A Gathering of Brilliant Moons Jan 04 2020 Deepen your meditation with advice on Buddhist practice from celebrated masters of Tibet's nonsectarian rimé tradition. For generations, Buddhist masters in Tibet have composed sheldam, poignant instructions tailored to the needs of their disciples in the form of short works of advice. Often difficult to find in publication, these works cover topics ranging from practicing while ill to sitting in solitary retreat to recognizing the nature of mind. This collection focuses on an influential and inspiring generation of Buddhist teachers: the nineteenth-century ecumenical, or rimé, tradition of eastern Tibet. A Gathering of Brilliant Moons provides lively translations of nineteen pithy and profound works by these great masters, along with essays by their translators which explore the aesthetic qualities of their chosen works, highlight their ecumenical features, and comment on the journey of translation. Includes works from Jamgon Kongtrul, Dza Patrul Rinpoché, Ju Mipham Rinpoché, Dudjom Lingpa, The Third Dodrupchen, Do Khyentsé, Tokden Sakya Sri, Jikmé Lingpa, Shardza Tashi Gyaltsen, Getsé Mahapandita, Shangton Tenpa Gyatso, and Banda Thupten Gelek Gyatso. This book arose from a unique conference on Tibetan translation, where the fourteen translators shared their process with each other and received feedback from their peers with a special focus on the literary aspects of the source texts. As a reflection of this genesis, the accompanying essays in this volume by the translators explore the aesthetic qualities of their chosen works, highlight ecumenical features in them, and comment on the journey of translation. This unique book will be welcomed by religious scholars, Buddhist practitioners, and meditators.

British Trade Unions and Industrial Politics Nov 13 2020 First published in 1999, this volume describes the political climate and state of trade unions after the second world war in Britain. Detailing the transition of individuals who had survived in the war or had taken part in the war effort to going back a civilian life in 1945. Following the rise of the Labour party in Britain until 1964.

The Manual of Light & The Manual of the Path to Higher Knowledge Sep 23 2021 This book contains two advanced expositions on the development of higher insight knowledge by the renowned Burmese scholar monk and meditation master Ledi Sayadaw. Topics dealt with include Dependent Origination, Kamma, Causality, and Nibbana. The Manual of the Path of Higher Knowledge (Vijjamagga Dipani) has never been published as an English translation, while The Manual of Light (Alin-Kyan) has not been published in its entirety until now.

On What Matters Jul 10 2020 Derek Parfit presents the third volume of On What Matters, his landmark work of moral philosophy. Parfit develops further his influential treatment of reasons, normativity, the meaning of moral discourse, and the status of morality. He engages with his critics, and shows the way to resolution of their differences. This volume is partly about what it is for things to matter, in the sense that we all have reasons to care about these things. Much of the book discusses three of the main kinds of meta-ethical theory: Normative Naturalism, Quasi-Realist Expressivism, and Non-Metaphysical Non-Naturalism, which Derek Parfit now calls Non-Realist Cognitivism. This third theory claims that, if we use the word 'reality' in an ontologically weighty sense, irreducibly normative truths have no mysterious or incredible ontological implications. If instead we use 'reality' in a wide sense, according to which all truths about reality, this theory claims that some non-empirically discoverable truths-such as logical, mathematical, modal, and some normative truths-raise no difficult ontological questions. Parfit discusses these theories partly by commenting on the views of some of the contributors to Peter Singer's collection Does Anything Really Matter? Parfit on Objectivity. Though Peter Railton is a Naturalist, he has widened his view by accepting some further claims, and he has suggested that this wider version of Naturalism could be combined with Non-Realist Cognitivism. Parfit argues that Railton is right, since these theories no longer deeply disagree. Though Allan Gibbard is a Quasi-Realist Expressivist, he has suggested that the best version of his view could be combined with Non-Realist Cognitivism. Parfit argues that Gibbard is right, since Gibbard and he now accept the other's main meta-ethical claim. It is rare for three such different philosophical theories to be able to be widened in ways that resolve their deepest disagreements. This happy convergence supports the view that these meta-ethical theories are true. Parfit also discusses the views of several other philosophers, and some other meta-ethical and normative questions.

Survival Manual for Elders Aug 30 2019 Helps seniors and their caregivers successfully navigate the challenges of aging, make informed decisions, and focus on individualized goals of care to promote resiliency and maximum functional potential. A team of physicians, nurses, social workers, psychologists, therapists, chaplains, business and legal experts collaborate on topics such as dignity, health promotion, care choices, common symptoms, medication safety, cognitive and mental health concerns, illness complications, rehabilitation, and recuperation. Discussions of legal advance directives and healthcare finances are particularly helpful in clarifying the maze of choices facing seniors and their caregivers as they negotiate our US industrial, financial, and healthcare complex.

Running Lean Oct 13 2020 We're building more products today than ever before, but most of them fail--not because we can't complete what we want to build but because we waste time, money, and effort building the wrong product. What we need is a systematic process for quickly vetting product ideas and raising our odds of success. That's the promise of Running Lean. In this inspiring book, Ash Maurya takes you through an exacting strategy for achieving product/market fit for your fledgling venture. You'll learn ideas and concepts from several innovative methodologies, including the Lean Startup, business model design, design thinking, and Jobs-to-be-Done. This new edition introduces the continuous innovation framework and follows one entrepreneur's journey from initial vision to a business model that works. Deconstruct your idea using a one-page Lean Canvas Stress-test your idea for desirability, viability, and feasibility Define key milestones charted on a traction roadmap Maximize your team's efforts for speed, learning, and focus Prioritize the right actions at the right time Learn how to conduct effective customer interviews Engage your customers throughout the development cycle Continually test your product with smaller, faster iterations Find a repeatable and scalable business model

Manual Therapy of the Extremities Aug 23 2021 Manual Therapy of the Extremities presents manual therapy techniques from a variety of perspectives. The presentation of multiple techniques for each joint restriction is a unique feature of this book that provides students with a comprehensive and well-rounded approach to mobilization. The consistent format in the presentation of techniques makes for an easy-to-use resource for students and practicing physical therapists. Additionally, the majority of manual therapy books on the market focus on the spine, whereas this book focuses on the upper and lower extremities.

How to Change the World Apr 06 2020 David Bornstein's How to Change the World is the first book to study a remarkable and growing group of individuals around the world--what Bornstein calls social entrepreneurs. These men and women are bringing innovative, and successful, grass-roots approaches to a wide variety of social and economic problems, from rural poverty in India to discrimination against gypsies in Central Europe; from industrial pollution in the United States to child prostitution in Thailand. Like business entrepreneurs, social entrepreneurs are creative, driven, and adventurous. The embrace

change, exploit new opportunities, and think big. In *How to Change the World*, Bornstein provides vivid profiles of many such individuals, looking at the personalities, strategies, and techniques they have in common. The book is an In Search of Excellence for social initiatives, intertwining personal stories, anecdotes, and analysis. Readers will see how social entrepreneurs bring about structural changes in their societies--in other words, how one human being can make a difference. The case studies in the book include Jody Williams, who won the Nobel Peace Prize for the international campaign against landmines she ran by e-mail from her Vermont home; Roberto Baggio, a 31-year old Brazilian who has established eighty computer schools in the slums of Brazil; and Diana Propper, who has used investment banking techniques to make American corporations responsive to environmental dangers. The paperback edition will offer a new foreword by the author that shows how the concept of social entrepreneurship has expanded and unfolded over the last few years, including the Gates-Buffetts charitable partnership, the rise of Google, and the increased mainstream coverage of the subject. The book will also update the stories of individual social entrepreneurs that appeared in the cloth edition.

The Cold War Spy Pocket Manual Jan 16 2021 "Some twenty-five years after its conclusion, yet with its echoes resonating once more in contemporary East-West relations, the rigors and detail of many aspects of the Cold War are becoming increasingly of interest. Furthermore, at the very same time many of the records of the period are beginning to become accessible for the first time. At the forefront of this unique conflict, that divided the world into two opposing camps for over four decades, were the security services and the agents of these secretive organizations. The Cold War Pocket Manual presents a meticulously compiled selection of recently unclassified documents, field-manuals, briefing directives and intelligence primers that uncover the training and techniques required to function as a spy in the darkest periods of modern history. Material has been researched from the CIA, MI5 and MI6, the KGB, the STASI as well as from the Middle East security services and on into China and the East. As insightful as any drama these documents detail, amongst many other things, the directives that informed nuclear espionage, assassinations, interrogations and the ÔturningÕ of agents and impacted upon the Suez Crisis, the Hungarian Uprising, the ÔCambridge FiveÕ and the most tellingly the Cuban Missile Crisis in 1962. ¥ Full introduction and commentary provided by leading historian and former diplomat Philip Parker. ¥ Complete with a catalogue of, and often instructions for, genuine espionage devices including lock decoders, bugging equipment, a 4.5mm single-shot lipstick gun, microfilm concealing coins and cameras mounted in clothing or pens and shoe-concealed tracking devices. ¥ Presents for the first time the insightful documents, many of which inspired Cold War novelists including John Le CarrŽ, Len Deighton and Ian Fleming, and many of which they would never have seen. "
