**Women Novelists and the Ethics of Desire, 1684–1814** Dec 02 2020 In Women Novelists and the Ethics of Desire, 1684-1814, Elizabeth Kraft radically alters our conventional views of early women novelists by taking seriously their representations of female desire. To this end, she reads the fiction of Aphra Behn, Delarivier Manley, Eliza Haywood, Sarah Fielding, Charlotte Smith, Frances Burney, and Elizabeth Inchbald in light of ethical paradigms drawn from biblical texts about women and desire. Like their paradigmatic foremothers, these early women novelists create female characters who demonstrate

subjectivity and responsibility for the other even as they grapple with the exigencies imposed on them by circumstance and convention. Kraft's study, informed by ethical theorists such as Emmanuel Levinas and Luce Irigaray, is remarkable in its juxtaposition of narratives from ancient and early modern times. These pairings enable Kraft to demonstrate not only the centrality of female desire in eighteenth-century culture and literature but its ethical importance as well.

**The Change Imperative** Jan 15 2022 "As a leader in one of the large lumbering INGOs Paul is aiming at, I find his articulation and analysis of both the influence we have and the challenges We face very real and insightful."—Penny Lawrence, International Programmes Director, Oxfam GB "Concisely and convincingly makes the case for fundamental change in the way civil society organizes itself to meet the challenges of the 21st century."—Robert Glasser, Secretary General, CARE International "The INGOs' role in global governance is too important to be allowed to ossify, atrophy or diminish—change is an

imperative and Paul Ronalds points the way forward."---Greg Bourne, CEO, WWE-Australia "NGOs must become more adept at dealing with the growing uncertainties they face and responsibilities they choose to carry. At last, we have an insider's perspective on what could be done if the will is there. In the 21st century, an NGO's failure to regenerate will not be for want of the clear analysis and practical advice that this book provides."---Alan Fowler, International Institute of Social Studies, Erasmus University "Leaders of INGOs have only brief organizational history and sparse literature to guide them into the future. I am grateful to Paul Ronalds for adding to the store of knowledge on this topic and believe his work will help INGOs remain relevant and effective."---Ian Wishart, CEO, Plan International Australia Whether they like it or not, relief and development NGOs are in the midst of a revolution. Faced with the challenge of managing their growing influence in international politics, these Organizations are making operational decisions that will determine their survival. Those that find themselves hampered by the increased politicization of aid and demands on their accountability; those that struggle to define their work in a world that has only recently begun to recognize their authority, will fail to meet their goals. Those that are committed to flexibility, learning new technologies and rethinking their strategies and structure will see their organizations succeed. Author Paul Ronalds brings his experience as Deputy CEO of World Vision Australia to other NGO managers in *The Change Imperative*, guiding them through the challenges they must overcome to maintain effectiveness in the 21st century. He covers the practical issues leaders are facing in areas such as advocacy, fundraising, technology, financing and human resources, but also the more ambiguous issues: legitimacy, state sovereignty and political analysis. Ronalds' book is a must-have for both students and managers pursuing influential careers in charitable, development and aid organizations.

**Fitzgerald's Rubáiyát of Omar Khayyám** Apr 25 2020 Edward FitzGerald's 'Rubáiyát', loosely based on verses attributed to the eleventh-century Persian writer, Omar Khayyám, has become one of the most widely known poems in the world, republished virtually every year from 1879 to the present day, and translated into over eighty different languages. And yet it has been largely ignored or at best patronized by the academic establishment. This volume sets out to explore the reasons for both the popularity and the neglect.

Authority in European Book Culture 1400-1600 Feb 16 2022 Through its many and varied manifestations, authority has frequently played a role in the communication process in both manuscript and print. This volume explores how authority, whether religious, intellectual, political or social, has enforced the circulation of certain texts and text versions, or acted to prevent the distribution of books, pamphlets and other print matter. It also analyzes how readers, writers and printers have sometimes rebelled against the constraints and restrictions of authority, publishing controversial works anonymously or counterfeiting authoritative texts; and how the written or printed word itself has sometimes been perceived to have a kind of authority, which might have had ramifications in social, political or religious spheres. Contributors look at the experience of various European cultures-English, French, German and Italian-to allow for comparative study of a number of questions pertinent to the period. Among the issues explored are local and regional factors influencing book production; the interplay between manuscript and print culture; the slippage between authorship and authority; and the role of civic and religious authority in cultural production. Deliberately conceived to foster interdisciplinary dialogue between the history of the book, and literary and cultural history, this volume takes a pan-European perspective to explore the ways in which authority infiltrates and is in turn propagated or undermined by book culture.

The sudden death of Noble precipitated four bids from companies and individuals keen to acquire the brand, but in 2003 an all-employee buyout fought off the would-be 'predators'. The book recounts the challenging but impassioned journey of the founders and employee-owners as they strive to make a success of the business. *Local Heroes* is an absorbing tale, covering environmental business practice, the glory and travails of entrepreneurship, and also the remarkable liberation into shared ownership which, properly managed, inspires commitment, productivity, job satisfaction and widely shared prosperity.

[A. N. Whitehead and Social Theory](#) Apr 06 2021 The contemporary importance of A. N. Whitehead (1861-1947) lies in his direct yet productive challenge to the culture of thought inherent in modernity that suffuses science, social theory and philosophy alike. Unlike the more destructive aspects of post-modernism and post-structuralism, Whitehead's diagnosis of the conceptual fault-lines of the modern era does not entail a passive relativism, nor does it assign a negative role to thought. Instead, he calls for a renewal of critical thinking. Whitehead's own, positive, philosophical approach is based on becoming, relativity, and a re-conception of subjectivity and the social. This book outlines Whitehead's thought and uses it to re-orient a range of specific questions within contemporary social theory, namely: the relation of language and the body; the individual and society; sexual difference and conceptions of nature; the question of realism; the concept of the social; and viewing capitalism as process. It also provides detailed analyses and comparisons of Whitehead's concepts with those of Judith Butler on materiality and the body, and those of Luce Irigaray on nature, essentialism and sexual difference.

**Has Grace Been Abused?** Aug 10 2021 "Grace is an important aspect of Christian walk. Grace means that which is freely given by God, and it is received by faith without being earned or deserved. In this book, this truth is clearly explained along with how Paul the apostle warns us not to abuse the grace that is given to us by God. Isaiah 11:2 describes the Spirit of God as the Spirit of the fear of God. The Holy Spirit is also called the Spirit of Grace in Hebrew 10:29. Where the Spirit of God is present, remember the fear of God is also present. I believe this book can be used as a study guide and also to learn about God's grace. It is a book that will inspire you to walk in the knowledge and grace of our Lord, Jesus Christ."

—Dr. Rajan Thiagarajah, Senior Pastor Mighty Living Waters Life Fellowship, Australia "Many have distorted, perverted and actually destroyed the meaning of being 'under grace' by interpreting it to mean 'a license for the flesh and sin.' The author of *Has Grace Been Abused?* has written this book to combat this insidious or dangerous teaching and interpretation of the Grace of God. Each and every chapter is filled with Scripture verses refuting this teaching and lifestyle, which is totally against the clear Word of God. —Rev. Dr. Margaret Seaward, Singapore *Has Grace Been Abused?* is a good book and points the way to a life of holiness in a time when the wonderful 'Grace Message' - as in Paul's time - is being misrepresented by some who are "grace-abusers". - Dr Kevin John Conner, former Senior Minister of CityLife Church Melbourne, Australia

**Not Tonight Mr Right** Mar 25 2020 'There are three possible parts to a date, of which at least two must be offered: entertainment, food and affection. It is customary to begin a series of dates with a great deal of entertainment, a moderate amount of food and the mere suggestion of affection. As the amount of affection increases, the entertainment can be reduced proportionally. When the affection is the entertainment, we no longer call it dating.' *Miss Manners In Not Tonight, Mr Right*, Kate Taylor teaches modern women how, why and when not to have sex. OK, it doesn't sound very liberated, but it is very empowering . . . well, it's mainly just hilarious, but does make a lot of sense too. Quiz: How Much Do You Need This Book?1. Have you ever had sex when, looking back, a simple 'Thanks for dinner' or 'I'm sorry I forgot your birthday' would have sufficed?2. Have you ever tried to win back a bored boyfriend with a complicated technique called something like 'Crouching Tiger, Hidden Hard-On'?3. Have you ever had sex with someone you weren't that keen on, but still felt irrationally annoyed when they didn't call you again afterwards?4. Have you ever wished you knew the perfect moment to shag?

**Getting Your Kids Through Church Without Them Ending Up Hati** Nov 01 2020 It is every Christian parent's fear: what if my child falls away because of something I did, or said, or was? Rob is extremely reassuring. His pragmatic, candid approach provides both parenting advice and guidance for parents about their own spiritual development. Rob identifies five traits which can quench faith in your

child: busyness, cynicism, hypocrisy, judgementalism and over-familiarity (your children never know when they should take off their shoes). He teaches that disappointment is an inevitable part of growing up. There will come a time when they are disappointed with Christians, the Church, themselves and even God. We should teach our children how to love God even when things fall apart. Do not hide your children from the world: instead, help them to discriminate. Above all, provide them with a vision or what they can be and can achieve. Peter became a fisher of men.

*Digging Up Plugstreet* Jun 27 2020 This is the compelling story of the Australian soldiers of the 3rd Infantry Division who journeyed to England in 1914, and who fought and died on the Western Front during the First World War. It presents a unique window into the world of the men who marched away to fight the so-called 'war to end wars'.

**Psychoanalytic Reflections on Politics** Sep 23 2022 Psychoanalytic Reflections on Politics: Fatherlands in mothers' hands is a playful exploration of how people's desires, fantasies, and emotions shape political events and social phenomena. It highlights the mythical sources of today's political projects, the power of political imagination, and the function of symbolism in political thought. Eszter Salgó argues that the driving force for the formation of political communities is fantasy – 'illusions' in a Winnicottian sense, 'phantasies' in a Lacanian sense, 'phantoms' as described by Nicolas Abraham and Maria Torok, and 'dreams' as interpreted by Sándor Ferenczi. She introduces the metaphor of the 'fantastic family' as a symbolic representation of political communities, both to reflect on people's deeply felt desire to find in public life the resolution, love, and wholeness of early childhood, and to unveil the political elite's readiness to don the mask of the 'ideal parent'. The book is divided into two parts. The first part of the book explores the theories of Donald Winnicott and Jacques Lacan: the matrimony on the stage of politics between the 'good-enough mother' and the Symbolic Father which inaugurates the story of democracy's 'fantastic family'. The second part presents the 'fantastic families' of selected countries such as Hungary, Italy, and the world community to explain the proliferation of cosmogony projects, and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions. Psychoanalytic Reflections on Politics: Fatherlands in mothers' hands presents a new way of considering the art of politics, based on the understanding that people perceive reality through imagination and unconscious fantasy. It will be of interest to psychoanalysts, and academics from across the disciplines of politics, psychology, anthropology, sociology, philosophy, literature, and art.

**Rethinking Foreign Investment for Sustainable Development** Oct 20 2019 Consisting of country case studies and comparative analyses from Latin American and US based political economists, this volume examines the recent history of foreign investment for development in Latin America in the context of the current backlash against 'Washington Consensus' policies. These essays form the broad conclusion that foreign direct investment fell far short of generating the necessary linkages for sustainable economic development.

**Prosperous Nation Building Through Shipbuilding** Apr 18 2022 This book elucidates the potential of the shipbuilding industry for initiating economic development, which eventually leads to enhancing the prosperity of a nation. This is explained by intrinsically linking the macroeconomics of the nation with the

microeconomics of the shipbuilding industry. The economic and commercial spin offs by the shipyard to the various industries have been analysed and calculated. An attempt has been made to trace the illustrious past of Indian shipbuilding from the Bronze Age, through the ancient kingdom period, to the present times, in the backdrop of Indian maritime history. The operational requirement of commercial as well as defence shipbuilding has been analysed to assess the available potential market space for the Indian shipbuilding industry. Lessons from history help to formulate future strategies. In pursuit of this, the book investigates the global trends in commercial shipbuilding since the industrial revolution period to date; the success stories of leading shipbuilding nations viz. UK, USA, Japan, Korea and China have been analysed. The benefits accrued by these nations through shipbuilding have been summarised. The strategies adopted by each of these countries to reach the pinnacle in shipbuilding have been examined and the salient features relevant for India have been identified. Productivity measurement in shipbuilding has been examined and the problems with the current system have been highlighted, along with solutions. This book suggests the usage of Data Envelopment Analysis (DEA), a mathematical linear programming technique, as an appropriate tool to measure total productivity as well as profitability. The various ways of improving profitability in shipbuilding, by way of cost-cutting techniques, along with some Indian case studies have been explained in the book. Keeping the 'Indian Maritime Agenda 2010-2020' vision document in the backdrop, a strategic appreciation of the Indian shipbuilding industry has been undertaken using the SWOT, the Matrix and the Scenario analyses. Based on these analyses, strategies have been formulated for all the stakeholders who can influence the Indian shipbuilding industry. The book then identifies the need for an alchemist leader, who can harmonise all the stakeholders and thereby propel the Indian shipbuilding industry towards achieving the long-term goal of creating a prosperous India.

A well-proven concept that works across all industries and all categories in any given situation, it is little wonder that business leaders and procurement professionals alike are excited by, and enjoy strategizing around, the Purchasing Chessboard. This second edition of The Purchasing Chessboard addresses the new realities of a highly volatile economic environment and describes the many—sometimes surprising—ways in which the Purchasing Chessboard is being used in today's business world. Yet despite all of the great achievements of procurement executives and their teams, they do not always receive the recognition they deserve. In response, the authors have developed and outlined within the book an unequivocal approach to measure procurement's impact on a company's performance—Return on Supply Management Assets (ROSMA®).
