*Assessment of Department of Defense Basic Research* Dec 14 2020 The Department of Defense (DOD) supports basic research to advance fundamental knowledge in fields important to national defense. Over the past six years, however, several groups have raised concern about whether the nature of DOD-funded basic research is changing. The concerns include these: Funds are being spent for research that does not fall under DOD's definition of basic research; reporting requirements have become cumbersome and onerous; and basic research is handled differently by the three services. To explore these concerns, the Congress directed DOD to request a study from the National Research Council (NRC) about the nature of basic research now being funded by the Department. Specifically the NRC was to determine if the programs in the DOD basic research portfolio are consistent with the DOD definition of basic research and with the characteristics associated with fundamental research.

The Role of Islamic Spirituality in the Management and Leadership Process Mar 17 2021

Leaders nowadays need to know, learn, and apply the concept of qalb leadership where it has been taught by the Prophet Muhammad as well as explained by Islamic scholars. The comparison with other mindful leadership concepts is required to provide solutions and options in leadership for better outcomes and spiritual awareness. It is found that leadership literature, in general, is unable to generate an understanding of a leadership concept that is both intellectually compelling and emotionally satisfying. As for qalb leadership, it focuses on the spirituality of leadership that can aid in facing unpredictable manners and provide better outcomes for followers. Research on Islamic leadership and spirituality may pave the way for better leadership practices in the future. The Role of Islamic Spirituality in the Management and Leadership Process will elaborate the spirituality and qalb in human life and leadership along with providing a discussion on the role and function of qalb in the overall leadership process. Through spirituality, human interdependence, creativity, and social justice can be created and molded. This type of leadership enables transformation in a natural way without denying basic human nature and imparts balance to both the outer and inner needs of humans. With the discussion of four cardinal virtues of Al-Ghazali, leaders can solve many problems that emerge in their organizations. This book is ideal for managers, executives, theologians, professionals, researchers, academicians, and students who are interested in how Islamic spirituality plays a role in leadership.
