**Conquering Big Data with High Performance Computing** Apr 17 2021 This book provides an overview of the resources and research projects that are bringing Big Data and High Performance Computing (HPC) on converging tracks. It demystifies Big Data and HPC for the reader by covering the primary resources, middleware, applications, and tools that enable the usage of HPC platforms for Big Data management and processing. Through interesting use-cases from traditional and non-traditional HPC domains, the book highlights the most critical challenges related to Big Data processing and management, and shows ways to mitigate them using HPC resources. Unlike most books on Big Data, it covers a variety of alternatives to Hadoop, and explains the differences between HPC platforms and Hadoop. Written by professionals and researchers in a range of departments and fields, this book is designed for anyone studying Big Data and its future directions. Those studying HPC will also find the content valuable.

*CDM Regulations 2015 Procedures Manual* Feb 25 2022 CDM REGULATIONS CDM REGULATIONS 2015 PROCEDURES MANUAL The Construction (Design and Management) Regulations (CDM Regulations) initially came into force on 31 March 1995 to promote an integrated, holistic approach to the consideration of health and safety issues associated with all aspects of construction projects. The Regulations were updated in 2007, with the current version coming into force on 6 April 2015. The Regulations require all those involved in construction to adopt a team-based approach to health and safety, to be delivered through dutyholder responsibilities via project team risk management, accountability and effective, timely communication. The CDM Regulations 2015 Procedures Manual articulates and explains the statutory duties, and provides a documentation system to ensure associated compliance. It has been thoroughly revised to take account of the amendments to the CDM Regulations brought about by the 2015 update, which requires both subtle and significant changes in the management of health and safety within the construction industry.

Mentalization-Based Group Therapy (MBT-G) Jan 03 2020 Mentalization-based treatment (MBT) has gained international acclaim as an efficient treatment for patients with borderline personality disorder. The approach is also helpful for other personality disorders and conditions that are difficult to treat, e.g. addiction and eating disorders. MBT consists of a psychoeducational, an individual, and a group therapy component. This is the first comprehensive manual for mentalization-based group therapy. The author has developed the manual in close cooperation with Anthony Bateman and a team of group analysts. It covers all the aspects of MBT which are necessary to produce an informed and qualified group therapist. The book covers the theory behind mentalization and borderline personality disorder (especially its evolutionary roots), the structure of MBT and a discussion of previous experiences with group psychotherapy for borderline patients. The core of the book explains the main principles of MBT-G and provides a powerful means for ensuring that therapists adhere to these principles in a qualified way. The last part contains a full transcript from

a real MBT group composed of borderline patients. As the first book dedicated to Group MBT, this book is a valuable and unique addition to the Mentalization literature.

**DBT? Skills Manual for Adolescents** Nov 12 2020 "Dialectical behavior therapy has revolutionized cognitive behavioral therapies with constructs such as mindfulness and acceptance now permeating behavioral approaches. Adolescents differ from adult clients with regard to emotional and cognitive developmental level and context: they overwhelmingly attend school, and reside with their families and depend on them for daily functioning, including for getting to therapy. Thus, we considered developmentally relevant as well as family-based targets, cognitive processing and capability differences, distinct liability issues, and interventions with their environments. Our adapted adolescent skills handouts are being used in multiple research settings; many clinical settings around the world employ some version of our materials. The publication of this manual makes them more widely available along with group management strategies and skills teaching notes to assist the DBT skills trainer working with adolescents"--

**Legal Drafting by Design** Nov 24 2021 Designed for upper-level survey legal drafting courses, this groundbreaking text explains drafting using a common vocabulary that applies to any legal document based on a fundamental rule structure, including statutes and other forms of public drafting as well as contracts and other forms of private drafting. This unified drafting approach gives students a common denominator approach to drafting all kinds of legal documents. In addition, students can use the techniques they've learned to deconstruct, interpret, and revise any kind of legal document composed of rules. This common-sense approach of teaching/learning a single vocabulary and set of skills to use in drafting any rules-based legal document is an innovative model for U.S. legal drafting courses, though it has been used in other countries for decades. Key Features: A unified approach that teaches students the general skills of drafting rules of law—duties, discretionary authority, and declarations, including their conditions in legal tests. Practice applying those skills to drafting a range of documents, including contracts, statutes, regulations, and other. Coverage of how courts interpret the rules and how to draft anticipating what the courts will do. An understanding of how law governs human behavior through the rules that students learn to draft. A wide range of classroom exercises on the detail of drafting. Additional drafting assignments, for use in and out of class, that help students learn how to use the rules and to accomplish clients' goals.

**Stp 21-1-Scmt Soldier's Manual of Common Tasks Warrior Skills Level 1** Dec 02 2019 Very latest edition! This publication, Soldier Training Publication STP 21-1-SMCT Soldier's Manual of Common Tasks: Warrior Skills Level 1 August 2015, contains the individual tasks that are essential to the Army's ability to win on the modern battlefield. In an operational environment, regardless of job or individual MOS, each Soldier risks exposure to hostile actions. This manual contains the warrior skills that Soldiers must be able to perform to fight, survive, and win in combat. This SMCT gives the commander, NCO trainer, first-line supervisor, and individual Soldiers the information necessary to support integration and sustainment training in their units. This information allows trainers to plan, prepare, train, evaluate, and monitor individual training of warrior tasks. Using the appropriate mission-training plan (MTP), military occupational specialty (MOS)-specific Soldier's training publication (STP), and this manual helps provide the foundation for an effective unit-training plan. This manual includes the Army Warrior Training plan for warrior skills level (SL) 1 and task summaries for SL 1 critical common tasks that support unit wartime missions. This manual is the only authorized source for these common tasks. Task summaries in this manual supersede any common tasks appearing in military occupational specialty (MOS)-specific Soldier manuals. Training support information, such as reference materials, is also included.

**Research Handbook on Innovation Governance for Emerging Economies** Oct 12 2020 Although in recent years some emerging economies have improved their performance in terms of R&D investment, outputs and innovative capacity, these countries are still blighted by extreme poverty, inequality and social exclusion. Hence, emerging countries are exposed to conditions which differ quite substantially from the dominant OECD model of innovation policy for development and welfare. This Research Handbook contributes to the debate by looking at how innovation theory, policy and practice interact, and explains different types of configurations in countries that are characterized by two contrasting but mutually reinforcing features: systemic failure and

resourcefulness. Focusing on innovation governance and public policies, it aims to understand related governance failures and to explore options for alternative, more efficient approaches.
