone a rigorous review and writing process. Contemporary changes in the regulation of nursing are reflected in the chapters and the third edition continues to focus on the three core philosophies: Person-centred care, critical thinking and clinical reasoning and cultural safety. Students will develop the knowledge, critical thinking and clinical reasoning skills to deliver care for their patients in ways that signify respect, acceptance, empathy, connectedness, cultural sensitivity and genuine concern.

East Asia and Pacific Economic Update April 2014 Jun 12 2021 Developing countries in the East Asia Pacific region will see stable economic growth this year, bolstered by a recovery in high-income economies and the market's modest response so far to the Federal Reserve's tapering of its quantitative easing, according to the East Asia Pacific Economic Update. Developing East Asia will grow by 7.1 percent this year, largely unchanged from 2013, the report says. As a result, East Asia remains the fastest growing region in the world, despite a slowdown from the average growth rate of 8.0 percent from 2009 to 2013. In China, growth will ease slightly, to 7.6 percent this year from 7.7 percent in 2013. Excluding China, the developing countries in the region will grow by 5.0 percent, slightly down from 5.2 percent last year.

Ending the U.S. War in Iraq Mar 09 2021 Ending the U.S. war in Iraq required redeploying 100,000 military and civilian personnel; handing off responsibility for 431 activities to the Iraqi government, U.S. embassy, USCENTCOM, or other U.S. government entities; and moving or transferring ownership of over a million pieces of property in accordance with U.S. and Iraqi laws, national policy, and DoD requirements. This book examines the planning and execution of this transition.

Basic Neurochemistry Dec 18 2021 Basic Neurochemistry: Principles of Molecular, Cellular, and Medical Neurobiology, the outstanding and comprehensive classic text on neurochemistry, is now newly updated and revised in its Eighth Edition. For more than forty years, this text has been the worldwide standard for information on the biochemistry of the nervous system, serving as a resource for postgraduate trainees and teachers in neurology, psychiatry, and basic neuroscience, as well as for medical, graduate, and postgraduate students and instructors in the neurosciences. The text has evolved, as intended, with the science. It is also an excellent source of current information on basic biochemical and cellular processes in brain function and neurological diseases for continuing medical education and qualifying examinations. This text continues to be the standard reference and textbook for exploring the translational nature of neuroscience, bringing basic and clinical neuroscience together in one authoritative volume. Our book title reflects the expanded attention to these links between neurochemistry and neurologic disease. This new edition continues to cover the basics of neurochemistry as in the earlier editions, along with expanded and additional coverage of new research from: Intracellular trafficking; Stem cells, adult neurogenesis, regeneration; Lipid messengers; Expanded coverage of all major neurodegenerative and psychiatric disorders; Neurochemistry of addiction; Neurochemistry of pain; Neurochemistry of hearing and balance; Neurobiology of learning and memory; Sleep; Myelin structure, development, and disease; Autism; and Neuroimmunology. Completely updated text with new authors and material, and many entirely new chapters Over 400 fully revised figures in splendid color 61 chapters covering the range of cellular, molecular and medical neuroscience Translational science boxes emphasizing the connections between basic and clinical neuroscience Companion website at <http://elsevierdirect.com/companions/9780123749475>

Wild Law - In Practice Nov 05 2020 Wild Law - In Practice aims to facilitate the transition of Earth Jurisprudence from theory into practice. Earth Jurisprudence is an emerging philosophy of law, coined by cultural historian and geologist Thomas Berry. It seeks to analyse the contribution of law in constructing, maintaining and perpetuating anthropocentrism and addresses the ways in which this orientation can be undermined and ultimately eliminated. In place of anthropocentrism, Earth Jurisprudence advocates an interpretation of law based on the ecocentric concept of an Earth community that includes both human and nonhuman entities. Addressing topics that include a critique of the effectiveness of environmental law in protecting the environment, developments in domestic/constitutional law recognising the rights of nature, and the regulation of sustainability, Wild Law - In Practice is the first book to focus specifically on the practical legal implications of Earth Jurisprudence.

World Bank East Asia and Pacific Economic Update 2012 Apr 22 2022 The World Bank East Asia and Pacific Economic Update is a comprehensive, twice-yearly review of the region's economies prepared by the East Asia and Pacific region of the World Bank. In this edition, the report notes that the region is expected to contribute almost 40 percent of global growth in 2012, and a similar share in 2013. China's economic slowdown affected the region's economic performance. China's growth is projected to reach 7.9 percent this year, 1.4 percentage points lower than last year's 9.3 percent and the lowest growth rate since 1999. For 2014, we expect most countries in the region to benefit from a mild recovery in advanced countries as well as continued strong domestic demand. For economies in the region that face difficulties in budget execution, particularly of the capital budget, fiscal interventions could focus on increasing private domestic demand, such as targeted social assistance or investment tax credits.

Regional Economic Outlook, November 2012, Middle East and Central Asia Sep 27 2022 The outlook for the Middle East and North Africa region is mixed. Oil-importing countries are witnessing tepid growth, and the moderate recovery expected in 2013 is subject to heightened downside risks. For the Arab countries in transition, ongoing political transitions also weigh on growth. With policy buffers largely eroded, the need for action on macroeconomic stabilization and growth-oriented reforms is becoming increasingly urgent. Countries will need to put in place safety nets to protect the poor and build consensus for some difficult fiscal choices. The region's oil exporters are expected to post solid growth in 2012, in part due to Libya's better-than-expected postwar recovery. In the countries of the Gulf Cooperation Council, robust growth is supported by expansionary fiscal policies and accommodative monetary conditions. In the Caucasus and Central Asia, the outlook remains favorable, reflecting high oil prices that are benefiting oil and gas exporters, supportive commodity prices and remittance inflows benefiting oil and gas importers, and, for both groups, moderate direct exposure to Europe. The positive outlook provides an opportunity to strengthen policy buffers to prepare for any downside risks.

A Critical Companion to Early Childhood May 11 2021 In this stimulating and provocative book the editors have drawn together a diverse and international range of respected authors, each of whom has taken a critical approach to the contentious question of how you define and achieve quality early childhood services. It is a book designed to provoke and promote critical dialogue and discourse amongst practitioners and students through critical engagement with the position of the authors within the text. I believe anyone who reads this book will be inspired and motivated to challenge and extend their thinking and professional practice,

adopting the critical stance which lies at the heart of quality services for children and families. Professor Chris Pascal, Director of Centre for Research in Early Childhood (CREC) Early childhood is a complex and important area of study where it is important to develop your critical thinking and reflect upon key issues. This book will help do both. It explores interrelated topics such as: Child development Play Safeguarding Professionalism Curriculum and Policy Each chapter will not only engage with what you need to know but help you develop your academic skills. The book also comes with lots of online resources which can be found at <https://study.sagepub.com/reedandwalker> and include: Podcasts from the authors of each chapter so you can better understand the key concepts PowerPoints to help you revise the essential information Journal articles related to each chapter provide further reading Michael Reed and Rosie Walker are both Senior Lecturers in Early Childhood at the Institute of Education, University of Worcester.

Language Policy and Planning in the Mediterranean World Jun 24 2022 Language Policy and Planning in the Mediterranean World is a collection of the best papers presented at the MedLPLP conference held at the University of Cyprus in 2009, enriched with invited contributions on the same topic. The book presents a panorama of situations with countries such as France, Germany, Cyprus, Malta, Italy, Spain, Poland, Turkey, Greece, Bulgaria, Albania, Romania and Serbia. It explores various aspects of the weight and ecology of the Mediterranean languages, discusses LPP in the light of international law and the protection of human rights, bilingual education and foreign language acquisition policies. It also addresses the issue of feminization in a broad range of Mediterranean languages comparing French, Italian, Spanish, and, for the first time, Standard and Cypriot Greek. Finally, the book also discusses language revival and renovation policies, language planning in the public space, as well as cases of micro-language management. The volume is an excellent source of information for scholars and students of LPP interested in the synchrony and diachrony of Mediterranean languages, in aspects of LPP activity in various Mediterranean countries and in specific LPP processes involving several languages within the area.

Craig's Restorative Dental Materials Oct 04 2020 Presenting a comprehensive exploration of restorative dental materials, this book provides the information readers need to know to correctly use dental materials in the clinic and dental laboratory. Ranging from fundamental concepts to advanced skills, it also provides the scientific basis for technical procedures and manipulation of materials.

Standard and Poor's 500 Guide, 2012 Edition Oct 24 2019 The most accurate, up-to-date market intelligence for superior investment decisions—from the world's premier financial index! The Standard & Poor's 500 Index is the most watched index in America—if not the world. Whether you're an individual investor purchasing stocks, an executive researching corporate competitors, or a job seeker looking for concise and up-to-the-minute overviews of potential employers, you'll find the critical, often hard-to-find information you need in Standard & Poor's® 500 Guide, 2012 Edition. Easy to use and packed with market intelligence on all 500 companies listed in the S&P 500 Index, this authoritative reference includes: Information on the bluest of blue chip stocks—from Abbott Labs and GE to Microsoft and Yahoo! Summaries of each company's business activity, sales history, and recent developments Earnings and dividends data, with four-year price charts Exclusive Standard & Poor's Quality Rankings (from A+ to D) New introduction by David M. Blitzer, Ph.D., Managing Director and Chairman of the Index Committee, Standard & Poor's In addition, you get unique at-a-glance details about: Stocks with A+ Quality Rankings Companies with five consecutive years of earnings increases—a key indicator of strong long-term performance Per share data, income statement analyses, and balance sheet overviews of each company covered Put the comprehensive, updated data and analysis expertise of the world's premier securities information firm at your fingertips with Standard & Poor's® 500 Guide, 2012 Edition.

Bond Guide Oct 16 2021

Introduction to Research - E-Book Nov 17 2021 Bridge the gap between research and practice with Introduction to Research: Understanding and Applying Multiple Strategies, 5th Edition. This easy-to-read edition covers all the major research design strategies: qualitative, quantitative, naturalistic, experimental-type, and mixed method. And with the text's up-to-date research information and references, you will have a solid foundation from which to critique and understand research designs and their applications to healthcare and human service settings. Case examples provide real-life snapshots of what it is like to participate in different types of research processes, identify research dilemmas relevant to chapter subjects, and alert you to problems you might encounter. Authors make the topics more accessible, so research becomes more relevant - and topics come to life. Covers experimental-type, naturalistic, and mixed method design strategies to improve your ability to compare, contrast, and integrate different methods. Presents complex information clearly in a highly readable, and easy-to-understand, manner. Includes detailed discussions of qualitative and quantitative methodologies, a unique and balanced focus that makes this text more comprehensive than others in its field. NEW! Up-to-date research methods, strategies, and references, like digital sources, visual methods, and geographical analysis, give you the latest information on research in diverse areas of health and human services.

The Emerging Middle East-East Asia Nexus Aug 14 2021 As the economies of East Asia grow ever stronger, their need for energy resources increases, which in turn compels closer relations with the countries of the Middle East. This book examines the developing relations between the countries of East Asia, especially China and Japan, with the countries of the Middle East. It looks at various key bilateral relationships, including with Iran and Syria, discusses the impact on the United States' hegemony in both regions, considers whether the new relations represent a contribution to, or a threat to, peace and stability, and assesses the implications of the changes for patterns of regional and global international relations systems.

Intelligent Data Engineering and Automated Learning -- IDEAL 2012 Dec 26 2019 This book constitutes the refereed proceedings of the 13th International Conference on Intelligent Data Engineering and Automated Learning, IDEAL 2012, held in Natal, Brazil, in August 2012. The 100 revised full papers presented were carefully reviewed and selected from more than 200 submissions for inclusion in the book and present the latest theoretical advances and real-world applications in computational intelligence.

Modern Middle East Authoritarianism Apr 29 2020 While the Arab uprisings have overturned the idea of Arab "exceptionalism," or the acceptance of authoritarianism, better analysis of authoritarianism's resilience in pre- and post-uprising scenarios is still needed. Modern Middle East Authoritarianism: Roots, Ramifications, and Crisis undertakes this task by addressing not only the mechanisms that allowed Middle Eastern regimes to survive and adapt for decades, but also the obstacles that certain countries face in their current transition to democracy. This volume analyzes the role of ruling elites, Islamists, and others, as well as variables such as bureaucracy, patronage, the strength of security apparatuses, and ideological legitimacy to ascertain regimes' life expectancies and these factors' post-uprisings repercussions. Discussing not only the paradigms through which the region has been analyzed, but also providing in-depth case studies of Tunisia, Egypt, Libya, Algeria, Saudi Arabia, Iraq, and Iran, the authors arrive at critical conclusions about dictatorship and possibilities for its transformation. Employing diverse research methods, including interviews, participant observation, and theoretical discussions of authoritarianism and political transition, this book is essential

reading for scholars of Middle East Studies, Islamic Studies and those with an interest in the governance and politics of the Middle East.

Middle East and North Africa Economic Developments and Prospects, October 2012 Jul 25 2022 The post-revolutionary economies of MENA - Egypt, Tunisia, Libya and Yemen - have been recovering after a period of growth decelerations in 2011. In Egypt and Tunisia, the growth dips of 2011 were less dramatic than the declines observed during previous transitions. The recovery has been relatively quick but the transition process is far from complete and uncertainty about the political and reform process remains a binding constraint to private investment. Consequently, post-transition growth is below potential and is lower than growth prior to the Arab Spring, with negative consequences for employment and poverty. Events in the post-revolution economies have affected other countries in MENA. Macroeconomic fundamentals weakened in most developing MENA countries in 2011-12 as growth slowed and governments responded to social pressures with expansionary fiscal policies. The regional growth outlook for 2013 reflects weaker expected global economic activity, especially in the EU, and moderating oil prices. Regional economic growth is expected to decelerate to 3.5% in 2013 from 5.5% in 2012. Prolonged political and policy uncertainty and social unrest are serious downside risks to the outlook.
