Eating the Book May 06 2020 Literary Nonfiction. Jewish Studies. EATING THE BOOK revolves around the Freudian notion of the primitive father, cannibalistically devoured by his children. Wittingly reminding his readers that Freud is in the know even when he makes "mistakes," Haddad shows how a thoroughly dynamic and radically new appraisal of the entire conundrum can be achieved by following a surprising and hither-to untrodden path.

Three Treatises Oct 30 2019 This volume contains three concise treatises of the venerable Im'm al-?add'd. The first treatise, Mutual Reminding, distills the ethic and content of offering good counsel to one another. The chief elements of counsel, says the Im'm, are Taqw?, an active fear and consciousness of God, and detachment from the material world. These elements connect with the topic of the second treatise, Good Manners, which discusses the manners recommended of the spiritual wayfarer as he or she takes the

path to spiritual felicity. The third treatise, *The Aphorisms*, is a compilation of Im'm al-'add's wise insights on a broad range of topics and includes the commentary of Shaykh Mu'ammad 'ay't al-Sind'.

Sufi Sage of Arabia Jul 08 2020 This biography of the saint and Iman Abdallah al-Haddad takes readers into the fascinating world and spiritual life of 17th- and early 18th-century Yemen. The life of this renowned spiritual master whose teachings and personal example continue to influence lives around the world is examined, from his early attraction to Sufi poetry and visit to the tomb of the prophet Hud to his rise as a Sufi master, his Hajj journey to Mecca, and his death. The biographical facts of al-Haddad's life are interspersed with 35 black and white photographs and ruminations on his spiritual teachings, including his take on the "nine stages of certainty," the five investitures of taqwa, the stages of gnosis, and karamat and super natural events. Chronicles of Majnun Layla and Selected Poems Jun 06 2020 *Chronicles of Majnun Layla and Selected Poems* brings together in one volume Haddad's seminal work and a considerable selection of poems from his oeuvre, stretching over forty years. The central poem, *Chronicles of Majnun Layla*, recasts the seventh-century myth into a contemporary, postmodern narrative that revels in the foibles of oral transmission, weaving a small side cast of characters into the fabric of the poem. Haddad portrays Layla as a daring woman aware of her own needs and desires and not afraid to articulate them. The author succeeds in reviving this classical work of Arabian love while liberating it from its puritanical dimension and tribal overtones. The selected poems reveal Haddad's playful yet profound meditations. A powerful lyric poet, Haddad juxtaposes classical and modern symbols, and mixes the old with the new, the sensual with the sacred, and the common with the extraordinary. Ghazoul and Verlenden's masterful translation remains faithful to the cultural and historical context in which the original poetry was produced while also reflecting the uniqueness of the poet's style and his poetics.

Elusive Hunters Nov 04 2022 "This is an account of a remarkable nomadic people in West Africa, presumably the only hunting and foraging community to withstand its bloody legacy of slave-raiding, colonization, warfare and environmental degradation of the Sahel to our time. The book traces the history of this unique but little known people to the Banu Duku Empire in Chad in the sixth century AD that is to the very origin of the Sudanese States. Based on her own fieldwork and 'excavation' of the scanty sources on Kanem and the Bahr el Ghazal, the author offers a fascinating description of the everyday life, subsistence activities, dwellings, poetry, music and crafts of the Haddad and their interaction with pastoral and agro-pastoral groups. The book takes the reader on hunting expeditions with a group which chases gazelle and antelope into cleverly placed 'traps' of nets and describes how hunters of another group crawl up upon their prey in disguise with bow and arrow as did prehistoric man in the region known to us from Saharan rock paintings. The analysis anchors the Haddad within the complex historical and multi-ethnic setting of the region and outlines the traumatic social and cultural implications for these nomadic people of warfare, the

presence of dominant groups, French colonial policies and more recent interventions by the State. The ongoing existence of nomadic peoples in West Africa has so far gone largely unnoticed. It is the intention of the book to stimulate the interest of scholars and a wider readership of African history, culture and social issues by adding this unique material on the indigenous Haddad to the puzzle."--Publisher's description.

The Sublime Treasures Jan 14 2021 Answering questions from scholars and travelers on the Sufi path, this core statement of Sufi belief explains confusing and obscure points of devoted practice. The discussion covers the beliefs of the Pole of Time and the Circle of Saints, the states of extinction and subsistence, the nature of universal existence, and technical points concerning the relationship between master and novice. There are also rulings on more practical questions about the respective merits of fame and obscurity, the correct way to worship the spirits of the dead, and the causes of civil war. The book is also notable for a fascinating stylistic technique: the curt and pitiless dismissals of all questions not on the traveler's path.

Guapa Dec 25 2021 A novel of the Arab Spring A Middle-Eastern capital caught in the revolutionary wave of the Arab Spring. A day in the life of a young man disillusioned with both East and West and struggling to find a place for himself in a society ruled by hypocrisy and contradictions. Rasa works as an interpreter for Western journalists by day and divides his nights between the Guapa, an underground nightclub where the city's clandestine LGBT community congregates, and his secret lover Taymour. Every

night Taymour sneaks into the house Rasa shares with his overbearing grandmother, the woman who raised him. When she finds them in bed together on the eve of Taymour's wedding day, all hell breaks loose. That same day Rasa learns his best friend, the famous drag queen Majid, has been arrested by the police. Unable to go home, afraid for Majid's fate, and heartbroken by Taymour's determination to keep living a double life, Rasa's fragile balance collapses, while all around him the brief, intense season of public protest is cut short by the regime's repression and the rapid rise of the hard-line Islamist movement. Wry and aching, irresistibly funny at times, Guapa heralds the arrival of a strong new voice from the Arabic world.

I Killed Scheherazade Feb 24 2022 Fiery and candid; a provocative and courageous exploration of what it means to be an Arab woman today.

The Refugee in International Society Mar 16 2021 With the unrelenting unrest in places such as Iraq, Afghanistan and the Sudan, the plight of refugees has become an increasingly discussed topic in international relations. Why do we have refugees? When did the refugee 'problem' emerge? How can the refugee ever be reconciled with an international system that rests on sovereignty? Looking at three key periods - the inter-war period, the Cold War and the present day - Emma Haddad demonstrates how a specific image has defined the refugee since the international states system arose in its modern form and that refugees have thus been qualitatively the same over the course of history. This historical and normative approach suggests new ways to understand refugees and to formulate responses to them. By examining the issue from an international society perspective, this book highlights how refugees are an inevitable, if unanticipated, result of erecting political borders.

Superman is an Arab Sep 21 2021 This is not a manifesto against men in general. Nor is it a manifesto against Arab men in particular. It is, however, a howl in the face of a particular species of men: the macho species, Supermen, as they like to envision themselves. But Superman is a lie. In this explosive sequel to I Killed Scheherazade, Joumana Haddad examines the patriarchal system that continues to dominate in the Arab world and beyond. From monotheist religions and the concept of marriage to institutionalised machismo and widespread double standards, Haddad reflects upon the vital need for a new masculinity in these times of revolution and change in the Middle East. 'The revolution and its backlash are not just being fought in the streets, squares and elections across the Middle East, but also on the faces and bodies of millions of Arab women and their sisters across the world. Haddad speaks for all of us. It's time to listen.' Bidisha 'One of the most intelligent, talented and courageous young Arab poets and intellectuals today' Mahmoud Darwish 'The Germain Greer of Lebanon' Independent.

Desirable Body Aug 28 2019 A medical mystery/fantasy/love story that delves deeply into the nature of consciousness while raising many of the ethical and existential issues facing scientists today A contemporary Frankenstein that defies expectations, this is a thrilling novel, couched in luminous, captivating prose about a journalist, Cédric Allyn-Weberson, who suffers a horrific accident, paralyzing him from the neck down. An ideal candidate for a body transplant, Cédric survives the surgery but has both physical and

existential trouble with his recovery and adaptation: encountering his lover with a new body, discovering the life history of his donor, and attempting to understand the mind-body relationship as he lives it. Haddad explores the confusion and insignificance of a single consciousness before experience and identity: What is a head without a body? What or who is a lover with another's body? The gruesome transplant (detailed in a manner that highlights the author's own diligent research and comprehension) parallels other ways humanity mutates nature globally; the novel is a provocative and timely allegory—a work of dystopian fantasy.

The Last Butterflies Mar 04 2020 A remarkable look at the rarest butterflies, how global changes threaten their existence, and how we can bring them back from near-extinction Most of us have heard of such popular butterflies as the Monarch or Painted Lady. But what about the Fender's Blue? Or the St. Francis' Satyr? Because of their extreme rarity, these butterflies are not well-known, yet they are remarkable species with important lessons to teach us. The Last Butterflies spotlights the rarest of these creatures—some numbering no more than what can be held in one hand. Drawing from his own first-hand experiences, Nick Haddad explores the challenges of tracking these vanishing butterflies, why they are disappearing, and why they are worth saving. He also provides startling insights into the effects of human activity and environmental change on the planet's biodiversity. Weaving a vivid and personal narrative with ideas from ecology and conservation, Haddad illustrates the race against time to reverse the decline of six butterfly species. Many scientists mistakenly assume we fully understand butterflies' natural histories. Yet, as with the Large Blue in England, we too often know too little and the conservation consequences are dire. Haddad argues that a hands-off approach is not effective and that in many instances, like for the Fender's Blue and Bay Checkerspot, active and aggressive management is necessary. With deliberate conservation, rare butterflies can coexist with people, inhabit urban fringes, and, in the case of the St. Francis' Satyr, even reside on bomb ranges and military land. Haddad shows that through the efforts to protect and restore butterflies, we might learn how to successfully confront conservation issues for all animals and plants. A moving account of extinction, recovery, and hope, The Last Butterflies demonstrates the great value of these beautiful insects to science, conservation, and people.

Freewaytopia: How Freeways Shaped Los Angeles Jul 20 2021 Freewaytopia: How Freeways Shaped Los Angeles explores how social, economic, political, and cultural demands created the web of expressways whose very form-futuristic, majestic, and progressive-perfectly exemplifies the City of Angels. From the Arroyo Seco, which began construction during the Great Depression, to the Simi Valley and Century Freeways, which were completed in 1993, author Paul Haddad provides an entertaining and engaging history of the 527 miles of road that comprise the Los Angeles freeway system. Each of Los Angeles's twelve freeways receives its own chapter, and these are supplemented by "Off-Ramps"-sidebars that dish out pithy factoids about Botts' Dots, SigAlerts, and all matter of freeway lexicon, such as why Southern Californians are the only people in the country who place the word "the" in front of their interstates, as in "the 5," or "the 101." Freewaytopia also explores those

routes that never saw the light of day. Imagine superhighways burrowing through Laurel Canyon, tunneling under the Hollywood Sign, or spanning the waters of Santa Monica Bay. With a few more legislative strokes of the pen, you wouldn't have to imagine them—they'd already exist. Haddad notably gives voice to those individuals whose lives were inextricably connected—for better or worse—to the city's freeways: The hundreds of thousands of mostly minority and lower-class residents who protested against their displacement as a result of eminent domain. Women engineers who excelled in a man's field. Elected officials who helped further freeways . . . or stop them dead in their tracks. And he pays tribute to the corps of civic and state highway employees whose collective vision, expertise, and dedication created not just the most famous freeway network in the world, but feats of engineering that, at their best, achieve architectural poetry. Finally, let's not forget the beauty queens—no freeway in Los Angeles ever opened without their royal presence.

This is Cancer Jan 26 2022 Cancer is indiscriminate. It cares little for class, creed or color. Its patients are literally everywhere. When Laura Holmes Haddad was diagnosed, she discovered shelf upon shelf of overly-earnest, somber, gray survival books, and knew there had to be a better way. A "what to expect when you're expecting" book for the diagnosis you don't want but are stuck with, This Is Cancer is the book that patients keep in their "heading to the hospital bag," because it's the only one that tells them what's going on and keeps them company. Including such useful snippets as: There is no limit to what you will put yourself through when told it might save your life. Stay away from the Internet. And don't let anyone tell you "what they looked up" about your diagnosis. You'll be surrounded by people but you'll feel lonely, and alone, sometimes. Lexapro is Tylenol for the soul. If you don't like your doctor(s), find new ones. You will feel somewhat at the mercy of them, like they hold the key to your mortality, but in fact more than one doctor can potentially save you and some are nice and some are mean. Whether you or your loved ones want a primer full of useful information in an easy to reference format or a friendly and comforting read, the honest, grave, and mordantly funny stories and tips from young survivors will bring you the real intel and advice that you need most during this tremendously difficult time.

Sectarianism in Iraq Nov 23 2021 Viewing Iraq from the outside is made easier by compartmentalising its people (at least the Arabs among them) into Shi'as and Sunnis. But can such broad terms, inherently resistant to accurate quantification, description and definition, ever be a useful reflection of any society? If not, are we to discard the terms 'Shi'a' and 'Sunnis' in seeking to understand Iraq? Or are we to deny their relevance and ignore them when considering Iraqi society? How are we to view the common Iraqi injunction that 'we are all brothers' or that 'we have no Shi'as and Sunnis' against the fact of sectarian civil war in 2006? Are they friends or enemies? Are they united or divided; indeed, are they Iraqis or are they

Shi'as and Sunnis? Fanar Haddad provides the first comprehensive examination of sectarian relations and sectarian identities in Iraq. Rather than treating the subject by recourse to broad-based categorisation, his analysis recognises the inherent ambiguity of group identity. The salience of sectarian identity and views towards self and other are neither fixed nor constant; rather, they are part of a continuously fluctuating dynamic that sees the relevance of sectarian identity advancing and receding according to context and to wider socioeconomic and political conditions. What drives the salience of sectarian identity? How are sectarian identities negotiated in relation to Iraqi national identity and what role do sectarian identities play in the social and political lives of Iraqi Sunnis and Shi'as? These are some of the questions explored in this book with a particular focus on the two most significant turning points in modern Iraqi sectarian relations: the uprisings of March 1991 and the fall of the Ba'ath in 2003. Haddad explores how sectarian identities are negotiated and seeks finally to put to rest the alarmist and reductionist accounts that seek either to portray all things Iraqi in sectarian terms or to reduce sectarian identity to irrelevance.

Guapa Dec 13 2020 A debut novel that tells the story of Rasa, a young gay man coming of age in the Middle East Set over the course of twenty-four hours, *Guapa* follows Rasa, a gay man living in an unnamed Arab country, as he tries to carve out a life for himself in the midst of political and social upheaval. Rasa spends his days translating for Western journalists and pining for the nights when he can sneak his lover, Taymour, into his room. One night Rasa's grandmother – the woman who raised him – catches them in bed together. The following day Rasa is consumed by the search for his best friend Maj, a fiery activist and drag queen star of the underground bar, *Guapa*, who has been arrested by the police. Ashamed to go home and face his grandmother, and reeling from the potential loss of the three most important people in his life, Rasa roams the city's slums and prisons, the lavish weddings of the country's elite, and the bars where outcasts and intellectuals drink to a long-lost revolution. Each new encounter leads him closer to confronting his own identity, as he revisits his childhood and probes the secrets that haunt his family. As Rasa confronts the simultaneous collapse of political hope and his closest personal relationships, he is forced to discover the roots of his alienation and try to re-emerge into a society that may never accept him.

America's First Adventure in China Sep 29 2019 In 1784, when Americans

first voyaged to China, they confronted Chinese authorities who were unaware that the United States even existed. Nevertheless, a long, complicated, and fruitful trade relationship was born after American traders, missionaries, diplomats, and others sailed to China with lofty ambitions: to acquire fabulous wealth, convert China to Christianity, and even command a Chinese army. In *America's First Adventure in China*, John Haddad provides a colorful history of the evolving cultural exchange and interactions between these countries. He recounts how American expatriates adopted a pragmatic attitude—as well as an entrepreneurial spirit and improvisational approach—to their dealings with the Chinese. Haddad shows how opium played a potent role in the dreams of Americans who either smuggled it or opposed its importation, and he considers the missionary movement that compelled individuals to accept a hard life in an alien culture. As a result of their efforts, Americans achieved a favorable outcome—they established a unique presence in China—and cultivated a relationship whose complexities continue to grow.

Understanding 'Sectarianism' May 18 2021 "Sectarianism" is one of the most over-discussed yet under-analyzed concepts in debates about the Middle East. Despite the deluge of commentary, there is no agreement on what "sectarianism" is. Is it a social issue, one of dogmatic incompatibility, a historic one or one purely related to modern power politics? Is it something innately felt or politically imposed? Is it a product of modernity or its antithesis? Is it a function of the nation-state or its negation? This book seeks to move the study of modern sectarian dynamics beyond these analytically paralyzing dichotomies by shifting the focus away from the meaningless '-ism' towards the root: sectarian identity. How are Sunni and Shi'a identities imagined, experienced and negotiated and how do they relate to and interact with other identities? Looking at the modern history of the Arab world, Haddad seeks to understand sectarian identity not as a monochrome frame of identification but as a multi-layered concept that operates on several dimensions: religious, subnational, national and transnational. Far from a uniquely Middle Eastern, Arab, or Islamic phenomenon, a better understanding of sectarian identity reveals that the many facets of sectarian relations that are misleadingly labelled "sectarianism" are echoed in intergroup relations worldwide.

Spacelab Payloads Aug 21 2021 Spacelab was a reusable laboratory facility that was flown on the Space Shuttle from 1983 to 1998. Completing 22 major missions and contributing to many other NASA goals, Spacelab stands as one of the Shuttle program's most resounding successes. The system comprised multiple components, including a pressurized laboratory module, unpressurized carrier pallets and other related hardware, all housed in the Shuttle's Payload Bay and crew compartment. But how did all those varied components actually come together? The answer is the little-known "Level-IV", a team of managers and engineers who molded separate elements of hardware into cohesive and safe payloads. Without the dedication and drive of the Level-IV team, the huge successes of the Spacelab missions would not have been achieved. This is their story. You will learn herein how Level-IV was formed, who was involved, and the accomplishments, setbacks and problems faced along the way, in a story that blends both the professional and personal sides of Level-IV operations and its legacy. Upon reading this book, you will gain a new appreciation for this crucial team and understand what is meant when you hear the term "Level-IV".
