Die Bindung internationaler Organisationen an internationale Menschenrechtsstandards Jun 29 2020 English summary: The main goal of international human rights law has been to protect individuals from human rights violations by state governments. However, international organizations have been likewise criticized for violating human rights, such as the UN Security Council for its blacklisting activities. Cornelia Janik has developed methodological approaches in order to establish that international organizations do have human rights obligations under international law as well. German description: Das internationale Menschenrechtssystem ist zunächst als Antwort auf Nationalsozialismus und Zweiten Weltkrieg entstanden und richtet sich an Staaten als potenzielle Menschenrechtsverletzer. Internationale Organisationen, allen voran die UNO, sind nach ihrer historischen Konzeption mit der Aufgabe betraut, Allgemeinwohl und Menschenrechte zu fördern. An Menschenrechtsverträge sind sie selbst nicht gebunden. Die Vorstellung, dass nur Staaten Menschenrechte verletzen, ist indes obsolet, wie etwa die black listing -Aktivitäten des UN-Sicherheitsrates oder die Finanzierung menschenrechtsadverser Projekte durch Weltbank und IWF vor Augen führen. Cornelia Janik zeigt daher methodische Ansätze auf, um die klassischen, auf Staaten zugeschnittenen Völkerrechtsquellen derart weiterzuentwickeln, dass sie auch internationale Organisationen zur Einhaltung internationaler Menschenrechte verpflichten.

A Gift of Grace and Time Oct 22 2019 For Ellen, faith was nonexistent until faith was all she had to cling to. After 24 years together, life partners, Ellen and Paul were married nine months before his passing to the spirit world. When treatments ran out for Paul's dreaded health issues, he confided to Ellen that he was very tired of exotic drugs, daily doctor visits, and feeling terrible. He wanted peace and comfort. So together, they decided hospice was not the only choice but the best choice. Before making the transition to his final reward and eternity, they shared his time going over memorabilia, listening to favorite Big Band music, watching movies, laughing, and telling stories about seashells. Ellen read his Tin Can Sailor magazines aloud, and much time was spent in expressions of love. Ellen stood guard 24/7. Sadly, they were wrong to believe family and lifelong friends would be their support system. Instead, many angels in human form stepped in to give support, camaraderie, and comfort. Ellen, an outspoken believer in science, was presented numerous miracles; miracles that science could not explain.

These miracles and the subtle comfort she felt through prayer led to a profound epiphany in belief. The smell of English leather permeating the night air" Paul 's brother used that brand of cologne, but he had been dead for several years. Another incident, Ellen being violently shaken awake, just in time to untangle her beloved from the blanket and side rail. No one else was in the house, so whose hand shook her shoulder? This is Ellen and Paul's intimate hospice journey. The lessons learned are being shared with the deepest of intentions of easing the load of those facing a hospice odyssey of their own.

Verrechnungspreise und die Aufzeichnungspflicht im brasilianischen und deutschen Steuerrecht Jul 31 2020

Verrechnungspreisaufzeichnungspflichten wurden im letzten Jahrzehnt weltweit zunehmend verschärft und stellen ein erhöhtes Risiko für grenzüberschreitende Transaktionen zwischen verbundenen Parteien dar. Trotz multilateraler Bemühungen (z. B. die OECD-RL), kreieren protektionistische Vorschriften Verzerrungen, die das Risiko von Doppelbesteuerung erhöhen und nicht selten die Überschreitung von vorrangigem Recht und Prinzipien verursachen. Der Autor untersucht das brasilianische Recht, das vom Fremdvergleichsprinzip deutlich abweicht, und prüft, ob die Verrechnungspreisregeln mit den Beschränkungen der Besteuerungsgewalt vereinbar sind. Berührungspunkte sowie mögliche Beiträge des deutschen Rechts zur Entwicklung des brasilianischen Rechts werden analysiert. Dabei werden die deutschen Dokumentationsvorschriften untersucht und deren Vereinbarkeit mit dem Europarecht kritisiert.

In Camera: How to Get Perfect Pictures Straight Out of the Camera Sep 20 2019 With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

Transport Phenomena in Materials Processing Jul 19 2019 This text provides a teachable and readable approach to transport phenomena (momentum, heat, and mass transport) by providing numerous examples and applications, which are particularly important to metallurgical, ceramic, and materials engineers. Because the authors feel that it is important for students and practicing engineers to visualize the physical situations, they have attempted to lead the reader through the development and solution of the relevant differential equations by applying the familiar principles of conservation to numerous situations and by including many worked examples in each chapter. The book is organized in a manner characteristic of other texts in transport phenomena. Section I deals with the properties and mechanics of fluid motion; Section II with thermal properties and heat transfer; and Section III with diffusion and mass transfer. The authors depart from tradition by building on a presumed understanding of the relationships between the structure and properties of matter, particularly in the chapters devoted to the transport properties (viscosity, thermal conductivity, and the diffusion coefficients). In addition, generous portions of the text, numerous examples, and many problems at the ends of the chapters apply transport phenomena to materials processing.

Changing Youth Values in Southeast Europe Nov 22 2019 What shapes the cultural, political and ideological values of young people living in Southeastern Europe? Which identities matter to them? How are their values changing, and how can they be changed? Who is changing them? Europe's periphery is the testing ground for the success of European values and identities. The future stability and political coherence of the Union will be determined in large measure by identity issues in this region. This book examines the ways in which ethnic and national values and identities have been surpassed as the overriding focus in the lives of the region's youth. Employing bottom-up, ethnographic, and interview-based approaches, it explores when and where ethnic and national identification processes become salient. Using intra-national and international comparisons of youth populations of Albania, Bosnia-Herzegovina, Croatia, Macedonia, Montenegro, and Serbia, contributors uncover the mechanisms by which ethnic identities are evoked, reproduced and challenged. In addition to exploring political, regional cultural generational and class identities, the contributors examine wider questions of European unity. This volume offers a corrective to previous thinking about youth ethnic identities and will prove useful to scholars in political science and sociology studying issues of ethnic and national identities and nationalism, as well as youth cultures and identities.
