Giving Offense Jan 20 2022 In Giving Offense, South African writer J. M. Coetzee presents a coherent, unorthodox analysis of censorship from the perspective of a writer who has lived and worked under its shadow. Widely acclaimed for his many novels, Coetzee is also a brilliant literary critic and essayist. The essays collected here attempt to understand the passion that plays itself out in acts of silencing and censoring. Subscribing neither to the myth of the writer as a moral giant nor to that of the writer as persecuted innocent, Coetzee argues that a destructive dynamic of belligerence and escalation tends to overtake the rivals in any field ruled by censorship. From Osip Mandelstam commanded to compose an ode in praise of Stalin, to Breyten Breytenbach writing poems under and for the eyes of his prison guards, to Aleksandr Solzhenitsyn engaging in a trial of wits with the organs of the Soviet state, Giving Offense focuses on the ways authors have historically responded to censorship. It also analyzes the arguments of Catharine MacKinnon for the suppression of pornography and traces the operations of the old South African censorship system. Finally, Coetzee delves into the early history of apartheid and criticizes the blankness of contemporary political science in its efforts to address the deeper motives behind apartheid.

U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don ' t perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. Spiral Jetta Oct 05 2020 Erin Hogan hit the road in her Volkswagen Jetta and headed west from Chicago in search of the monuments of American land art: a salty coil of rocks, four hundred stainless steel poles, a gash in a mesa, four concrete tubes, and military sheds filled with cubes. Her journey took her through the states of Utah, Nevada, New Mexico, Arizona, and Texas. It also took her through the states of anxiety, drunkenness, disorientation, and heat exhaustion. Spiral Jetta is a chronicle of this journey. A lapsed art historian and devoted urbanite, Hogan initially sought firsthand experience of the monumental earthworks of the 1970s and the 1980s—Robert Smithson's Spiral Jetty, Nancy Holt's Sun Tunnels, Walter De Maria's Lightning Field, James Turrell's Roden Crater, Michael Heizer's Double Negative, and the contemporary art mecca of Marfa, Texas. Armed with spotty directions, no compass, and less-than-desert-appropriate clothing, she found most of what she was looking for and then some. "I was never quite sure what Hogan was looking for when she set out . . . or indeed whether she found it. But I loved the ride. In Spiral Jetta, an unashamedly honest, slyly uproarious, ever-probing book, art doesn't magically have the power to change lives, but it can, perhaps no less powerfully, change ways of seeing." —Tom Vanderbilt, New York Times Book Review "The reader emerges enlightened and even delighted. . . . Casually scrutinizing the artistic works . . . while gamely playing up her fish-out-of-water status, Hogan delivers an ingeniously engaging travelogue-cum-art history." —Atlantic "Smart and unexpectedly hilarious." —Kevin Nance, Chicago Sun-Times "One of the funniest and most entertaining road trips to be published in quite some time." —June Sawyers, Chicago Tribune "Hogan ruminates on how the work affects our sense of time, space, size, and scale. She is at her best when she reexamines the precepts of modernism in the changing light of New Mexico, and shows how the human body is meant to be a participant in these grand constructions." —New Yorker

A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition Jun 25 2022 A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, A Manual for Writers of Research Papers, Theses, and Dissertations has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, A Manual for Writers remains the essential resource for students and their teachers.
